## St Bernadette's School Christchurch

COMPASSION

EXCELLENCE

RESPONSIBILITY

RESPECT

St Bernadette's School and Community requests the Christchurch City Council to install a Pedestrian Crossing on Hei Hei Road, Hornby, outside St Bernadette's School, and St Bernadette's Church.

Hei Hei Road can be a very busy road, containing footpaths for pedestrians, a separated cycleway (on the school side), and a bus route. Hei Hei Road is the only route for St Bernadette's School students, and down further, we have 126 On the Corner in one direction, and in the other, BestStart Hei Hei Road, Te Māhuri Mānuka Hornby Primary School, the Hornby Community Dental Clinic, and Te Huruho Ao o Horomaka Hornby High School (around the corner).

Our roll at St Bernadette's is 137, BestStart Hei Hei is 64 with capacity to 80, Te Māhuri Mānuka Hornby Primary is 236, and Te Huruho Ao o Horomaka Hornby High School has increased by 17% this year to 950. While Te Māhuri Mānuka Hornby Primary and Te Huruho Ao o Horomaka Hornby High have entrances available on Waterloo Road, this still increases our foot traffic of tamariki and rangitahi in the area and speaking with Principal Iain Murray has advised that the majority of students walk to school, have younger siblings at surrounding education providers and use Hei Hei Road as a main thoroughfare. Along with the increasing enrolments at the mentioned schools, the opening of Matatiki: Hornby Centre, will again increase foot traffic in the area and down Hei Hei Road.

Vehicles parking on the street outside St Bernadette's School create a considerable hazard to pedestrians crossing the road through decreased visibility. With the installation of the separated cycleway, there has also been a massive reduction in on street parking available for whanau. St Bernadette's School does not have formal parking available for whanau to collect their tamariki and rely on the generosity of the Church to allow parents and caregivers to use their carpark to collect children. This car park does not fully cater to the need of the school community, and if there are Church events, the car park is both unavailable and the on-street parking can be lost completely for parents due to those attending the events at the Church. There is parking for approximately five cars on the school side of Hei Hei Road. Moreover, there is a lack of adequate safe signage to advise there is a school and no visible speed reduction requirement along the road. The school signage that is erected, has one school sign on each side of the road, the side opposite the school is faded and bent, and the sign on the school side is lost within a multitude of cycleway signs. These cycleway signs are clustered together outside St Bernadette's School and do not populate any other area of Hei Hei Road cycleway.

Outside St Bernadette's School, there is a courtesy crossing point, however there is no requirement for motorists to stop to let pedestrians cross like there is with a formal pedestrian crossing. This crossing point receives a large amount of pedestrian traffic, particularly at the start and end of the school day, or when there are Church events.

We believe that safety is paramount when it comes to our community, and the Council has recently gone through a consultation process on safer speeds around schools, as well as installing a safer, separated cycle lane. With the installation of the separated cycle way, this increases the visual stimuli for motorists to take into consideration when making travel decisions and has the potential to cause the motorist to miss seeing a child. Combined with children crossing the road at several different points due to lacking a single safe crossing point, a zebra crossing would attract the motorist's attention to assess whether there are pedestrians waiting to cross, therefore increasing safety. The next sensible step now that the Safer Speed consultation has closed, would be to install a zebra crossing to ensure whanau, tamariki, rangitahi, elderly, disabled can cross safely.

Another local school the Board may wish to consider, is Te Manu Tukutuku South Hornby School. Te Manu Tukutuku South Hornby School is also situated on a busy road, and also has no formal pedestrian crossing. We have not consulted with whanau that attend, or residents in the immediate area, but think it would be remiss if we did not bring the Board's attention to other potentially vulnerable children when it comes to road safety due to the lack of safe crossings.

We call upon our Council to prioritize pedestrian safety and the safety of our children by establishing a zebra crossing outside St Bernadette's School.

Yours sincerely

St Bernadette's Board, staff, parents, caregivers, whanau, and residents of Hei Hei Road and community.
