4.4 Bob Shearing	
A. Avonhead Park Presentation	18

Who we are

- Founded in 2002
- 8 trustees, 9 board members (with people in their 20s to 60+ years!)

What we do

- **Guardianship & advocacy** of the Styx river and its surrounding ecosystems
- Vision 3 of the City Council's `Styx Visions 2000 - 2040`: A Living Laboratory for **learning** and **research**
 - Obtaining a holistic understanding of the river
 - Raising awareness and promoting the use of the Styx River Catchment as a collective resource for environmental and social research
 - Using the acquired knowledge to assist the bodies who have legal responsibility in the management of the Styx River Catchment
 - Maximising opportunities for community involvement
 - Recognising the view and expectations of Tangata Whenua, to respect and implement the dual heritage of the river

What we do

What we do

What we do

- Monthly water quality monitoring

What we do

- Monthly bird monitoring

What we do

- Regular tree planting events along the river

What we do

- Community event '*Summer in the Styx*'

What we do

- Paddling down the river

What we do

- Summer Research Scholarship offered to tertiary students
 - *Starting the Ecology Conversation: Art and Design Proposals for the Styx Catchment* by Sophie Harrison (2018)
 - *Habitat Enhancement* by Ashleigh Matthews (2017)
 - *Effectiveness of a predator-proof fence for conserving lizard fauna in the Styx Catchment: A mark-recapture study* by Christine McClure (2012)

How we use financial resources

- Administrative costs: Project delivery person & Secretary
- Summer research scholarship
- Audit, postage, registration cashbook
- Field equipment updates for our citizen science programs
- Volunteer rewards & recognition such as BBQs etc...
- Event flyer e.g. Summer in the Styx
- H&S (First Aid training, Defensive driving etc...)
- Realization of various projects such as pest trapping, book “fridge”, lizard sculpture

In the future...

- Continue all current community programs
- Aim to broaden our objectives to keep community informed & involved in issues in the area around the river (e.g. Prestons runoff)
- Preserve and nurture the river ecosystem as a healthy habitat for native flora and fauna
- Projects
 - Development of native vegetation along large parts of the riverbed
 - Signage along the river at water quality sampling sites
 - Cycle/walkway along the river; “Source to Sea” experience
