Detail Te Whakamahuki

Timing	This workshop is expected to last for 75 minutes.
Purpose of this Workshop	To seek feedback from the Zone Committee which will be considered as part of the CWMS Zone Committees Review led by Environment Canterbury.
2.1	<p>Background</p> <p>At its meeting in August 2023, the Canterbury Mayoral Forum agreed to a review of Zone Committees to enable and support local leadership and ownership of freshwater management issues into the future.</p> <p>This review will focus on what structure, function and resourcing are needed to support local freshwater leadership into the future.</p> <p>The CWMS is underpinned by a collaborative approach between Environment Canterbury, territorial authorities, Ngāi Tahu, sector groups and communities. While the aim is to keep this review simple, it will reflect this collaborative ethos by engaging with key stakeholders under the auspices of the Canterbury Mayoral Forum (as the ‘owner’ of the CWMS).</p> <p>The review’s objectives are to answer the following main questions:</p> <ul style="list-style-type: none"> a) What local freshwater leadership is required in the future? b) For which actions will key partners (Environment Canterbury, Territorial Authorities and mana whenua) need local leadership to deliver freshwater management outcomes in the future? c) What resourcing is required to support local leadership? <p>Environment Canterbury is leading the review and will report back to the Mayoral Forum, following engagement with Mayors, zone committee members, and mana whenua representatives. Refer to Table 1 below for key actions and milestones.</p>
