Part A Matters Requiring a Council Decision

Part B Reports for Information

Part C Decisions Under Delegation

1. Apologies / Ngā Whakapāha

Committee Resolved PCBSC/2020/00002

That the apologies received from Ali Jones be accepted.

It was noted that Emma Twaddell was attending via zoom.

Simon Britten/Emma Norrish

Carried

2. Declarations of Interest / Ngā Whakapuaki Aronga

There were no declarations of interest recorded.

3. Draft Tree Policy

Committee Resolved PCBSC/2020/00003 (Officer Recommendations accepted without change)

That the Papanui-Innes Community Board Submissions Committee resolve to:

1. Formulate a submission on the proposed Christchurch City Council draft Tree Policy.

Simon Britten/Emma Norrish

Carried

Waipapa/Papanui-Innes Community Board Submission on the draft Tree Policy

Do you have any comments on the Draft Tree Policy?

Policy 1.2 and 1.3

The Board recommends this policy also applies to new developments on land which will eventually become council-owned or looked after, for example the road reserve plantings in new subdivisions.

Policy 1.9 The Board supports the two for one tree replacement policy.

Policy 1.10 The Board endorses the Council facilitating community plantings. The Board supports the planting of fruit trees where appropriate.

Policy 1.14 We support the retention of commemorative trees.

Policy 2.3 and 2.6

Do not appear to address issues raised by residents/ratepayers with the Board relating to trees in Dudley Street (in particular health and safety issues from bird droppings).

Policy 2.8 Consider adding risks from roots of trees to pavements and underground services.

In addition:

The Board recommends that the Council provides clarification on the status of protected trees and whether they fall under this policy or the District Plan. If this status only appears in the District Plan then this needs to be stated in the Tree Policy.

The Board supports the Tree Policy.

Would you like to speak to the Hearings Panel about the submissions?

Yes.

4. Community Facilities Network Plan

Committee Resolved PCBSC/2020/00004 (Officer Recommendations accepted without change)

That the Papanui-Innes Community Board Submissions Committee resolve to:

1. Formulate a submission on the proposed Christchurch City Council Community Facilities Network Plan.

Simon Britten/Emma Norrish

Carried

Waipapa/Papanui-Innes Community Board Submission on the Community Facilities Network Plan

Question 1 Scope:

Looking at the maps – do you know of any community-owned facilities the Council has missed?

Firstly - the Board would like to clarify the scope of the plan as we notice that skate parks, community gardens and basketball courts are not included on the maps but under the definition at the start of the document it states “ Community spaces are where people come together, building resilience and creating an active sense of community through engaging with each other and sharing experiences.”

Secondly - The Board considers the tool is hard to use to find the facilities.

Missing from the Papanui Ward

- Belfast – Sheldon Park (pool, skate park, netball courts)
- Papanui – Te Ora Hou
- Redwood – Redwood Tennis Club

Missing from the Innes Ward

- St Albans – St Albans Tennis Club, Community Focus Trust, Caledonian Hall, Skate Park, Pavilion, English Park, St Albans Pavilion
- Mairehau – 280 Westminster Street

Extras that are no longer there:

The religious facilities at 143 Cranford Street, 56 Petrie Street, 31 Shirley Road.

It would be worth checking over the whole network as a number of the religious facilities no longer exist as such or have relocated.

Question 2 Process:

Is there anything else the Council and its community partners should take into consideration when establishing or disestablishing a facility?

The Board supports the Council's suggested policy around new facilities being community-informed, led and developed, with the focus on partnership, noting the different needs and aspirations of our local communities.

Early engagement with the wider community is key to ensuring all voices are heard.

Question 3 Activation:

Do you have any ideas on how the Council can work with the community to make community facilities busier and increase the range of activities they host?

Please refer to Strengthening Communities Strategy.

Any Other Comments on the Community Facilities Network Plan:

The Board feels that the Council's definition of "community facility" is too narrow within this document and should encompass any space where community gathers, i.e. not just buildings.

The Board does not agree with the Facilities Network Plan statement that there are no significant geographic gaps in the network.

5. Metro Sports Facility - Aquatic Sensory Experience

Committee Resolved PCBSC/2020/00005 (Officer Recommendations accepted without change)

That the Papanui-Innes Community Board Submissions Committee resolve to:

1. Formulate a submission on the proposed Christchurch City Council Metro Sports Facility – Aquatic Sensory Experience.

Emma Norrish/Simon Britten

Carried

Waipapa/Papanui-Innes Community Board Submission on the Metro Sports Facility – Aquatic Sensory Experience

No comments for questions 1-13.

14. How can we ensure people with disabilities are able to access this space with ease?

- Ensure the design of the facility meets best practice by consultation with relevant representatives of the community.
- Ensure that cost of use for the public is not a barrier.
- Assurance that the Metro facilities fee costs will be commensurate with the remainder of Christchurch City Council sport and recreation facilities.

15. Do you have any other information/comments you would like to share?

The Board supports the development of this facility and the use it will get from the whole of Christchurch.

Meeting concluded at 11.36am.

CONFIRMED THIS 2ND DAY OF OCTOBER 2020.

EMMA NORRISH
CHAIRPERSON
