STAFF REPORTS

3.	Ihutai-Estuary and Coastal Draft Stormwater Management Plan - Board Submission	5
-----------	---	----------

1. Apologies Ngā Whakapāha

At the close of the agenda no apologies had been received.

2. Declarations of Interest Ngā Whakapuaki Aronga

Members are reminded of the need to be vigilant and to stand aside from decision making when a conflict arises between their role as an elected representative and any private or other external interest they might have.

3. Ihutai-Estuary and Coastal Draft Stormwater Management Plan - Board Submission

General Manager Mary Richardson, General Manager, Citizens and Community
Pouwhakarae: mary.richardson@ccc.govt.nz

1. Brief Summary

- 1.1 The purpose of this report is for the Waitai Coastal-Burwood Community Board Submissions Committee to consider the preparation of a Board Submission to the Council on the Ihutai-Estuary and Coastal Draft Stormwater Management Plan.
- 1.2 The draft Stormwater Management Plan sets out what we need to do in order to meet the conditions of the Comprehensive Stormwater Network Discharge Consent (CSNDC).

The Ihutai-Estuary and Coastal catchment spans from the coastal fringe from Te Riu O Te Aika Kawa/Brooklands Lagoon to Godley Head. Two thirds of the catchment is coastal plains with the remainder made up by parts of the Port Hills. The area is 4,700 hectares.

The catchment includes Parklands, parts of North and South New Brighton, Linwood east of the central city, and Bromley. Port Hills areas include Mount Pleasant and Redcliffs, which drain into the estuary, and Clifton Hill, Sumner and Scarborough, which drain into the ocean.

Many waterways in the Ihutai-Estuary and Coastal catchment are rain fed and only flow when the weather is wet. More prominent rain fed waterways include the Sumner Stream, Charlesworth Drain, Mt Pleasant Waterway and Rifle Range Stream. The City Outfall Drain and Linwood Canal are fed by groundwater throughout the year.

Christchurch's coastal plains were historically swampland or wet areas. Over time they have been drained by pipes taking stormwater to the shore. In populated hill areas most stormwater flows down road side channels into pipes and streams, or open concrete waterways.

The Ihutai-Estuary and Coastal Stormwater Management Plan has three key purposes:

- To meet the targets for lowering stormwater contaminants under the CSNDC.
- To propose extra targets for lowering stormwater contaminants above and beyond CSNDC.
- To describe the ways stormwater discharges will be improved over time to meet environmental objectives.

- 1.3 The following links are provided to assist the Submissions Committee in its deliberations.

- Summary Document

- Draft Ihutai-Estuary and Coastal Stormwater Management Plan
<https://ccc.govt.nz/assets/Documents/Consultation/2022/02-February/PRINT-CIT5033-Ihutai-Estuary-and-Coastal-Draft-SMP-2022.pdf>

1.4 Submission close on the Ihutai-Estuary and Coastal Draft Stormwater Management Plan on Tuesday 26 April 2022.

2. Officer Recommendations Ngā Tūtohu

That the Waitai Coastal-Burwood Community Board Submissions Committee:

1. Consider preparing a submission on behalf of the Board on the Ihutai-Estuary and Coastal Draft Stormwater Management Plan.
2. Note that given the consultation timetable, the Submissions Committee will exercise its delegated authority to complete and lodge a submission on behalf of the Board.

Attachments Ngā Tāpirihanga

There are no appendices to this report.
