(SEPARATELY CIRCULATED)

The framework is intended to be modular in its nature and designed with future scalability in mind. This isn't about trying to capture everything immediately, but rather having an agreed and appropriately staged approach that moves us towards a well-defined end point.

We are extremely supportive of this application and believe that the development of a comprehensive National Waste Data Framework will provide an essential tool to facilitate waste minimisation and infrastructure planning.

Yours faithfully

Kitty Waghorn
Solid Waste Asset Manager
Waimakariri District Council
On behalf of the member Councils of the Canterbury Waste Joint Committee
