1. Detail Te Whakamahuki

Timing	This information session is expected to last for 20 minutes.
Purpose / Origin of the Information Session	The purpose of this information session is to provide an update on the Sports Field Network Plan which sets out how – over 10 years – we will plan sports fields to meet the sporting needs of our community for all levels of sport and for all age groups. This information session is a staff request.
Confidentiality	The workshop and any shared information is not confidential.
Background	<p>The Sports Field Network Plan focuses on the strategy for the provision, development and performance of a network of well-placed and appropriately developed sports fields across our city, balanced against other competing needs for use of our city’s parks.</p> <p>The Plan sets out how we are to provide sports fields so that citizens can participate in sport locally and enjoy the multiple benefits of good health, well-being and strengthened communities.</p> <p>The Plan guides development and improvement of our sports fields to address any backlog, to meet growth and changing use demands of our communities and to facilitate sporting performance.</p> <p>The scope of the Plan covers the land that Council has historically provided to regional sports organisations (RSOs) for sports traditionally played on natural turf and which the RSOs have then allocated seasonally to their user groups.</p>
Key Issues	<ul style="list-style-type: none"> • Sports fields take time to plan, build and develop, and our network programme needs to allow for this. • A well-planned development programme over the long term will help avoid having insufficient, poorly located or inferior quality sports fields that are not ‘fit for purpose’ or meeting community needs. • It will also ensure investment is targeted and effective and will help deliver co-benefits to our natural environment supporting a resilient and low emissions city.
Next Steps	<ul style="list-style-type: none"> • Adopt the plan for inclusion in the LTP.
Useful Links	<ul style="list-style-type: none"> • Not applicable.
