Thoughts on cycle networks from how the “Wednesday Wheelies” get around the West and Southwest

Presentation to the Waipuna Halswell-Hornby-Riccarton Community Board

Stephen Wood, July 2023

A bold plan: 2013

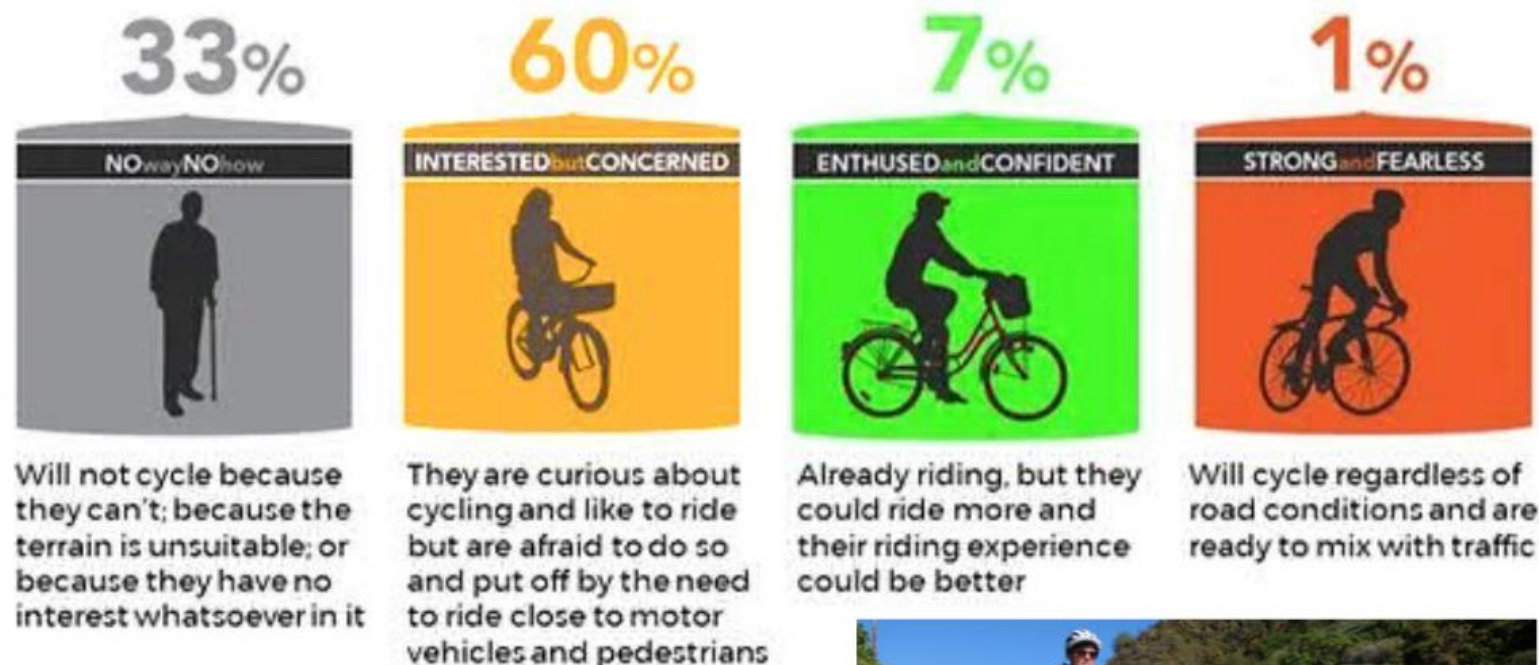

Figure 3.1. Future cycle network: major, local and recreational cycleways (Christchurch Transport Strategic Plan).

Ten years on - more done than not done, big gaps elsewhere but good coverage in West and Southwest

Major cycleways network – What’s been built and what’s coming

Attitude to cycling (types of cyclists)

These have different approaches to using cycling infrastructure - (& different attitudes to building it!)

NZTA Waka Kotahi, from Geller (2009)

'S&F' vs 'IbC' (photo: Simon Kennett)

Wednesday Wheelies

- Supported by St Albans Residents Association & Spokes Canterbury
- Has been running for just over 5 years, increasingly popular
- Wednesday mornings – demographics, retirees
- Catering to “Interested but Concerned” riders, city discovery
- Typical weekly turnout - 40±10 riders
- Group sizes – safer with 10-12 maximum - need group leaders

1st ride November 2017

March 2023

“WW” routes

- Using MCRs where they’ve been built
- Can get out of town!
- Finding connections between routes
- Avoiding arterials
- Back road short cuts – zig-zags
- Using some roads that need single file
- A few “tricks” needed
- are we connecting to local hubs/places?
- are we typical riders?

Recommendations

- Some MCRs to complete
- Then look at secondary connections, i.e. links to destinations, hubs, schools, shops, sports facilities, parks, rivers, etc
- Secure bike parking at destinations
- Safer speeds: neighbourhoods, schools
- “Quicker” or interim infrastructure, is reassigning road space an option?
- Less emphasis on shared paths
- Events to promote cycling...

To: Councillor for Hornby

Upgrade Awatea Park Playground to increase more resources

Campaign created by
Vishal Makwana

As a resident of the Awatea Park subdivision, I am writing to ask for support in improving the Awatea Park Playground. Currently, the playground lacks adequate resources and is not meeting the needs of the growing number of families in our community.

I recently raised this issue with the City Council and asked for more resources added like: Swings, Climbers, Picnic tables, BBQ, Flying Fox, Seesaw, Sandpit, and Monkey Bar; and while they acknowledged our concerns, they cited budget constraints as a limiting factor and rejected it completely. However, as a community, we can make a difference by coming together and expressing our collective voice.

Why is this important?

I believe that by installing at least Swings, a Monkey bar, and a Seesaw, we can enhance the appeal of the playground for children and make it more enjoyable for them to play in. These relatively low-cost additions can make a significant difference to the quality of life for families in our community.

I have spoken to several other residents who share my sentiment, and I am confident that with your support, we can make a meaningful difference. By signing this petition, you are helping us to demonstrate to the City Council the importance of improving our playground and making it a more family-friendly space.

How it will be delivered

I have already raised this with our local area councillors. They informed me that they would look at the matter and explore possible solutions during the Annual and Long Term Plan budget seasons.

In addition, I would like to share this with all Awatea Park residents and have collected signatures to support my request. I plan to deliver the petition to our area councillors to demonstrate the significant community support for upgrading the playground.

THE RICCARTON COLLECTIVE

INTRODUCTION

The Riccarton Collective stems from the need to co-design our collective vision and act as champions in our community. It's about bringing all of our amazing people on the waka to enhance further our ward's vibrancy and open pathways to development going into the future. We all have interwoven connections, which allows us all to achieve our goals together.

ISSUES AND SOLUTION

- **Issues**

Residents feel disconnected from local government. Riccarton has champions across the ward, without much opportunity to collaborate.

Issues with infrastructure and communication can be difficult without action.

- **Solution**

Having a collective to streamline processes, have an open forum, engage clearly and set a precedent going into the LTP and AP deliberations to change the future.

GOAL ORIENTED

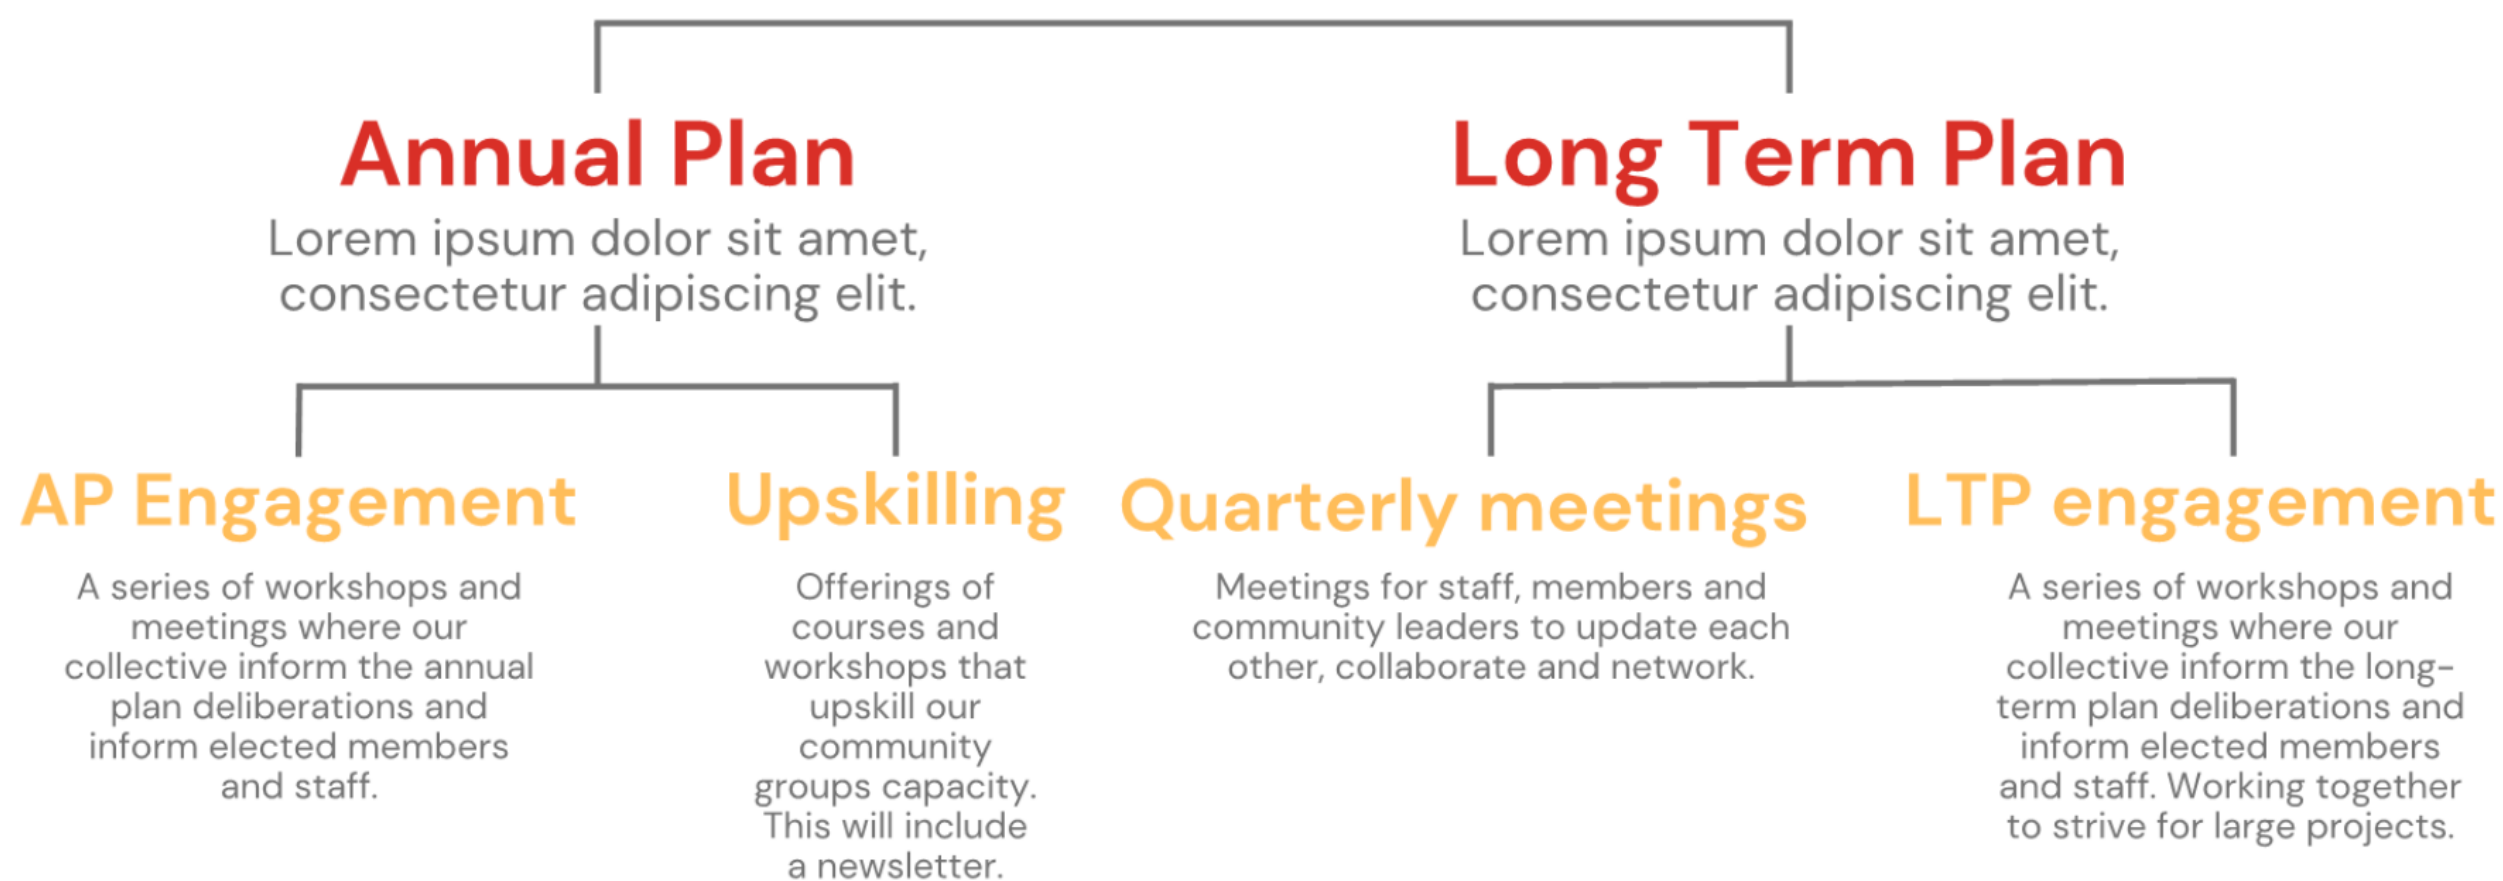

This collective will:

- Inform each other of issues and opportunities
- Provide updates in our respective spaces
- Steer the ship towards our wards vision and goals for AP and LTP
- Upskilling opportunities for the community
- Raise job numbers and needs across the ward that needs immediate attention

OUR STRATEGY

A thriving Riccarton Ward
