

41. Akaroa Wastewater Disposal Appeal

Council Resolved CNCL/2019/00001

That in relation to the Council's Environment Court appeal ENV-2015-CHC-065, the Council:

1. Resolves to request staff to withdraw the Environment Court appeals against the decline of resource consents CRC150046 and CRC150047 for the harbour outfall pipeline and discharge.
2. Delegates authority to the General Manager City Services to make any decisions on resolution of the other appeal points (which include agreements, hearings, or withdrawal).
3. Notes that discharge into the harbour remains one of the options being considered by the Council for discharge of treated wastewater at Akaroa. It will seek a new resource consent if that is its preferred option.
4. Requests the Chief Executive to make this report and resolution public when reasonably practicable following this Council meeting.
