4.1 Cycling between Westmoreland and Cashmere High School

Community Board Resolved SCCB/2019/00108

Part B

Local resident, Lindsay Sandford addressed the Board on concerns for the safety of children cycling between Westmoreland and Cashmere High School, due to the heavy traffic and narrow road corridor. Mr Sandford proposed a walking/cycling bridge from the Cashmere Road Heathcote Bridge down to Ashgrove Terrace. As an alternative he suggested a cycle lane be put in on each side of the road along Cashmere Road but noted that there is little room over the Heathcote Bridge.

After questions from members, the Chairperson thanked Mr Sandford for his presentation.

The Board requested an update from staff on the Nor' West Arc Cycleway, in particular with regard to the provision for safe passage for cyclists from Westmoreland to Cashmere High School.

4.2 Cycling Infrastructure in Popular Recreation Spots and Lower Speed Limits Along River Terraces

Part B

Local resident, Mark Gibson addressed the Board regarding limited cycling infrastructure in the vicinity of popular recreation spots. Mr Gibson noted that more people are cycling to recreation destinations but that often these places do not have facilities such as cycle stands.

Mr Gibson spoke about the Opawhao Heathcote River that he regards as a recreation corridor used by walkers, joggers, cyclists and others. He noted that in addition, the river is a wildlife corridor and he raised concerns about the speed limit on the terraces adjacent to the river that are currently 50 kilometres per hour. Mr Gibson queried whether this is appropriate given the level of other activity.

After questions from members, the Chairperson thanked Mr Gibson for his presentation.

4.3 Update on Youth Achievement Grant – Maddison Moore

Part B

Youth Achievement and Development grant recipient Maddison Moore updated the Board on her attendance at the New Zealand Trampolining Nationals 2019 in Auckland from 2 to 6 October 2019. They expressed disappointment that planned improvements to the intersection have been delayed.

After questions from members, the Chairperson thanked Mr Bolch and Mr Cousins for their presentation.

In 2017 the network became an incorporated society, and in 2018 a registered charity. The OHRN is governed by a voluntary committee of 12 people, largely drawn from neighbourhoods and organisations in the Spreydon-Cashmere area. The committee meets monthly in the Spreydon-Cashmere Community Board room, and welcomes attendance by existing or new network members. The OHRN has developed working relationships with planners and operational staff from Christchurch City Council, and Environment Canterbury, and the committee has active links with other significant stakeholders such as: the Port Hills Trust Park, Avon Heathcote Estuary Ihutai Trust, the Collaborative Community Education Programme, the Forest and Bird Protection Society North Canterbury, and the Christchurch West Melton Zone Committee. The OHRN has established coordination and connection credibility with localised resident working bees and voluntary groups, schools, and early learning centres.</p> <p>The OHRN in partnership with the Avon Heathcote Estuary Ihutai Trust and the Avon-Otakaro River Network launched the Mother of All Clean Ups project in 2016 that has resulted in an annual voluntary clean up of Christchurch waterways involving hundreds of participants extracting tonnes of rubbish, with support and sponsorship from Council, City Care Ltd, and Cassells Brewery. The OHRN coordinates information and supports to multiple project sites across the mid-Heathcote area for the Mother of All Clean Ups, as well as other initiatives such as the Walking Festival, walk and cycle mapping, and World Rivers Day. While the OHRN interests span the whole river catchment from its headwaters to the ocean, the majority of projects directly supported by the committee and forming the network membership, are currently located in Spreydon Cashmere: these include the Cashmere Stream Group, Ashgrove Reserve and Lower Cashmere Residents Association, Friends of Ernie Clark Reserve, the Beckenham Loop and Beckenham Residents Association, Farnley Reserve, and Cherry’s Early Learning Centre. Member project groups from Linwood-Central-Heathcote include Laura Kent Reserve, Steamwharf Stream, and Roimata Food Commons. Active connections and project support in the Riccarton-Hornby-Halswell Area is currently minimal, but the OHRN has met with the local Community Board and indicated likely future community project development in this catchment.</p> <p>While the Society’s committee members contribute to operationalising the objects of their network, they find that there is an ongoing need to employ paid staff for project coordination, event and awareness promotion, and the maintenance of planning based and strategic relationships. The group seeks a Discretionary Response Fund grant total of \$8,000: \$6,500 for wages and \$1,500 for promotional equipment and publications comprising two pull up banner stands for use at events, and pamphlets that will be used most immediately at the Estuary Festival at the end of February 2020. In order to establish long term financial sustainability the Trust has approached other funders and philanthropies including the Rata Trust (which supplied an initial operational grant in 2019), Lotteries, and the Southern Trust. This grant application is aimed to provide a contribution to the operating budget to the end of August 2020, as the Network intends to apply to the next Strengthening Communities Fund annual round for support from September 2020.</p> <p>The work at community levels of the OHRN contributes to aquatic and riparian restoration, recreational amenity, horizontal collaborations of voluntary groups, local submissions on river health and contamination risks, and residents’ adaptation to flood management. As well as maintaining website and Facebook communications, the Network holds regular educational and report back workshops, and continues to expand local project membership towards the vision for the whole of the Opawaho Heathcote River.</p>

3. Community Board Activities and Forward Planning

3.1 Memos/Information/Advice to the Board

3.1.1 Email regarding Proposed Parking Restriction for West Spreydon School Rebuild

The Board received the following email from the Traffic Operation Team:

The purpose of this email is to update the Waihoru/Spreydon-Cashmere Community Board about some new bus parking spaces that we would like to install on Lyttelton Street, outside West Spreydon School and at 2 Halswell Road (temporary West Spreydon School site). In addition, some P3 parking restriction is also proposed on Annex Road. The proposed bus parking spaces will allow a designated area for buses to wait when picking-up and dropping-off students to transport them between West Spreydon School and their temporary school site on Halswell Road. There is very limited parking at the temporary school site and the P3 parking restriction will ensure that there are some spaces for pick-ups/drop-offs only. Both the bus parking spaces and P3 parking restriction will only be in place whilst West Spreydon School is being re-built.

The proposed no stopping restriction on Lincoln Road is adjacent to a pedestrian island and crossing point. The no stopping restriction will improve the accessibility and visibility for pedestrians using this crossing facility.

Please see the attached consultation plans for your information.

Note that it is critical for the operation of the school that the signs and markings for the bus parking spaces are in place by the start of Term One, 3 February 2020. Staff have therefore used Clause 9 of the Council's Traffic and Parking Bylaw 2017 to install the signs and markings for the bus parking spaces until the Community Board has approved its continued use.

Next steps:

Following the completion of consultation, a report will be presented to the Board for approval at its 18 February 2020 Board meeting.
