5.1 The Rutland Street Reserve – David Brown

David Brown spoke to the Board about the condition of the Rutland Street Reserve in support of his correspondence (refer item 7.2 of these minutes). Post-earthquake the land dropped and two springs appeared near the boundary drain. Trenches were dug to facilitate a direct flow from the springs to the drain which remediated the problem for a time.

However in wet weather this area of the reserve becomes saturated delaying grounds maintenance and mowing and causes a hazard. Given the proximity of the children's playground and neighbouring schools concerns were expressed about community safety.

John Stringer entered the meeting at 9:05am.
