Cc: Andrew Turner (Deputy Mayor and Zone Committee Representative)

Dear Pauline,

Re: Labelling Streams on Banks Peninsula

In August, the Banks Peninsula Zone Committee passed a motion recommending that Christchurch City Council label fifteen streams on Banks Peninsula (refer to attachment).

The zone committee support the labelling of these Banks Peninsula streams as many people are not familiar with the names or locations of them. The committee believe that if streams are labelled, people will start using them as landmarks and consider the streams values, ecological health and how land use activities may affect stream health.

In October, the zone committee was advised by staff from Christchurch City Council that the Council roading staff had considered the recommendation and advised that there is currently no budget for the signage. In response to this, the zone committee recommended that the matter be considered by the Christchurch City Council’s Infrastructure, Transport and Environment Committee (ITE).

The zone committee recommend that the ITE Committee request that Council label 15 streams and suggest that Council staff work with the Te Hononga Committee to ensure that macrons and the correct Maori names are used.

I look forward to your response.

Yours sincerely,

Paula Smith

Chair of the Banks Peninsula Water Zone Committee
