

## **Papanui-Innes Community Board AGENDA**

---

### **Notice of Meeting:**

An ordinary meeting of the Papanui-Innes Community Board will be held on:

**Date:** Friday 18 May 2018  
**Time:** 9am  
**Venue:** Board Room, Papanui Service Centre,  
Corner Langdons Road and Restell Street, Papanui

---

### **Membership**

Chairperson	Ali Jones
Deputy Chairperson	Emma Norrish
Members	Jo Byrne
	Pauline Cotter
	Mike Davidson
	John Stringer

---

**15 May 2018**

Christine Lane  
Manager Community Governance, Papanui-Innes

## STAFF REPORTS

C	8.	Application to the Papanui-Innes Community Board's 2017/18 Positive Youth Development Fund - Nick Andre Moulai .....	23
C	9.	Application to the Papanui-Innes Community Board's 2017-18 Positive Youth Development Fund - Strikeforce Boxing.....	27
B	10.	Papanui-Innes Community Board Area Report - 18 May 2018 .....	29
B	11.	Elected Members' Information Exchange .....	41

## **1. Apologies**

At the close of the agenda no apologies had been received.

## **2. Declarations of Interest**

Members are reminded of the need to be vigilant and to stand aside from decision making when a conflict arises between their role as an elected representative and any private or other external interest they might have.

## **3. Confirmation of Previous Minutes**

That the minutes of the Papanui-Innes Community Board meeting held on [Friday, 27 April 2018](#) be confirmed (refer page 5).

## **4. Public Forum**

A period of up to 30 minutes will be available for people to speak for up to five minutes on any issue that is not the subject of a separate hearings process.

### **4.1 Positive Youth Development Fund Report – Belfast School**

Representatives from the Prefects and House Captains of Belfast School will attend the meeting to report back to the Board on their participation in the Te Koru Leadership Camp from 27–28 March 2018.

### **4.2 Positive Youth Development Fund Report – Kyla-Jaye Bartlett**

Kyla-Jaye Bartlett will report back to the Board on her attendance at the Aotearoa Maori National Netball Oranga Health Lifestyle Tournament held in Gisborne from 29 March to 3 April 2018.

## **5. Deputations by Appointment**

There were no deputations by appointment at the time the agenda was prepared.

## **6. Presentation of Petitions**

There were no petitions received at the time the agenda was prepared.

---

## Papanui-Innes Community Board OPEN MINUTES

---

**Date:** Friday 27 April 2018  
**Time:** 9.01am  
**Venue:** Board Room, Papanui Service Centre,  
Corner Langdons Road and Restell Street, Papanui

---

**Present**

Chairperson	Ali Jones
Deputy Chairperson	Emma Norrish
Members	Jo Byrne

- Part A**      **Matters Requiring a Council Decision**  
**Part B**      **Reports for Information**  
**Part C**      **Decisions Under Delegation**
- 

The agenda was dealt with in the following order.

## **1. Apologies**

**Part C**

There were no apologies.

## **2. Declarations of Interest**

**Part B**

There were no declarations of interest recorded.

## **3. Confirmation of Previous Minutes**

**Part C**

**Community Board Resolved PICB/2018/00027**

That the minutes of the Papanui-Innes Community Board meeting held on Friday, 13 April 2018 and the minutes of the Papanui-Innes Community Board Public Excluded meeting held on Friday, 23 March 2018 be confirmed subject to the following amendments to the open minutes of the Board meeting held on Friday, 13 April 2018:

Item 4.1 Delete “competing at the Gold Coast Summer Classic Baseball Tournament in Australia from 2–9 January 2018” and replace with “on attending the Staveley Adventure Camp from 2-9 January 2018),

and

Item 7. Resolution No. 2 add “including an update on the Dudley Creek Flood Remediation Scheme” to the end of the first sentence, and “and a number of other issues that have been raised by the public” to the end of the second sentence.

Pauline Cotter/Emma Norrish

Carried

## **4. Public Forum**

**Part B**

### **4.1 Positive Youth Development Fund Report - Mostafa Rajabi**

Mostafa Rajabi reported back to the Board on playing as a member of the Senior Boys Futsal Team in the Schools National Tournament in Wellington from 20 to 23 March 2018.

After questions from members, the Chairperson thanked Mostafa for his report.

#### 4.2 Community Energy Action (CEA)

Caroline Shone, Chief Executive of CEA, updated the Board on the latest services and current activities of CEA within the Papanui-Innes area.

After questions from members, the Chairperson thanked Ms Shone for her presentation.

#### 4.3 10 Shirley Road - Don and Joanna Gould

Joanna Gould addressed the Board regarding her ideas for a replacement community facility on the 10 Shirley Road site.

After questions from members, the Chairperson thanked Joanna Gould for her presentation.

### 5. Deputations by Appointment

#### Part B

There were no deputations by appointment.

### 6. Presentation of Petitions

#### Part B

There was no presentation of petitions.

### 7. Level Crossing Approaches - Proposed Road Marking Changes

**Community Board Resolved PICB/2018/00028 (original Staff Recommendations adopted without change)**

#### Part C

The Papanui-Innes Community Board resolved to:

1. Approve the installation of 'no overtaking' road markings in accordance with **Attachments A – J** as displayed in the Agenda on the road approaches to railway level crossings at the following roads:

Kainga Road (**Attachment B**)

Spencerville Road (**Attachment C**)

Radcliffe Road (**Attachment D**)

Belfast Road (**Attachment E**)

Sturrocks Road (**Attachment F**)

Tuckers Road (**Attachment G**)

Sawyers Arms Road (**Attachment H**)

Harewood Road (**Attachment I**)

Blighs Road (**Attachment J**)

Pauline Cotter/Mike Davidson

**Carried**

## 8. Application to the Papanui-Innes Community Board's 2017/18 Positive Youth Development Fund - Alia Govin-Fowler

Community Board Resolved PICB/2018/00029 (original Staff Recommendations adopted without change)

### Part C

The Papanui-Innes Community Board resolved to:

1. Approve a grant of \$300 from its 2017/18 Positive Youth Development Fund to Alia Govin-Fowler towards participating in the Future Problem Solving Championships in Wisconsin, USA from 6 to 10 June 2018.

Jo Byrne/Emma Norrish

Carried

## 9. Application to the Papanui-Innes 2017-18 Discretionary Response Fund - Crimewatch (Chch) Inc

Community Board Resolved PICB/2018/00030 (original Staff Recommendations adopted without change)

### Part C

The Papanui-Innes Community Board resolved to:

1. Approve a grant of \$2,000 to Crimewatch (Chch) Inc. towards vehicle operating costs to enable the delivery of the Northwest area community patrols.

Emma Norrish/Ali Jones

Carried

## 10. Papanui-Innes Community Board Area Report - April 2018

Community Board Resolved PICB/2018/00031 (original Staff Recommendations adopted without change)

### Part B

The Papanui-Innes Community Board resolved to:

1. Receive the Papanui-Innes Community Board Area Report for April 2018.

Mike Davidson/Pauline Cotter

Carried

## 11. Elected Members' Information Exchange

### Part B

Board members exchanged information on matters of current interest on the following:

**11.1 Dudley Creek Flood Remediation Programme**

Board members requested that this be added as an item to the Area Report for regular updates and ask staff whether the worksite servicing the remediation work is being monitored for dust, run off and usage.

**11.2 Living Memorials - Papanui Area**

The Board raised a question regarding the official preservation of the historic trees that were planted as 'living memorials' in the Papanui area which has the largest number of these in the Southern Hemisphere. Staff to look at a partnership with local organisation/s.

**11.3 School Zoning Changes**

The Board requested that a letter be drafted to the Ministry of Education and sent to the Mayor's office for endorsement regarding their concern over the lack of consultation regarding the recent changes in zoning for Shirley Boys and Avonside Girls' High Schools.

**Meeting concluded at 10.08am.**

**CONFIRMED THIS 18<sup>th</sup> DAY OF MAY 2018.**

**ALI JONES  
CHAIRPERSON**

## 7. Correspondence

**Reference:** 18/480738

**Presenter(s):** Helen Miles – Acting Community Governance Manager

### 1. Purpose of Report

Correspondence has been received from:

Name	Subject
Dave and Ann Kennedy	Site at 40 Guild Street
John Allen	Cranford Street – Christchurch Northern Corridor
Clinton Minchington	Cranford Street – Air Quality Monitoring
Three Waters and Waste Unit	Grampian Street Well Site Works

### 2. Staff Recommendations

That the Papanui-Innes Community Board:

1. Receive the information in the correspondence report dated 18 May 2018

**Cc:** Cotter, Pauline; Jones, Ali; Davidson, Mike  
**Subject:** Re: Dudley Creek works and roading and footpaths in Shirley and Richmond

Thank you for the update on the situation at Slater St.

I am very concerned that there doesn't appear to be any opportunity for local residents to challenge the extended period for the occupation of the Churchill Courts site.

This situation has occurred before, when Worthingtons were given an unannounced extension! When that company vacated the site we were given no notice that a new company would be carrying out a business that has been so disruptive to the local residents in a residential area.

What guarantees are you able to give, that will assure the residents that peace and calm can be restored.

And I would like to know what plans you have to notify the residents of any other developments that might be proposed on the site.

Yours expectantly  
Anne Kennedy

**To:** Ali Jones  
**Subject:** Cranford Street

As a resident of Cranford Street I am very concerned at how unsafe this section of Cranford Street will be and the severe lack of community consultation I have received regarding this project.

Some questions for you

Can the residence of St Albans have a safety audit for getting into and out of their residences please.

Who in council is responsible for the CCC section of the project?

Who is the consultation lead, NZTA or CCC?

Why is the design so inherently unsafe, not for one user group but for all?

Where is the alignment with the City's strategies for a safe city and alive-able city?

Are any transport solutions planned to mitigate the high number of single occupant vehicles traveling in and out for work from Waimakariri?

Why is this a car centric project?

Where are the bus shelters?

All of the above do not align with Government policies, why is this?

Why are the residents of St Albans being penalised?

I would appreciate it if these questions could be presented to the Papanui Innes board for a response.

Thanks in advance

Kind Regards

John Allen

Response to John Allen's email from Ali Jones, Chairperson, Papanui-Innes Community Board sent on 10 May 2018

Hi John

I have approached the CNC Alliance comms team (Melanie Williams and Norma Kloosterman) and CCC's Infrastructure Liaison Manager, Ross Herrett - their answers (CNC) and any comments I may have too, are shown below.

JA: As a resident of Cranford Street I am very concerned at how unsafe this section of Cranford Street will be and the severe lack of community consultation I have received regarding this project.

CNC: The comms team at the CNC Alliance believe that since this project began we have listened to all of your concerns and have responded with detailed information, and brought in experts to answer questions where appropriate. We have spoken and met with you on many occasions. We believe you have had every opportunity to contribute and be part of the consultation. Good consultation should enable members of the community to have their say but it does not require that they will always be happy or satisfied with the outcome.

AJ: I note, John, on the CNC website (and of course I am aware as an elected member too) that *"Following extensive community and stakeholder consultation the NZ Transport Agency announced its plans for the Christchurch Northern Corridor in September 2011. Consultation with the community and stakeholders throughout 2010–14 has helped to shape the final design, with changes made where safety and function would allow.*

*Consenting in late 2014 and early 2015 provided further opportunity for the community to share their views on this project."*

<https://www.nzta.govt.nz/projects/christchurch-motorways/christchurch-northern-corridor/project-background/>

JA: Can the residence (sic) of St Albans have a safety audit for getting into and out of their residences please.

CNC: The CNC Alliance will not be commissioning a safety audit on access to and from residential (or small business) driveways in Cranford St or St Albans. As you know our independent safety auditors do not share your concerns regarding access in and out of your driveway. As we have explained safety audits only highlight issues they feel need some consideration or review. For this reason there is no reference to access in and out of residential driveways in our safety audits.

It is not unreasonable for you to ask us to address your concerns but we feel we have adequately and fully done so. We and the Christchurch City Council staff involved feel we have done all we can to address your concerns and don't feel we can do anything more to reassure you that our design for Cranford Street meets the safety standard appropriate for this road.

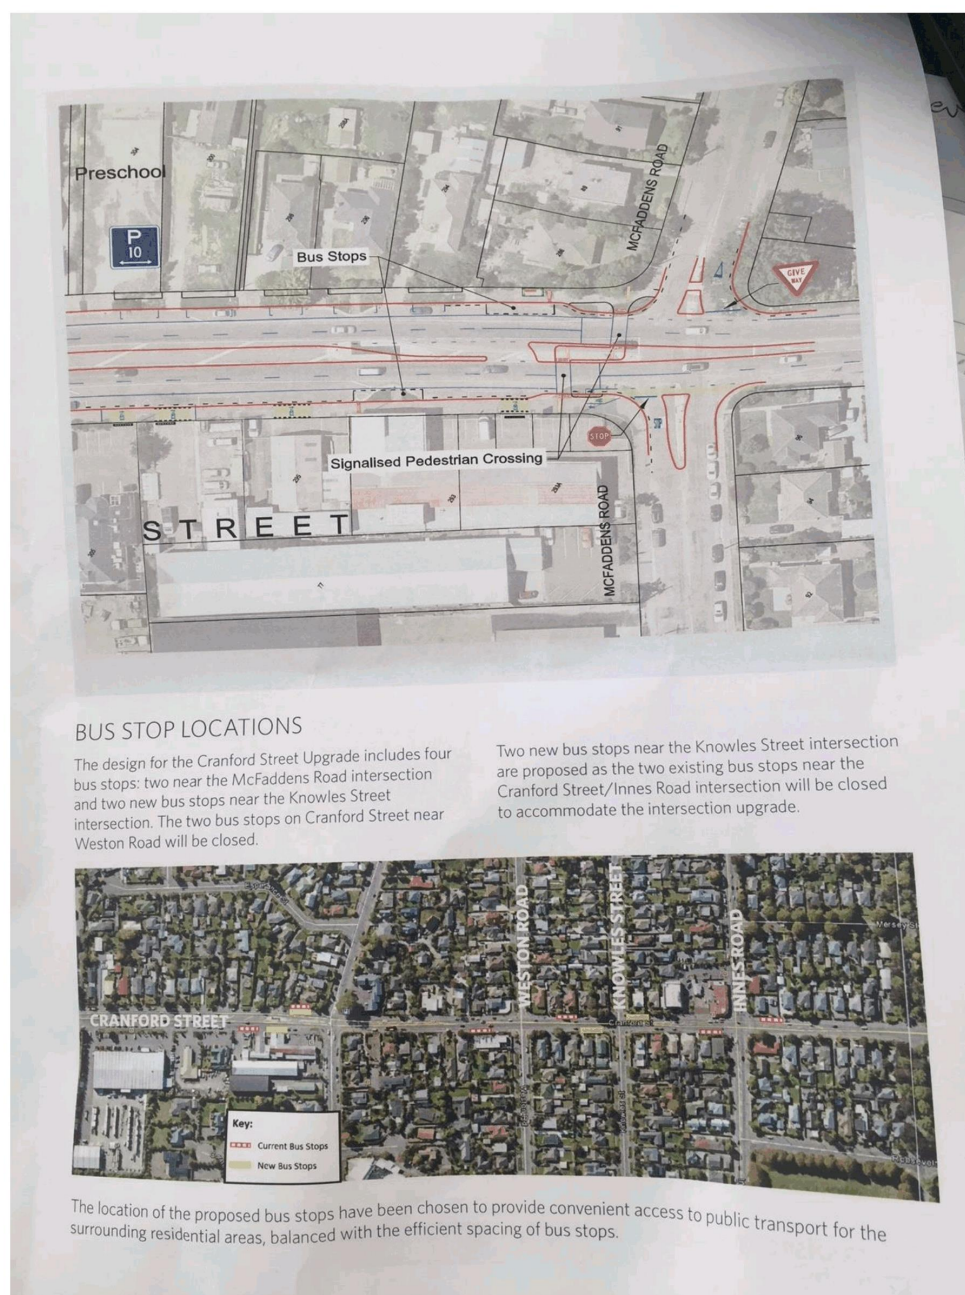

- JA: Who in council is responsible for the CCC section of the project?
- CNC: Ross Herrett is the CCC Representative working with the CNC Alliance; he is the CCC's Infrastructure Liaison Manager. You will recall meeting and discussing your issues with Ross at the Kidds Bakery meeting.
- JA: Who is the consultation lead, NZTA or CCC?
- CNC: Before the CNC Alliance was formed, the NZTA was managing the consultation and communication for the project north of Winters Road and the CCC was managing the consultation and communication for the area south of Winters Road. Since Nov 2016 the CNC Alliance comms team have managed communication for the project (and any consultation required) with input from the CNC Alliance board and NZTA or CCC as needed.
- JA: Why is the design so inherently unsafe, not for one user group but for all?
- CNC: The design is not unsafe. The detailed design meets the standards required for this type of road.
- JA: Where is the alignment with the City's strategies for a safe city and a live-able city?
- CNC: We consider this project does align with the Council's current Strategic Framework.
- JA: Are any transport solutions planned to mitigate the high number of single occupant vehicles traveling in and out for work from Waimakariri?
- CNC: The NZTA are investigating a High Occupancy Vehicle (HOV) lane on the CNC in the morning peak.
- JA: Why is this a car centric project?
- CNC: The CNC project provides benefits for all transport modes. A shared off-road pedestrian and cycle path will be constructed parallel to the Christchurch Northern Corridor motorway. It will connect with QEII Drive, Grimseys, Prestons and Radcliffe Roads as well as Owen Mitchell Park and the future 'Source to Sea' pedestrian and cycle path along the Styx River.
- A cycle lane will be included on Cranford Street as well as a new link to the Papanui Parallel cycle path.
- The shared pedestrian/cycle path will provide safe travel between North Canterbury, Belfast, Redwood, areas zoned for future urban growth in Eastern Belfast and central Christchurch. Cycle facilities on QEII Drive will remain and will be extended to connect with Grimseys Road as part of the QEII Drive four-laning.
- The Christchurch Northern Corridor will also significantly reduce traffic on Main North Road and Marshland Road making them safer and more appealing for cyclists and pedestrians.
- Local councils are looking into options for improving cycle connections to and from North Canterbury including improved facilities once across the Waimakariri River. The Christchurch Northern Corridor cycle/pedestrian path will link into this network once confirmed.
- Once the Christchurch Northern Corridor project is completed, control of Main North Road will be handed to CCC. As the construction of the Christchurch Northern Corridor will result in significantly reduced traffic volumes on Main North Road, there is an opportunity for CCC to make changes to Main North Road which will further enhance public transport provision along the route, extending bus lanes, and making changes to intersection configurations.

These changes will result in improved public transport journey times along Main North Road which is likely to make public transport become more attractive. It will also be possible to develop new express bus routes that use the HOV lane on the CNC.

JA: Where are the bus shelters?

CNC: As you will have seen in the most recent CNC newsletter, there will be 4 bus stops on Cranford Street – 2 will have shelters.

AJ: I hope this helps John.

JA: All of the above do not align with Government policies, why is this?

CNC: This project does align with many of the Government policies.

AJ: You may like to look at this John <https://www.transport.govt.nz/multi-modal/keystrategiesandplans/gpsonlandtransportfunding/>

JA: Why are the residents of St Albans being penalised?

CNC: They are not - as in all towns and cities, Christchurch has a network of roads to allow people to move around. These roads are not for the exclusive use of the people living in the local areas.

**From:** Aves, Lyssa

**To:** Clinton Minchington  
**Cc:** Lane, Christine; Miles, Helen; Jones, Ali  
**Subject:** Cranford Street Downstream Effects

Good morning Clinton

With reference to your various emails to the Papanui-Innes Community Board regarding Cranford Street please see the responses to your questions below:

- Q. Has there been any consideration given to rezoning these streets to business so perhaps an appropriate use of what is going to be a heavily polluted corridor can be used for something more suited?
- A. Currently Christchurch City Council is seeking the residents' feedback to the "Proposed changes to Cranford Street and the surrounding area". We encourage you to Have Your Say so that your views/concerns can be captured in the Downstream Effects Management Plan. Please use the following link for further information:  
<https://www.ccc.govt.nz/the-council/consultations-and-submissions/haveyoursay/show/142>
- Q. Who sits on the Ecan Board?
- A. Please refer to the Ecan website: <https://www.ecan.govt.nz/about-us/your-council/councillors/>
- Q. Will the community board put forward a request to Environment Canterbury to monitor air quality along the southern section of Cranford Street between Innes Road and Bealey avenue on behalf of the residents of St Albans?
- A. Ecan already monitor the air quality in this area. The monitoring station is approximately 350m west of Cranford St on Dover Street. Requests for information/results should be addressed to Ecan.
- Q. Will you advocate in our best interest to seek mitigation for the detrimental effects of this road project?
- A. Ali Jones answered this question in her email to you on October 2017 saying "I absolutely promise to work in the best interests of the wards and residents, however there are limitations, parameters, legal frameworks that dictate how I can do that and to what end – whether I like it or not. So, taking those limitations into consideration, you can be assured that I (not wanting to speak for others) not only intend to work to mitigate the detrimental effects, but have been doing so for quite some time now."

Again we would strongly encourage you to complete a submission on the Cranford Street Consultation that is currently out for consultation to ensure your concerns are recorded.

Sincerely

Lyssa Aves

Community Governance Support Manager  
Community Governance Team – Papanui-Innes  
Community Support, Governance & Partnerships Unit

From: Cat White  
Sent: Tuesday, 20 March 2018 12:41  
To: Papanui-Innes Community Board Advisor  
Subject: Cranford Street emissions monitoring - response to the Papanui Community Board

Good afternoon Judith

My apologies that it has taken so long to provide a response to the Board following our meeting with it on 23 February 2018.

Our investigations and monitoring team has worked with Andy Richards in Christchurch City Council's Transport, City Services Group to provide the following response.

A number of pollutants have been monitored in Christchurch's air including particles (PM10, PM2.5) and gases (carbon monoxide, sulphur dioxide, nitrogen dioxide and benzene). These vary from year to year based on the winter weather; less wind means pollutants don't blow away. Monitoring for a decade or more at a variety of types of monitoring sites in Christchurch (including roadside sites) show that the only pollutants that currently exceed guidelines are particles. The concentrations of particles have been highest during the winter in residential areas, where the majority of particles result from burning wood for home heating. Particles can also result from the burning of diesel and petrol in motor vehicles, but the maximum daily average and one hour average concentrations of particles measured at the roadside monitoring site in Riccarton Road have been less than those measured at the residential monitoring site in St Albans. Vehicle numbers near the monitoring site on Riccarton Road and on the southern end of Cranford St were roughly similar in 2011/2012. Cranford St is less built up close to the footpath compared to Riccarton Road, so any vehicle emissions may be dispersed more easily from Cranford St. We might expect to find that the main source of particles along Cranford Street in winter comes from wood burning in the area.

None of the gases measured can be entirely attributed to vehicle emissions alone, though vehicle emissions are the main source of nitrogen dioxide and benzene. Maximum daily average and one hour average concentrations of nitrogen dioxide measured at the roadside monitoring site in Riccarton Road were about double those measured at the residential monitoring site in St Albans. The highest nitrogen dioxide concentrations measured at Riccarton Road over the last decade reached to about two thirds of the guidelines. Annual average benzene concentrations measured at the roadside site in Riccarton Road have fallen to below guidelines and in 2016 were about half the guideline. One hour and eight hour average concentrations of carbon monoxide were comparable at the monitoring sites in Riccarton Road and St Albans, and the maxima in the last five years were well below guidelines. Sulphur dioxide concentrations in the past have been highest downwind of an industrial source and are currently very low at monitoring sites in St Albans and Woolston.

Based on the results of monitoring in Christchurch we wouldn't see a lot of scientific value in additional monitoring along Cranford St.

Environment Canterbury has a duty to publicly notify emissions levels which exceed national guidelines and work with those responsible (NZTA and CCC) to manage them.

I hope this information is of use.

Kind regards

Subject: Cranford Street Air Monitoring

Good morning,

I haven't heard from any council officers as you indicated.

I attended the pre consultation meeting re the Cranford downgrade, there was some discussion on air quality raised by myself but the council people attending had no air quality plan or any health plan.

The 'have your say' contains no mention of air quality or options to select regarding air quality or mitigation of adverse affects for the most affected residents.

I haven't received my glossy brochure as yet so that is a unknown as to if there is something in that re air quality.

Pauline Cotter was given a unanimous mandate by all attending a meeting on the Cranford Street downgrade on the 3rd June 2017 to look into the air quality issue but i have heard nothing to date, how is this progressing ?

In the Press stuff article Pauline states that there is 17 Million dollars for mitigation, can Pauline or the community board inform me of what mitigation measures are being considered for the residents most affected by this roading project. That is residents whose community is to be a on/off ramp for a motorway.

Pauline also states there is time to get it right, can Pauline give some indication as to what getting it right actually means to the most affected residents please?

Cheers

Clinton.

To: Papanui-Innes Community Board  
Subject: Re: Ecan air monitoring information

Good morning,

I am seeking an update on the air quality monitoring progress for Cranford and Sherbourne street.

The road surface along these streets is third world, trucks crash through at 4 am shaking houses and waking residents as if there was an earthquake. Considering the amount of traffic these streets take at the very least there should be a good road surface to minimize these detrimental effects.

Has there been any consideration given to rezoning these streets to business so perhaps an appropriate use of what is going to be a heavily polluted corridor can be used for something more suited.

This may give residents a chance to sell up and move to a less polluted living environment.

Cheers

Clinton.

**Memorandum**

**Date:** 3 May 2018

**From:** Derek McDermott – Project Manager

**To:** Papanui-Innes Community Board  
Fendalton-Waimairi-Harewood Community Board

**cc:** Matt McLintock – Governance Manager Fendalton-Waimairi-Harewood  
Margaret Henderson – Community Board Advisor Fendalton-Waimairi-Harewood  
Christine Lane – Governance Manager Papanui-Innes  
Lyssa Aves – Governance Support Officer Papanui-Innes  
Andrew Rutledge – Head of Parks

**Subject** **Grampian Street – Removal of Trees**

**Attachments:**

**62 GRAMPIAN STREET – REMOVAL OF TREES**

**Purpose of this Memo**

This memorandum is to inform the Papanui-Innes Community Board regarding the planned removal of trees for the Grampian Water Supply Station New Well 07 Headworks and Site Works at 62 Grampian Street, Casebrook.

**Background**

The project will involve the construction of a new water supply well within the pump station site and associated site works. As part of the site assessment the trees have been inspected by an arborist (Laurie Gordon, Arbor Vitae Limited).

Two of the trees on the site were found to be in poor condition. This includes a White Peppermint Gum that has structural defects in the root plate and a Silver Birch that is in very poor condition due to excessive decay. The arborist has recommended that the White Peppermint Gum is removed for safety reasons. The Silver Birch also requires removal due to its condition. Other smaller trees and shrubs may require removal for the installation of a new boundary fence, but this will only happen if there are no alternatives.

**Consents and Approvals**

As the trees are within a pump station site, and are not on a reserve, park, road or public open space, the delegations relating to approvals being required from the Community Board and the Head of Parks for tree removals do not apply in this case.

- 2 -

The District Plan tree protection rules do not apply to the tree removals or earthworks within the vicinity of the trees within 62 Grampian Street, as the site is not a street, park or public open space, and the removal and replacement of the boundary fence will not require a resource consent for earthworks within the vicinity of the park trees as holes for posts are exempt.

Within Grampian Reserve there are trees near the boundary that will receive physical protection during the fence removal and replacement, and the remaining trees in within the pump station site will also be protected from damage during the works.

The trees to be removed are located on the site plan below.

Figure 1: Site Plan

Please do not hesitate to contact me if you require more information regarding this matter.

**Derek McDermott**  
Project Manager

**Approvals:**

## 8. Application to the Papanui-Innes Community Board's 2017/18 Positive Youth Development Fund - Nick Andre Moulai

Reference: 18/416838

Presenter(s): Helen Miles Community Recreation Advisor

### 1. Purpose and Origin of Report

#### Purpose of Report

- 1.1 The purpose of this report is for the Papanui-Innes Community Board to consider one application received for the Board's 2017/18 Youth Development Fund.
- 1.2 There is currently \$2,070 remaining in this fund.

#### Origin of Report

- 1.3 This report is staff generated as a result of an application being received.

### 2. Significance

- 2.1 The decision(s) in this report is of low significance in relation to the Christchurch City Council's Significance and Engagement Policy.
  - 2.1.1 The level of significance was determined by the number of people affected and/or with an interest.
  - 2.1.2 Due to the assessment of low significance, no further community engagement and consultation is required.

### 3. Staff Recommendations

That the Papanui-Innes Community Board:

1. Approves a grant of \$500 from its 2017/18 Youth Development Fund to Nick Andre Moulai towards representing New Zealand at the International Association of Athletics Federations (IAAF) U20 World Championships being held in Finland from 24 June - 16 July 2018.

### 4. Applicant 1 – Nick Moulai

- 4.1 The applicant, Nick Moulai, is seeking financial support to assist with the costs of attending the Athletics U20 World Championships being held in Finland from 24 June - 16 July 2018.
- 4.2 Nick is 18 years of age, lives in Papanui and recently graduated from St Bedes College. Nick currently has a part time job at Frontrunner at Northlands.
- 4.3 Nick has been involved with athletics since he was seven years old. He currently competes for the Toc H Club. He has been selected to represent New Zealand in the 1500 metres. Last year the Community Board supported Nick to compete in the Youth Commonwealth Games in the Bahamas, and one week before he was due to depart, he tore his plantaris tendon and was unable to participate. In 2016 Nick represented New Zealand at the ISF World Cross Championships in Hungary placing 22nd. Nick holds the national record for the under-17 3,000 metres at 8.16.77 and has regularly run under four minutes for the metric mile. This year Nick's fastest recorded time for the 1500 metres was 3.47.05.

- 4.4 Nick's goal for this event is to achieve a personal best time in the 1500 metres. Nick hopes to learn new techniques and to develop some great friendships. Nick's long term goals is to run for New Zealand at the Olympics.
- 4.5 When not participating in Athletics, Nick can be found hanging out with friends and playing Xbox.
- 4.6 Nick has been busy saving towards the cost of trip and applying for sponsorship.

- 4.7 The following table provides a breakdown of the costs for Nick Andre Moulai:

EXPENSES	Cost (\$)
International Flights	4,600
Accommodation/ Meals / Transport	2,981
Athletics NZ Management Fee	300
Travel Insurance	225
Uniform	440
<b>Total</b>	<b>\$8,546</b>

- 4.8 This is the second time the applicant has applied for funding.

Item 8

## 9. Application to the Papanui-Innes Community Board's 2017-18 Positive Youth Development Fund - Strikeforce Boxing

Reference: 18/444727

Presenter(s): Helen Miles, Community Recreation Adviser

### 1. Purpose and Origin of Report

#### Purpose of Report

- 1.1 The purpose of this report is for the Papanui-Innes Community Board to consider one application received for funding from the Board's 2017-18 Positive Youth Development Fund.
- 1.2 There is currently \$2,070 remaining in this fund.

#### Origin of Report

- 1.3 This report is staff generated as a result of one application for funding having been received.

### 2. Significance

- 2.1 The decisions in this report are of low significance in relation to the Christchurch City Council's Significance and Engagement Policy.
  - 2.1.1 The level of significance was determined by the number of people affected and/or with an interest.
  - 2.1.2 Due to the assessment of low significance, no further community engagement and consultation is required.

### 3. Staff Recommendations

That the Papanui-Innes Community Board resolve to:

1. Approve making a grant of \$252 from its 2017/18 Positive Youth Development Fund to Strikeforce Boxing Canterbury towards the cost of Jack Morgan registering to compete at the next level.

### 4. Applicant 1 – Strikeforce Boxing Canterbury

- 4.1 Strikeforce Boxing is applying for funding on behalf of one of their members who lives in the Papanui-Innes Community Board area and wishes to register as a fighter so they can start to compete in upcoming boxing events.
- 4.2 In order to compete in boxing, individuals are required to undertake a full doctor's examination and blood testing to ensure they are safe to fight and then apply to Boxing New Zealand for a competition record book. Jack Morgan is hoping to work towards this accreditation so he can start to register for upcoming fights.
- 4.3 Jack Morgan is a fifteen year old from Redwood who is currently in Year 11 at Papanui High. Jack has been a member at Strikeforce for seven months. Jack became involved with Strikeforce through his older brother and currently trains four times a week. He also attends sparring sessions at Papanui Boxing with his Strikeforce coach. Jack would like to move to the next level to compete in fights.
- 4.4 The following table provides a breakdown of the costs for registering as a fighter:

EXPENSES (per person)	Cost (\$)
Competition Boxing Book	45
Doctors Appointment and Blood Tests	150
Uniforms	57
<b>Amount Requested from Community Board</b>	<b>\$252</b>
<b>Total for four individuals</b>	<b>\$1008</b>

4.5 This is the first time the applicant has applied for funding.

## 10. Papanui-Innes Community Board Area Report - 18 May 2018

Reference: 18/404951

Presenter(s): Christine Lane, Community Governance Manager

### 1. Purpose of Report

This report provides information on initiatives and issues current within the Community Board area, to provide the Board with a strategic overview and inform sound decision making.

### 2. Staff Recommendations

That the Papanui-Innes Community Board:

1. Receive the Papanui-Innes Community Board Area Report for April/May 2018.
2. That the Board consider the Styx River Joint Working Party recommendations in conjunction with the Coastal-Burwood Community Board recommendations made at their meeting on 7 May 2018.

### 3. Community Board Activities and Forward Planning

#### 3.1 Memos/Information/Advice to the Board

##### 3.1.1 Information sent to the Board

- Christchurch Northern Corridor (CNC) Project Updates for Belfast and Radcliffe Roads (*circulated 23 April 2018*)
- Civil Defence Neighbourhood Action Fund Memo (*circulated 26 April 2018*)
- CNC Alliance – Aerial fly over of the Christchurch Northern Corridor (*circulated 30 April 2018*)
- Invitation to a seminar - The Local Government (Community Well-being) Amendment Bill (*circulated 1 May 2018*)
- Christchurch Northern Corridor (CNC) Project Updates for Belfast and Radcliffe Roads (*circulated 23 April 2018*)
- Update – Shirley and Richmond Flooding Remediation and Roothing/Footpath Works (*circulated 9 May 2018*)
- Scottish Society of NZ Pipe Band – Premiere Fundraising Event Board Invitation to the Papanui-Innes Community Board (*circulated 9 May 2018*)
- Tangible and Intangible Heritage Workshop (*circulated 10 May 2018*)

##### 3.1.2 Works Notices

Staff are currently investigating a more streamlined approach of getting works notices from Capital Works, Transport, Parks and Reserves and external contractors. Staff will feed back results to the Board in June.

##### 3.1.3 Te Reo Maori Training for Elected Members

The Te Reo Maori classes offered to the Board comprise ten one-hour sessions usually conducted over a period of ten weeks, i.e. one session per week. This could be extended

to one hour fortnightly or monthly to enable members with busy calendars and heavy commitments to participate.

It is suggested that the sessions be shared with interested elected members from the Coastal-Burwood Community Board to accomplish a more efficient use of resources. The staff would appreciate an indication from those elected members wishing to take the training on their preferences regarding the frequency of the proposed sessions.

### 3.2 Board area Consultations/Engagement/Submission opportunities

#### 3.2.1 Christchurch Northern Corridor (CNC)

A significant increase in commuters travelling on Cranford Street is expected following the completion of the CNC in 2020. At a recent seminar the Board received a copy of the consultation material that will be circulated to residents regarding the downstream effects management plan for Cranford Street and the surrounding area south of Innes Road.

The plan will look at improving connections to help commuters get where they need to go while maintaining the sense of community for businesses and residents in the area and minimising the use of short cuts through side streets. The consultation is designed to help inform that plan and is open for feedback from 26 April to 4 June 2018.

The first two consultation drop-in sessions have been well attended by the community. The project team answered questions and discussed the various options proposed with those who attended. This project is generating a lot of interest and we have received over 180 submissions to date.

#### 3.2.2 Cranford Street and Main North Road – Speed Limit Change

Consultation is open for feedback from 20 April to 14 May 2018 on a proposed speed limit change from 60km/hr on Cranford Street and Main North Road to just north of Queen Elizabeth II Drive. The speed limit change takes into account safe and appropriate speeds in accordance with the NZTA approved guides to speed management.

### 3.2.3 Main North Road Bus Lane Priority

Full information on the submissions received was recently circulated to Board members for their information. The main issues are summarised below:

- Grassmere residents' concerns about access and related issues including green time at Mary Street
- Business and community concerns about proposed parking removal for the full time northbound bus lane
- Concern to a lesser extent from affected businesses and community about extension of the southbound bus lane times
- There were also comments regarding the proposed traffic island to enforce the existing banned right turn into Winston Avenue.

Updated time frames for delivery are:

- Summary to submitters and decision meetings – August 2018
- Detailed design incorporating any changes – September 2018
- Construction – mid-2019.

### 3.2.4 Community Events Implementation Plan

The Community Events Implementation Plan is currently in the initial stages of development and staff are seeking feedback on how the Board would like to see this plan developed and implemented.

The Community Events Implementation Plan will describe the goals and actions needed to steer the Council's role in the development and production of community events in Christchurch.

The Council's Community Events Team have reviewed current Council practice relating to the development and production of community events and considered the areas that should be emphasised in the review process. Three areas have emerged:

- Events produced by Council's Events Production and Community Recreation Teams.
- Sponsorship and support provided to third party events that support a well-rounded events calendar.
- Creating a more events-friendly city, focusing on enabling events and streamlining the permitting process for event organisers.

Officers will develop proposed goals and actions to be implemented after engaging with Community Boards, event organisers, event attendees, the wider community and Council units. The Papanui-Innes Community Board will be asked to review and provide elected member feedback on proposed actions.

The draft timeline of key actions that will contribute to the development of the Community Events Implementation Plan is:

Date	Action
4 April 2018	Present draft Community Events Implementation Plan timelines and scope in a report to the Social Community Development and Housing committee (SDC&H)
April 2018	Present draft Community Events Implementation Plan timeline and scope to Community boards

Date	Action
April – August 2018	Identify all of the Council resources currently available to the production and development of community events. Survey stakeholder groups in relation to the three primary goals. Engage with Community Recreation Advisors and Community Boards. Analyse Residents Survey and other Council surveys to further understand what types of events the community would like to attend and participate in. Identify and collate any further information deemed necessary. Analyse information and prepare a draft Plan including proposed goals and actions.
5 September 2018	Present report to SCD&H Committee with an update on research findings and presentation of a draft Events Community Implementation Plan.
Early October 2018 TBC	Incorporate any changes requested by SCD&H Committee and present Draft Community Events Implementation Plan to Council
October 2018	Formal consultation on 'Have Your Say' website
November/ December 2018	Present Final Community Events Implementation Plan to Council for adoption

Officers will provide an update on progress to the Social Community Development & Housing committee in September 2018. This will include draft findings of the review and proposed goals and actions.

### 3.3 Annual Plan and Long Term Plan matters

3.3.1 The Board Chair and Deputy Chair made the submission on behalf of the Board to the Long Term Plan hearing on Monday 30 April 2018.

### 3.4 Board Reporting

3.4.1 The Board is asked to consider topics from this meeting for inclusion in Newline, the newsletter and the Report to Council.

## 4. Significant Council Projects in the Board Area

### 4.1 Strengthening Community Fund Projects

4.1.1 Nil to report

### 4.2 Other partnerships with the community and organisations

#### 4.2.1 Living Memorials – Papanui Area

The staff provided information to the media regarding historic trees “living memorials” in St James Avenue. These trees are protected under the provision of rules in the Christchurch District Plan as “public realm” trees. The maintenance of the trees is under contract with an approved arboricultural company to meet the city’s levels of service and the Electricity Regulations Act 2010.

#### 4.2.2 Papanui Bush Bridgestone Reserve

A very successful planting day was held at the Papanui Bush Bridgestone Reserve on Friday 30 April 2018 with 60 plus volunteers.

The planting day was the first stage of recreating Papanui Bush and covers 1100 square metres with over 700 plants being planted.

Phase Two is to happen on Tuesday 5 June 2018 at the northern and southern ends of the reserve and again will involve the local community, businesses, schools and Rotary to help plant and regenerate a native forest in the Bridgestone Reserve.

Our thanks go to the wonderful Parks team (above) who provided major support to ensure the day was a wonderful experience and total success and, of course, the volunteers who willingly gave their time and energy to recreate a piece of history.

Thanks also to the Papanui-Innes Community Governance Team who ensured that all participants (staff and volunteers) were watered and fed.

#### 4.3 Community Facilities (updates and future plans)

##### 4.3.1 Redwood Plunket Rooms

Progressing as planned.

##### 4.3.2 St Albans Community Centre

An update was provided to the Board by staff on Wednesday 11 April 2018. Notification was sent to the Board on 11 May 2018 that the Council has now taken ownership of the section at 130 Calendonian Road.

##### 4.3.3 St Albans Park and Pavilion

St Albans Park Pavilion is progressing well. The works are up to the framing stage with the roof going on next.

Project completion timeframe:

Optimistic	Realistic	Pessimistic
30 June 2018	30 July 2018	30 August 2018

The St Albans Park project has been effected by the recent wet weather with the ground conditions and associated delays putting significant pressure on the project budget. Works have started for the lift station with the sheet piles being driven and the well points started. The balance of the works are still very subject to suitable ground conditions. The surface needs to be dry to complete the sand slitting prior to the application of the sand layer.

Surface water from the rain on 28–29 April

The wicket showing grass

Project completion timeframe:

Optimistic	Realistic	Pessimistic
July 2018	August 2018	September 2018

#### 4.3.4 280 Westminster Street

Staff are currently working with a couple of groups to come up with a joint lease proposal.

#### 4.3.5 10 Shirley Road

In late March 2018, an engagement survey was carried out on the type of facility and activities people living in the area, and those who have a vested interest in Shirley, would want to see rebuilt on the 10 Shirley Road site. Over 40 responses were received and staff are awaiting the conclusion of the Long Term Plan process, to look at the next steps. If budget is approved this will include a workshop with the Board and developing an engagement and communications plan.

#### 4.3.6 MacFarlane Park Centre

The landscaping around the MacFarlane Park Centre is proceeding well despite the recent wet weather.

All services (less power/communications) have been installed and the car park and one lot of paving is ready for asphaltting.

#### 4.4 Infrastructure projects underway

##### 4.4.1 Dudley Creek Flood Remediation Programme

The Project Team is liaising with the Parks Maintenance Team to carry out weeding and maintenance on the stretch of Dudley Creek along Julius Terrace.

A flyer was sent out on 10 May 2018 to all residents outlining the remaining works and opportunities to talk with staff regarding any concerns.

##### 4.4.2 Edgeware Village Masterplan

Results of the recent consultation with stakeholders in the Edgeware Village area indicated that the majority preference is to defer any major changes to streets, access ways and road markings until the MCR is completed in approximately two years.

In the meantime the Board asked staff to consider some beautification projects to improve the overall look of the area without incurring major costs.

#### 4.4.3 Christchurch Northern Corridor (CNC) Alliance Update

**Over and Under the CNC Motorway** – the three local roads (Belfast, Radcliffe and Prestons) will bridge over the motorway with accompanying pedestrian and cycle lanes. Excellent progress is being made on building the new Belfast and Radcliffe Road overpasses.

Belfast Road Bridge

Artist's impression of completed bridge

Radcliffe Road Bridge

Artist's impression of completed bridge

Some redirection of traffic will occur April/May but good management plans are ensuring that the contractor is making every effort to avoid major disruption to traffic flows.

## 5. Significant Community Issues, Events and Projects in the Board Area

### 5.1 Styx River Joint Working Party

The Working Party arose out of a two-year community conversation and has met monthly since August 2017. The process was successful in strengthening community capacity through providing a means for the community to engage with the Council technical staff. There were seven community members on the Working Party along with members of the Coastal-Burwood and Papanui-Innes Community Boards. The Working Party had its last meeting on 4 April 2018 followed by a meeting to agree on a Long Term Plan submission on 10 April 2018.

The resolutions agreed upon by the Working Party are **below**. Included with each resolution are suggested actions for the Board to consider.

At their meeting on 10 April the Styx River Joint Working Party resolved the resolutions below to go in a report to the Community Boards for action.

**1. That the community be advised of the budget in the draft LTP for work on the Styx River.**

This has been completed. An overview of LTP budget was provided by Kevin McDonnell, Team Leader Asset Planning, Surface Water and Land Drainage at the Working Party meeting on 4 April 2018.

**2. That the Joint Working Party wish to consider both short term and long term actions to mitigate flooding in the Styx Communities and this to be implemented with some urgency. The short term priorities are flooding, earthquake damage, lateral spread and drainage issues.**

It is suggested the Board request that short term actions be considered by Council technical staff and a response prepared for distribution to the community group members via the Community Boards. It is anticipated that long term actions are to be incorporated in the planning process for the Styx River masterplan.

**3. That a working group continue with community members and elected members to further progress Styx River issues.**

It is recommended that no further general Working Party meetings be held until staff report back on the process for development of a Styx River masterplan and implementation strategy (refer to point 5 below).

**4. That the 11 point questions raised by Dr Phil Driver in his field trip report be answered and provided to the next meeting of community and elected members. In addition that information be provided to update the community about the current plans for ponding areas related to the NZTA motorway development area.**

It is suggested that the Board request that operational and planning staff provide answers which can be sent to members of the Working Party.

**5. That the Joint Working Party request the Community Boards to recommend to the Council that a long term Styx River Masterplan and implementation strategy be considered for development over the next two year period and that appropriate budgets be allocated. Noting that the community be engaged with the masterplan from the commencement.**

Both the Coastal-Burwood and Papanui-Innes Community Boards included the request that Council considers the development of a long term Styx River Masterplan and Implementation Strategy in their draft 2018-2028 Long Term Plan Submissions.

Further to this, it is suggested that the two Community Boards recommend to the Council that it request staff investigate and report back on the details for, and how, a long term Styx River Masterplan and implementation strategy could be developed over the next two year period, including appropriate budget allocation and plans for community members to be closely involved with the masterplan from the commencement – this planning to consider the following matters:

- Flooding
- Lateral spread/Earthquake damage
- Aquatic weed removal
- Water measurement levels
- Tidal gates
- Ponding areas in adjacent properties
- Issues related to the Waimakariri river mouth lagoon and consequent flooding
- State of related drains
- Land development areas – water shed into the Styx River
- Riparian planting plans

- River management strategies for the long term including whether or not the river is treated as a drain; natural ponding area; swamp or other use such as a rowing/recreation lake
- Changes in industrial land use/dewatering and effect on water table and discharges to Kaputone Creek
- Link to the multi-hazard approach (which picks up climate change, coastal hazards)
- Brooklands red zone issues
- Collaboration with the community and agencies
- Inclusion of Environment Canterbury
- Collaboration with and resource input from Regenerate Christchurch

## 6. Parks, Sports and Recreation Update (bi-monthly)

The next bi-monthly report will be presented in June 2018.

## 7. Community Board Funding Update

### 7.1 Papanui-Innes Community Board Discretionary Response and Positive Youth Development Funds

Balance Sheet (refer **Attachment A**) of this report.

## 11. Elected Members' Information Exchange

---

This item provides an opportunity for Board Members to update each other on recent events and/or issues of relevance and interest to the Board.
