Banks Peninsula Community Board Public Forum

PO Box 102 Akaroa 7542

Dear Representatives,

Akaroa lost power on the morning of Saturday, 3 February and in some areas the outage continued until later in the day. The digger that caused the damage then struck a watermain while the town was at a Level 2 water restriction. I understand that a large amount of water ran down the road into the gutter. The problems occurred on Rue Noyer/Walnut Lane just off Selwyn Avenue.

Christchurch City Council District Plan map, below, shows the location of the activity.

In addition, the once natural, rural lane that provides access to numerous residences was significantly altered inclusive of the road verges/reserves areas.

Residents have asked if the activity took place with the knowledge and approval of Christchurch City Council in terms of due process and having all the necessary paperwork in place with regard to earth moving work and consents.

So my question to you is:

Would the Community Board please verify if the activity required council permission and district plan consent and if so, was all the necessary paperwork in place prior to the activity taking place on February 3, 2024?

Thank you.

Nictiona Fandrews

Victoria Andrews

ITM NEW ZEALAND SAIL GRAND PRIX | CHRISTCHURCH

23/24 MARCH 2024

CHRISTCHURCH HIGHLIGHTS

BY THE NUMBERS

100% - tickets sold in < 24hr
