# What is important to us?

Our Strategic Framework is a big picture view of what the Council is aiming to achieve for our community

## Our focus this Council term 2022–2025

### Strategic Priorities

Be an inclusive and equitable city which puts people at the centre of developing our city and district, prioritising wellbeing, accessibility and connection.

Champion Ōtautahi-Christchurch and collaborate to build our role as a leading New Zealand city.

Build trust and confidence in the Council through meaningful partnerships and communication, listening to and working with residents.

Adopted by the Council on 5 April 2023

Reduce emissions as a Council and as a city, and invest in adaptation and resilience, leading a city-wide response to climate change while protecting our indigenous biodiversity, water bodies and tree canopy.

Manage ratepayers' money wisely, delivering quality core services to the whole community and addressing the issues that are important to our residents.

Actively balance the needs of today's residents with the needs of future generations, with the aim of leaving no one behind.

## Our goals for this Long Term Plan 2024–2034

### Draft Community Outcomes

#### Collaborative and confident

Our residents have the opportunity to actively participate in community and city life, have a strong sense of belonging and identity, and feel safe.

#### Green and liveable

Our neighbourhoods and communities are accessible and well connected, supporting our goals to reduce emissions, build climate resilience and protect and regenerate the environment, especially our biodiversity, water bodies and tree canopy.

To be adopted by the Council as part of the Long Term Plan 2024–2034

#### A cultural powerhouse

Our diverse communities are supported to understand and protect their heritage, pursue their arts, cultural and sporting interests, and contribute to making our city a creative, cultural and events 'powerhouse'.

#### Thriving and prosperous

Our city is a great place for people, business and investment where we can all grow our potential, where enterprises are innovative and smart, and where together we raise productivity and reduce emissions.

## Our intergenerational vision

A place of opportunity for all.

Open to new ideas, new people, new investment and new ways of doing things – a place where anything is possible.

Ngāi Tahu has rangatiratanga over its takiwā – the Council is committed to partnering with Ngāi Tahu to achieve meaningful outcomes that benefit the whole community

## 7. Proposed bus stop relocation on Clyde Road

Reference / Te Tohutoro: 23/682349

Report of / Te Pou	Mansour Johari, Passenger Transport Engineer
Matua:	(Mansour.Johari@ccc.govt.nz)
General Manager /	Mary Richardson, General Manager Citizens & Community
Pouwhakarae:	(Mary.Richardson@ccc.govt.nz)

### 1. Nature of Decision or Issue and Report Origin

- 1.1 The purpose of this report is for the Waimaero Fendalton-Waimairi-Harewood Community Board to approve the relocation of a bus stop on the east side of Clyde Road that is currently outside 86 Clyde Road to outside 82 and 84 Clyde Road.
- 1.2 This report is staff generated in response to a resident requesting that a bus stop be relocated from outside 86 Clyde Road due to a conflict with a driveway.
- 1.3 The decision in this report is of low significance in relation to the Christchurch City Council's Significance and Engagement Policy. The level of significance was determined by considering the criteria set out in the Council's Significance and Engagement Policy.

### 2. Officer Recommendations Ngā Tūtohu

That the Waimāero Fendalton-Waimairi-Harewood Community Board:

1. Pursuant to Clause 7 of the Christchurch City Council Traffic and Parking Bylaw 2017 and as shown on Attachment A:
  - a. That parking be restricted to 120 minutes on the east side of Clyde Road commencing at a point 143 metres south of its intersection with Kotare Street and extending in a southerly direction for a distance of 30.5 metres.
  - b. That the stopping of vehicles is prohibited at all times on the east side of Clyde Road commencing at a point 182 metres south of its intersection with Kotare Street and extending in a southerly direction for a distance of 4 metres.
  - c. That a bus stop be installed on the east side of Clyde Road commencing at a point 186 metres south of its intersection with Kotare Street and extending in a southerly direction for a distance of 14 metres.
  - d. That the stopping of vehicles is prohibited at all times on the east side of Clyde Road commencing at a point 200 metres south of its intersection with Kotare Street and extending in a southerly direction for a distance of 3 metres.
  - e. That bus stop facilities including a hardstand area, a set of directional and warning tactile pavers, a bus stop sign, and a seat are installed at the bus stop on the east side of Clyde Road as shown on Attachment A.
2. That any previous resolutions pertaining to traffic controls made pursuant to any bylaw to the extent that they are in conflict with the traffic controls described in 1. are revoked.
3. That these resolutions take effect when the traffic control devices that evidence the restrictions described in 1. are in place (or removed, in the case of revocations).

### 3. Reason for Report Recommendations Ngā Take mō te Whakatau

#### 3.1 The advantages of this option include:

- By providing no stopping lines before and after the bus box vehicles do not obstruct buses pulling into and out of the bus stop. This is particularly important as it allows a bus to pull up close and parallel to the kerb, which reduces the step distance between the footpath kerb and the bus. The current bus stop is not line marked to council standards.
- A continuous, unobstructed footpath is necessary for both the front and rear doors of the bus, ensuring that passengers can board and alight safely. Currently, the bus stop at 86 Clyde Road is compromised by a driveway, causing passengers to step on and off the bus within the driveway itself. This not only poses safety concerns, but also results in a larger-than-recommended height difference between the footpath and bus entrance due to the dropped kerb design for the vehicle crossing. By relocating the bus stop to a more suitable location, accessibility for all passengers will be significantly improved, as the footpath will no longer be obstructed by a driveway and the height difference between the footpath and bus entrance will adhere to the recommended specifications for bus stop design. The proposed changes minimize the conflict between waiting bus passengers and vehicles exiting the driveways while sightlines are improved for vehicles exiting the driveways.

#### 3.2 The disadvantages of this option include:

- Re-allocation of on-street parking provision in order for the bus stop to adhere to the recommended bus stop length.

### 4. Alternative Options Considered Ētahi atu Kōwhiringa

#### 4.1 Option 2 – Do nothing and the existing street conditions will remain as is.

#### 4.2 No alternative options for relocating the bus stop were considered, as the driveway spacing along Clyde Road made it challenging to identify a suitable location that would not obstruct access to driveways when a bus is stopped.

### 5. Detail Te Whakamahuki

#### 5.1 All bus stops are planned and implemented in accordance with the Christchurch Bus Stop Guidelines (2009) and the Christchurch City Council's Construction Standard Specifications (2018).

#### Public Consultation Te Tukanga Kōrerorero

#### 5.2 The consultation period for the proposed bus stop changes occurred from 28 November 2022 to 16 December 2023. The consultation catchment area is shown in [Figure 1](#). Letters were posted to the affected properties (both tenants and owners) in the consultation catchment area.

5.3 An email was sent to all members of the Environment Canterbury Public Transport Stakeholder Groups (PTSRG and ARG) on the 5th of January, seeking feedback by the 3rd of February.

5.4 Environment Canterbury support the proposed changes. Staff also received two submissions of support and one submission against the relocation of the bus stop.

5.5 Below are three redacted submissions received from residents and property owners in the consultation catchment area.

- “We heartily support this proposal. We live at [REDACTED], and there are 8 houses on the driveway who are frequently impeded by either buses or passengers accidentally blocking or standing in the driveway. Moving it to 82 where there are no driveways makes perfect sense. We also note that on a Tuesday night, the entire bus stop is lined with rubbish bins due to the number of properties adjoining the bus stop.”
- “I am against having the bus stop moved to outside 82 Clyde Road. As the resident of 82a (since 1993) Clyde Road the congestion is already terrible there as the turning lane begins there, as well for traffic turning into and out of arts road onto Clyde Road. I think if it was to be moved it would be best further down Clyde Road across from the university approx. outside 75 Clyde Road there it won’t impact the residents or traffic as much as the road view is more accessible to traffic parking and pulling out onto Clyde Road.”
- “I think moving the bus stop makes sense, as it will no longer impede the driveway of 86 Clyde Road. However, whilst you are making the changes I would like to propose that the car park as indicated in my attachment be made no parking with a yellow dotted line (or possibly a P3 parking space?). The reason for this is that when cars are currently parked there (which is all the time), it restricts access to my driveway which [REDACTED]. I have a very tight driveway, and vehicles often have to take a wide berth when coming from the North direction, which causes crossing the centre line of Clyde Road, and frustrates drivers behind the turning vehicle. It is a very busy road.”

Figure 2: Proposed no stopping outside 86 Clyde Road.

- 5.6 In response to the submission against the relocation of the bus stop, council staff considered other alternative locations for the bus stop. However, there were no suitable locations found for the bus stop due to driveway spacing.
- 5.7 Staff investigated removing one parking space outside 86 Clyde Road as outlined in figure 2. However, this option was dismissed because there is ample space for parking a car at this location. Furthermore, relocating the bus stop would slightly increase the available parking space in this area.
- 5.8 Figures 3 and 4 illustrate the modifications made to the concept drawing following the conclusion of the consultation period. The proposed bus stop has been relocated four metres north of the driveway of 82 Clyde Road, enhancing sightlines for vehicles exiting the driveway and moving waiting passengers further from the driveway area. The change required no further consultation as per Council's consultation policy.

## 6. Policy Framework Implications Ngā Hīraunga ā- Kaupapa here

### Strategic Alignment Te Rautaki Tīaroaro

- 6.1 Council's Strategic Framework is a key consideration in guiding the recommendations in this report. The recommendations in this report help achieve the:
- community outcome of a well-connected and accessible city promoting active and public transport, and
  - strategic priorities of meeting the challenge of climate change through every means available.
- 6.2 This report supports the [Council's Long Term Plan \(2021 - 2031\)](#):
- 6.3 Transport
- 6.3.1 Activity: Transport
- Level of Service: 10.4.4 Improve user satisfaction of public transport facilities (number and quality of shelters and quality of bus stop) - >=72% resident satisfaction

### Policy Consistency Te Whai Kaupapa here

- 6.4 The decision is consistent with Council's Plans and Policies.

### Impact on Mana Whenua Ngā Whai Take Mana Whenua

- 6.5 The decision does not involve a significant decision in relation to ancestral land or a body of water or other elements of intrinsic value, therefore this decision does not specifically impact Mana Whenua, their culture and traditions.

### Climate Change Impact Considerations Ngā Whai Whakaaro mā te Āhuarangi

- 6.6 Public transport is a key provision to support mode shift, reduce greenhouse gas emissions, traffic congestion and traffic crashes. Measures that promote the use of public transport make it a more attractive travel option, thereby supporting mode shift and associated benefits to the environment.

### Accessibility Considerations Ngā Whai Whakaaro mā te Hunga Hauā

- 6.7 Accessibility by access to opportunities: The proposed relocated bus stop will have a positive impact to the well-being and accessibility of our community through freedom to access opportunities by means other than private vehicles.
- 6.8 Accessibility by inclusive design:
- The relocated bus stop proposed improves the accessibility of public transport to the community by reducing the height between the footpath and the bus entrance.
  - Improvements to the overall length of the bus stop improves the operational performance of the buses that use the bus stop.

## 7. Resource Implications Ngā Hīraunga Rauemi

### Capex/Opex Ngā Utu Whakahaere

- 7.1 Cost to Implement - \$10,000 for the bus stop improvements and parking restrictions, plus \$2,000 for the planning, consultation, and preparation of this report.
- 7.2 Maintenance/Ongoing costs - Transport Unit Operational Expenditure budgets, includes maintenance of bus stop infrastructure, which adds up to approximately \$230 annually.

- 7.3 Funding Source - Traffic Operations, Capital Expenditure budget for bus stop, seating, and shelter installations.
- 7.4 If approved, the recommendations will be implemented during this financial year.

## 8. Legal Implications Ngā Hīraunga ā-Ture

### Statutory power to undertake proposals in the report Te Manatū Whakahaere Kaupapa

- 8.1 The relevant Community Board or Committee have delegated authority from the Council to exercise the delegations as set out in the Register of Delegations. The list of delegations for the Community Boards includes the resolutions of:
- Stopping, standing, and parking restrictions (including bus stops) under Clause 7 of the Traffic and Parking Bylaw 2017.

### Other Legal Implications Ētahi atu Hīraunga-ā-Ture

- 8.2 The legal consideration is that the installation of any signs and/or markings associated with traffic control devices must comply with the Land Transport Rule: Traffic Control Devices 2004.
- 8.3 This report has not been reviewed and approved by the Legal Services Unit.

## 9. Risk Management Implications Ngā Hīraunga Tūraru

- 9.1 Should the Community Board proceed with Option 2, the do-nothing option:
- The current bus stop is undersized and the location of an on-street parking space directly in front of the bus box it is likely the bus will continue to block the driveway of nine households on Clyde Road
  - The front door of the bus will continue to coincide with a driveway.
  - The bus will not be able to pull up close and parallel to the kerb as the existing bus stop is not line marked to council's standards.
  - There will not be any improvements to accessibility at this location.

## 8. Avonhead Park surface water management

Reference / Te Tohutoro: 23/686634

Report of / Te Pou                      Dr Richard Gibbs, Senior Project Manager,  
Matua:                                      richard.gibbs@ccc.govt.nz

General Manager /                      Mary Richardson, General Manager Citizens & Community  
Pouwhakarae:                          (Mary.Richardson@ccc.govt.nz)

### 1. Nature of Decision or Issue and Report Origin

- 1.1 This report presents a landscape design for approval to modify Avonhead Park so that large volumes of surface water created by extreme rainfall events can be better managed so reducing the risk of flooding residential properties next to the park.
- 1.2 This report is staff generated.
- 1.3 The decision in this report is of low significance in relation to the Christchurch City Council's Significance and Engagement Policy. The level of significance was determined by taking into account that the decision deals with a bespoke solution for a single park and a local community, as opposed to being a city-wide solution for all residents.
- 1.4 For the landscape design plan to be implemented, a decision of the Board is required.

### 2. Officer Recommendations Ngā Tūtohu

That the Waimāero Fendalton-Waimairi-Harewood Community Board:

1. approve the recommendation to plan and implement the proposed surface water management solution for Avonhead Park, subject to identification of the appropriate budget within the existing Community Parks Capital programme.

### 3. Reason for Report Recommendations Ngā Take mō te Whakatau

- 3.1 July 2022 was the wettest month (of any month) on record in Christchurch. A total of 310 mm of rain was recorded and this was the first time that more than 300 mm of rain was observed in one month since records began in 1863 (source: NIWA). This amount of rainfall represents around half of the rain that Christchurch typically receives over the course of one year.
- 3.2 The consequence of this extreme rainfall was that Avonhead Park experienced severe flooding along the Park's boundary with Hatfield Place. Several residents had to take emergency measures and hire pumps to stop floodwater entering their properties. Those worst affected have been in regular contact with Council staff to request if any help can be provided to prevent a similar occurrence.
- 3.3 We regard the extreme rainfall event and its possible mitigation presented in this report not only as a means of providing a sustainable drainage management framework for parks development but also as a means of designing climate change resiliency into parks management, not least by meeting the goals of the recently adopted Urban Forest Plan.

## 4. Alternative Options Considered Ētahi atu Kōwhiringa

- 4.1 Option 1 – Plan is not approved.
  - 4.1.1 Advantage:
  - 4.1.2 If the Community Board has significant concerns with the plans, they would have the opportunity to make changes.
  - 4.1.3 Disadvantage:
  - 4.1.4 The risk of heavy rainfall causing flooding in nearby properties remains a very high risk. Indeed, a significant rainfall event over the weekend of 22/23 July 2023 and again on 16 August 2023 caused a similar level of flooding on the park, of great concern and distress to the residents on Hatfield Place. Doing nothing has significant reputational consequences.
- 4.2 Option 2 – Install a bunded swale along the boundary fence line between Hatfield Place and the Park to collect surface storm water and discharge the resultant surface run-off into the existing storm water network.
  - 4.2.1 Advantage:
  - 4.2.2 This would be a less expensive option than implementing the full proposed plan and could be used to determine if the full proposed plan is required. Note that a variant of option 2 will be required regardless as it will form part of the erosion and sediment control plan for the full proposed plan.
  - 4.2.3 Disadvantage:
  - 4.2.4 This option is not guaranteed to work in the long term. Moreover, it deals with trying to solve the entire surface water problem at the lowest part of the park rather than designing to intercept surface water at multiple locations across the park. There are only two outlets to the existing storm water network available, these being a sump at the northern end of the proposed bunded swale under the existing pylons and the water course at the southern end of the park. After consulting with CCC stormwater engineers, ecologists and planners, increasing water discharge into these outlets during a storm event would not be approved due to network capacity concerns. Installing a bunded swale without an improved outlet could simply result in shifting the flood risk downstream or onto other properties around the park.

## 5. Detail Te Whakamahuki

- 5.1 We have commissioned parks, landscape and engineering specialists to work on a long-term solution for the park to prevent discharge of surface water beyond the park boundaries.
- 5.2 A landscape concept design layout is attached. This solution has required significant water modelling and engineering input given the huge volumes of surface water that have been generated on the park during recent unprecedented rainfall events.
- 5.3 The solution involves a series of swales and bunds to break up the park into smaller catchment areas, coupled with extensive tree planting, taking into account the overhead and buried power lines crossing through the park. This solution fits very well into the recently adopted urban forest plan where we are now required to create on average a 40% canopy coverage in CCC parks.
- 5.4 However, the solution will work only if it is possible to generate increased soakage to ground in selected planted hollows, which in turn requires authorisation to use CCC's comprehensive

stormwater consent. Without being able to use the comprehensive stormwater consent, we would have to apply for a bespoke consent through ECan which we are reliably advised by CCC planners would not be granted in the foreseeable future. Three pieces of information are required to gain approval to use CCC's comprehensive stormwater consent:

- the final design of the planted hollows
- proof that the surface run-off water quality is not contaminated.
- a guarantee that no pesticides will be used on the park.

- 5.5 We have identified locations for the planted hollows in the park as recommended by the landscape architect and engineers have completed soakage testing in these areas in order to determine the size of the hollows required to deal with a pre-determined quantity of surface water run-off.
- 5.6 We have completed surface run-off water quality testing to prove it is not contaminated.
- 5.7 We have obtained a written guarantee from the Head of Parks that no pesticides will be used on the park (pesticides have not been used on the park for years).
- 5.8 We have held meetings with the sports users of the park (FC2011 and Canterbury Baseball) and informed them of the proposed works that will be carried out on the park and gained their support.
- 5.9 CCC engagement have produced an information flyer and distributed it to all residents along Hatfield Place as well as on-line. No feedback or submissions have been received from the public to date.
- 5.10 Note though that the full implementation of the plan does not need to be carried out all at once. It can be a progressive implementation.
- 5.11 The decision affects the following wards/Community Board areas:
  - 5.11.1 The Waimari Ward of the Waimaero Fendalton-Waimairi-Harewood Community Board

## 6. Policy Framework Implications Ngā Hīraunga ā- Kaupapa here

### Strategic Alignment Te Rautaki Tīaroaro

- 6.1 This report supports the [Council's Long Term Plan \(2021 - 2031\)](#):
- 6.2 Parks, Heritage and Coastal Environment
  - 6.2.1 Activity: Parks and Foreshore
    - Level of Service: 6.8.2.1 Increasing tree canopy in Parks - A net increase in total number of trees is achieved (1:2 replacement policy), with a minimum of 50% of the trees being medium to very large species.

### Policy Consistency Te Whai Kaupapa here

- 6.3 The decision is consistent with Council's Urban Forest Plan and other relevant policies.
- 6.4 All planting will be in alignment with the Tree Policy, Infrastructure Design Standards and Construction Standard Specification.
- 6.5 All earthworks will be in alignment with District Plan requirements and New Zealand Electrical Code of Practice for Electrical Safe Distances (NZECP 34:2001).

### **Impact on Mana Whenua Ngā Whai Take Mana Whenua**

- 6.6 The decision does not involve a significant decision in relation to ancestral land or a body of water or other elements of intrinsic value, as the proposed works are not located within a cultural overlay. Therefore, this decision does not specifically impact Mana Whenua, their culture and traditions.
- 6.7 The decision involves a matter of interest to Mana Whenua and will not impact on our agreed partnership priorities with Ngā Papatipu Rūnanga
- 6.8 Mana Whenua values, as expressed in the Mahaanui Iwi Management Plan, have been incorporated into the Urban Forest Plan. These planting plans are part of the implementation of this plan.

### **Climate Change Impact Considerations Ngā Whai Whakaaro mā te Āhuarangi**

- 6.9 The decisions in this report are likely to:
  - 6.9.1 Contribute positively to adaptation to the impacts of climate change.
  - 6.9.2 Contribute positively to emissions reductions.
- 6.10 The plans will result in an increase in canopy cover across the city. As trees sequester carbon, this will have a positive impact on the Council's emissions reduction.

### **Accessibility Considerations Ngā Whai Whakaaro mā te Hunga Hauā**

- 6.11 Trees will be planted with a setback from paths, properties and sports fields to avoid issues relating to shade, roots and adjacent infrastructure.

## **7. Resource Implications Ngā Hīraunga Rauemi**

### **Capex/Opex Ngā Utu Whakahaere**

- 7.1 Cost to Implement – high level budget estimate for full implementation: \$600,000
- 7.2 Maintenance/Ongoing costs – likely to reduce due to reduction in mown grass area in the park
- 7.3 Funding Source – capex: This is an un-budged project, for this to proceed parks will need to source funding. We will look within our Community Parks Development Capital programme to identify funding to enable us to proceed to market. The Community Board and Key stakeholders will be kept informed of progress.

## **8. Legal Implications Ngā Hīraunga ā-Ture**

### **Statutory power to undertake proposals in the report Te Manatū Whakahaere Kaupapa**

- 8.1 Council has the delegation to plant trees within the park and carry out sports field development work in parks under the Local Government Act.

### **Other Legal Implications Ētahi atu Hīraunga-ā-Ture**

- 8.2 There is no legal context, issue or implication relevant to this decision.

## **9. Risk Management Implications Ngā Hīraunga Tūraru**

- 9.1 The greatest risk to this project is the on-going uncertainty related to changing weather patterns associated with climate change, and designing a cost-effective natural drainage system that balances the rate of soakage to ground with using the sports fields and bunds to temporarily hold water until it drains away.

## 9. Waimāero Fendalton-Waimairi-Harewood Summer with your Neighbours 2023-24

Reference Te Tohutoro: 23/1263257

Report of Te Pou Matua: Katie MacDonald, Support Officer, katie.macdonald@ccc.govt.nz

General Manager Mary Richardson, General Manager Citizens and Community,

Pouwhakarae: mary.richardson@ccc.govt.nz

### 1. Purpose of Report Te Pūtake Pūrongo

- 1.1 The purpose of this report is for the Waimāero Fendalton-Waimairi-Harewood Community Board to consider applications received for the 2023-24 Waimāero Fendalton-Waimairi-Harewood Summer with your Neighbours and to allocate funding as appropriate.

There is a balance of \$3,500 allocated to the 2023-24 Waimāero Fendalton-Waimairi-Harewood Summer with your Neighbours. The staff recommendations in this report total \$3,371.

34	Kidsfirst Kindergarten Hawthornden	BBQ lunch	100	\$0

### 3. Key Points Ngā Take Matua

#### Strategic Alignment Te Rautaki Tīaroaro

- 3.1 The recommendation is strongly aligned to the Strategic Framework and in particular the strategic priority of Strengthening Communities. It will provide a strong sense of community, active participation in civic life, safe and healthy communities, celebration of our identity through arts, culture, heritage and sport, valuing the voices of children and young people.

#### Decision Making Authority Te Mana Whakatau

- 3.2 The Community Board has the delegated authority to determine the allocation of its Summer with your Neighbours funding.

#### Assessment of Significance and Engagement Te Aromatawai Whakahirahira

- 3.3 The decisions in this report are of low significance in relation to the Christchurch City Council's Significance and Engagement Policy.
- 3.4 The level of significance was determined by the number of people affected and/or with an interest.

- 3.5 Due to the assessment of low significance, no further community engagement and consultation is required.

### Discussion Kōrerorero

- 3.6 At its meeting on 7 August 2023, the Waimāero Fendalton-Waimairi-Harewood Community Board resolved to allocate \$3,500 from its 2023-24 Discretionary Response Fund towards Summer with your Neighbours 2023-24.
- 3.7 Summer with your Neighbours is about bringing people closer together and celebrating the unique and diverse mix of each neighbourhood. It invites residents to consider if they have ever wanted to organise a neighbourhood gathering, or to get to know the people who live close to them. This popular event has grown from year to year and is promoted by the Council.
- 3.8 Local community groups, including Residents' Associations and Neighbourhood Support groups, have been sent information inviting them to apply for the Summer with your Neighbours funding. Staff also promoted the fund through social media and other networks.
- 3.9 Summer with your Neighbours will run from 21 October 2023 to 31 March 2024. Applications for funding opened on 13 July 2023 and closed on 11 August 2023.
- 3.10 By the closing date, 34 eligible applications had been received. Staff have assessed the applications to ensure that they met the Summer with your Neighbours guidelines and have recommended amounts to be allocated to 32 of the 34 applications.
- 3.11 Two applications have been recommended by staff as declines:
- Yaldhurst Model School PTA.
  - Kidsfirst Kindergarten Hawthornden.

The reasons for the recommendations of a decline for each of the two applications are:

- Due to the limited funding available.
  - Under the Summer with your Neighbours Guidelines, it states: "*Because it is intended to 'bring neighbours together', applications from individuals getting together and holding a local gathering will take priority over those held by organisations.*"
  - In relation to the application from Yaldhurst Model School PTA, under the Summer with your Neighbours Guidelines, it states: "*Funding should not be seen as a way for individuals or organisations to hold a gathering that they would at other times of the year.*"
- 3.12 To create consistency in staff recommendations across the city, staff recommendations are based on the following formula:
- \$2.50 per head up to a maximum of \$200.
  - When the requested amount is less than the \$2.50 per head formula, the requested amount is what has been recommended.
  - Where two approximate attendee numbers have been noted, recommendations are based on the higher approximate figure.
- 3.12 A matrix outlining the applications and staff recommendations is attached (refer **Attachment A**), along with the Summer with your Neighbours Guidelines (refer **Attachment B**).

# Summer with your neighbours

## GUIDELINES

**Summer with your neighbours** is back again for 2023 and we are excited that the dates remain extended for the summer period and are 21 October 2023 to 31 March 2024.

Small subsidies are available towards costs to help support **Summer with your Neighbours** events. Any funding approved for your event will be paid retrospectively after your event once we have received a copy of your receipts. Please be aware that allocation of funding towards the project is subject to Community Board approval.

### The following criteria applies:

- Funding is not available for alcohol or fireworks.
- Some Community Boards may not give priority to funding items other than food. Please contact [neighbourhoodweek@ccc.govt.nz](mailto:neighbourhoodweek@ccc.govt.nz) if you have any queries around this.
- Funding is seen as a small contribution towards holding a gathering. Because it is intended to 'bring neighbours together', applications from individuals getting together and holding a local gathering will take priority over those held by organisations.
- Funding should not be seen as a way for individuals or organisations to hold a gathering that they would at other times of the year.
- It is expected that those holding the gathering will contribute in some way towards the gathering, even if it is through supplying some of the materials.
- All gatherings need to take place within designated dates – 21 October 2023 to 31 March 2024.
- Where two gatherings are to be held in a close locality (i.e. same street or park), we will encourage you to combine these gatherings.
- Where two or more people apply separately for the same gathering, these applications will be considered together.
- Residents' Associations can apply unless they have received funding for a gathering from another Council fund.

If you have any questions throughout the process, please get in touch. If you are able to, please email in the first instance: [neighbourhoodweek@ccc.govt.nz](mailto:neighbourhoodweek@ccc.govt.nz)

### Health and safety

The individual(s) organising your gathering must ensure that appropriate standards of health, safety, security and environment practice are maintained at every gathering.

If, for the purpose of your gathering, the individual(s) is/are a person conducting a business or undertaking within the meaning of the Health and Safety at Work Act 2015, they must comply with their various duties under that Act.

If the proposed location of your gathering is on Council property or to be held at a Council venue, the Council will provide information to the organiser of your gathering to advice of its health and safety policy in relation to that property or venue at the time of your booking.

All events must comply with events and gathering guidelines or rules set by the government in relation to Covid-19 restrictions.

### Reimbursement

If you have been notified in writing that your application was approved, hold your gathering first, then provide receipts and attach them to the Subsidy Reimbursement Form. This form will be emailed or posted to you.

### The Process

Once you have decided to participate in **Summer with your neighbours**, here are the steps to take:

1. Get your neighbours together for a pre-gathering chat to brainstorm ideas.
2. Complete the online application form or pick up a hard copy from your local service centre.
3. Fill out the application form on-line, submit via email, post to Christchurch City Council (PO Box 73020, Christchurch 8154) or drop the form into your local service centre prior to the deadline of Friday 11 August 2023 at 5pm.
4. Once applications have closed these will be presented to the Community Boards for consideration. **Note:** Because you are applying for public funding, your name and gathering details will be part of the public record of the Community Board's allocation meeting. You will be notified of the decision made by your Community Board.
5. Hold your gathering. (Take lots of photos and have a great time!)
6. Complete the Subsidy Reimbursement form, include your receipts, and return it to us.
7. If your application was successful in being allocated funding, your allocated subsidy will be reimbursed.  
**Note:** This could take up to four weeks.

### 1. Purpose of Report Te Pūtake Pūrongo

- 1.1 The purpose of this report is for the Waimāero Fendalton-Waimairi-Harewood Community Board to consider an application for funding from its 2023-24 Discretionary Response Fund from the organisation listed below.

Funding Request Number	Organisation	Project Name	Amount Requested	Amount Recommended
00065992	Nepal NZ Friendship Society of Canterbury Inc.	Weekly Integrated Activities	\$15,000	\$2,500
00065731	Russley Playcentre	Russley Playcentre Playground Equipment and Swing	\$7,000	\$3,500

- 1.2 There is currently a balance of \$54,537 remaining in the fund.

### 2. Staff Recommendations / Ngā Tūtohu

That the Waimāero Fendalton-Waimairi-Harewood Community Board:

- Approves a grant of \$2,500 from its 2023-2024 Discretionary Response Fund to the Nepal NZ Friendship Society of Canterbury Inc. towards their Integrated Weekly Activities.
- Approves a grant of \$3,500 from its 2023-2024 Discretionary Response Fund to the Russley Playcentre towards playground equipment and swings.

### 3. Key Points Ngā Take Matua

#### Strategic Alignment Te Rautaki Tīaroaro

- 3.1 The recommendation above is aligned to the Council's Strategic Framework and in particular the strategic priorities of a Collaborative and Confident City and A Cultural Powerhouse City. The project also aligns with the Te Haumako Te Whitingia Strengthening Communities Together Strategy.

#### Decision Making Authority Te Mana Whakatau

- 3.2 The Community Board has the delegated authority to determine the allocation of the Discretionary Response Fund for each community.

3.2.1 Allocations must be consistent with any policies, standards or criteria adopted by the Council.

3.2.2 The Fund does not cover:

- Legal challenges or Environment Court challenges against the Council, Council Controlled organisations or Community Board decisions
- Projects or initiatives that change the scope of a Council project or that will lead to ongoing operational costs to the Council (though Community Boards can recommend to the Council that it consider a grant for this purpose).

### Assessment of Significance and Engagement Te Aromatawai Whakahirahira

3.3 The decisions in this report are of low significance in relation to the Christchurch City Council's Significance and Engagement Policy.

3.4 The level of significance was determined by the number of people affected and/or with an interest.

3.5 Due to the assessment of low significance, no further community engagement and consultation is required.

Organisation Description/Objectives:

Nepal New Zealand Friendship Society of Canterbury (NNZFSC) is a non-profit society that intends to support new Nepali migrants, facilitate their assimilation in NZ, & promote intercultural harmony between them. The society runs regular Nepali language class for children and organizes cultural events to celebrate major Nepali festivals. These events enhance solidarity among the Nepali migrants and foster their friendship with New Zealanders. Furthermore, NNZFSC regularly participates in cultural events organized by the City Council and other societies.

Alignment with Council Strategies and Policies

- Strengthening Communities Together Strategy
- Multicultural Strategy
- Physical Recreation and Sport Strategy
- Ageing Together Policy

Alignment with Council Funding Outcomes

- Support, develop and promote capacity.
- Community participation and awareness
- Enhance community and neighbourhood safety.
- Provide community based programmes.
- Reduce or overcome barriers.
- Foster collaborative responses

Outcomes that will be achieved through this project.

Children will be taught Nepali language and culture.

Members (including children and adults of both gender) will be able to participate weekly in social badminton.

The activities and connections made will create a platform for members to gather every week and strengthen their sense of belonging to the community.

Weekly football practices for kids, swimming sessions for women and Zumba for adults will be provided.

**How Will Participants Be Better Off?**

Participants health and physical wellbeing will improve.

Children's grasp of Nepali language and culture will improve and provide a connection to their heritage and a sense of identity.

Members will have opportunities to meet each other regularly, which will strengthen their friendship and unity, creating a sense of belonging and reducing isolation.

Members will become more familiar and more comfortable in visiting different areas of the city.

Staff Assessment

The Nepali New Zealand Friendship Society of Canterbury Incorporated (NNZFSC) has 200 registered members. They have a community radio programme called 'Namaste Nepal' which has aired twice a week on Community Radio Plains FM 96.9 since 2007. It broadcasts local news, activities, current affairs and music in the Nepali language and when needed, it also airs emergency information and Civil Defence messages.

They also co-ordinate and run several community-integrated programmes, including Nepali language and cultural classes for children, women's yoga, social badminton for kids and adults, Zumba for adults, Swimming for women, and football for kids. NNZFS also runs several other celebrations and annual events such as sports tournaments and festivities celebrating Nepali New Year.

This application is seeking funding assistance towards the hall hire and equipment for the weekly programmes and activities.

Originally all of the activities were to be together at one place creating a hub but that has not been feasible because of the growth of the activities and space required to run them. The benefits of having them on different days in different spaces allows participants to attend more than one activity without too much disruption and connect them with different people in the community and gets them out into other areas of the city.

The number of people registered to play social badminton is over 40 requiring a larger space but currently the language class for children and a badminton session for their parents take place at the Fendalton community hall every Sunday morning and badminton for other members takes place at a separate venue (depending on availability). Zumba is at Halswell Community Centre, kids football at Ray Blank Park and Swimming is at Wainui Pool.

There is an annual fee for members to play social badminton, but all other activities are provided free or at a low cost to encourage more members to participate. These activities have been extremely successful in bringing the community together and strengthening their sense of belonging and contributes to the richness of the social and cultural life of Christchurch as a diverse and multi-cultural city.

Rationale for staff recommendation:

The programme contributes to all four Pillars of the Strengthening Communities Together Strategy, valuing diversity and fostering inclusion across communities and generations, addressing issues of social exclusion, supporting participants to access culture, heritage and recreation and building a sense of belonging and identity.

The project aligns strongly with the Multicultural Strategy and the Physical Recreation and Sport Strategy

Organisation Description/Objectives:

Russley Playcentre empowers children and their parents/caregivers to work, grow, play, and learn together by providing quality early childhood sessions for children aged 0-6. We provide support and a community for the whole family as parents/caregivers attend with their children. Playcentre also offers education courses for parents, empowering parents to support their children through the early years.

Alignment with Council Strategies and Policies

- Strengthening Communities Together Strategy
- Multicultural Strategy
- Physical Recreation and Sport Strategy

Alignment with Council Funding Outcomes

- Support, develop and promote capacity
- Increase community engagement
- Provide community-based programmes
- Reduce or overcome barriers

Outcomes that will be achieved through this project

We would like to provide a playground and swing set which is safe and accessible for all ages.

How Will Participants Be Better Off?

Children and families who attend Russley Playcentre will benefit from having a well-resourced playground which is appropriate for their ages. In particular, the proposed play equipment will provide opportunities for children to challenge themselves physically, and to strengthen connections with other families as they play alongside and with each other.

Staff Assessment

Russley Playcentre operates as a cooperative under the oversight of the Playcentre Federation, Upper South Island Region. It's located at Crosbie Park in Avonhead. It has 82 registered students and holds a license for up to 25 children, with 20 slots allocated for those under two years old. Sessions are held four mornings a week, and an additional 'Babies can play' session serves infants and parents.

Day-to-day operations are led by a coordinator, with parents actively engaged in session rotations. The Playcentre receives support from a centre support person and administrator provided by the Upper South Island Region, ensuring consistent guidance. At its core, Russley Playcentre fosters community through the mantra of Whānau Tupu Ngatahi - Families Growing Together. A strong emphasis is placed on empowering parents as primary educators. Adult education opportunities cover child development, communication skills, Te reo and tikanga Māori, and play facilitation strategies.

Russley Playcentre is seeking funding for the replacement of playground equipment and the acquisition of a baby swing. The existing equipment has been removed due to wear and tear and safety concerns, promoting the purchase of low-height, age-appropriate replacements. The new equipment also will enhance accessibility, particularly for crawlers and toddlers. Notably, a baby swing is not currently available. This new addition will cater to younger tamariki, around 30% of attendees, while a strap swing offers older children a chance to exercise independence through self-propulsion.

Rationale for staff recommendation:

The programme contributes to all four Pillars of the Strengthening Communities Together Strategy, valuing diversity and fostering inclusion across communities and generations, addressing issues of social exclusion, supporting participants to access culture, heritage, and recreation, and building a sense of belonging and identity.

The project addresses specific needs, enhances the play experience for participants of all ages, and ensures the continuation of a vital community resource.

Halswell-Hornby-Riccarton Staff Recommendation: \$2,500.

### 1. Purpose of Report Te Pūtake Pūrongo

This report provides the Board with an overview on initiatives and issues current within the Community Board area.

### 2. Officer Recommendations Ngā Tūtohu

That the Waimāero Fendalton-Waimairi-Harewood Community Board:

1. Receive the Waimāero Fendalton-Waimairi-Harewood Community Board Area Report for September 2023.

### 3. Community Support, Governance and Partnership Activity

#### 3.1 Community Governance Projects

##### 3.1.1 Bryndwr Community Garden's Fruitful Delivery

After gaining the appropriate permissions, the Bryndwr Community Garden was looking for a couple of fruit trees to plant in their garden at Morley Reserve to provide a treat for children, volunteers, and community alike.

They wanted trees around 5ft tall so they could be able to survive the rigors of planting in their communal space better. The trees the group were looking at were approximately \$160 each. As luck would have it, a week or two later after a few phone calls with the group and staff from the Council's Parks Unit, our Community Development Advisor, Natalie Dally, was able to pick up and deliver a nectarine, pear, and apricot tree to the gardens. The volunteers are over the moon as the trees are even better quality than the ones they were looking at and they were free! We are still working on getting a lemon tree for them so if anyone knows of one going, contact Natalie as she knows a good home for it.

*Photo: Deen “the keen” gardener, one of the volunteers from the garden and husband of Sarah the current Chairperson of the group. On call to take delivery of trees day or night!*

### 3.1.2 Working with Support for Development and their Women's Cultural Events

The Support for Development group have conversational English connection classes at the Fendalton Service Centre and other activities at the Fendalton Community Centre.

They are looking at running a couple of women's cultural events this year, the "Teej Celebration" and "Vailo Depawali". Our Community Development Advisor, Natalie Dally, has been helping them to navigate Council funding schemes and pull together an application which will go to the Metropolitan Discretionary Response Fund.

Women with a cultural heritage from mainly south Asian countries; Nepal, Bhutan, India, Bangladesh, Myanmar, Pakistan and others share food and cultural activities at the events. They provide an opportunity to integrate cultures and harmonise a multicultural New Zealand society.

For many participants, these festivals have traditionally been the only time in the calendar year where women have been allowed full freedom of expression. Women band together and celebrate by singing, dancing, performing humorous dance, and eating a variety of ethnic foods. The events inspire, encourage, and empower Asian women to explore and promote their unique cultural values and share with other cultures and wider communities of women in Christchurch.

The events are often catalysts for deeper connections between women from different cultural backgrounds as they introduce and exchange their respective cultures. They often have speakers sharing stories of indigenous women and modern women with successful leadership and academic careers in NZ and their life experiences.

Isolation is a very real problem for many and the connections these events provide can be life changing. The events will be open to all women of Christchurch to attend. The Teej celebration is expected to be held in September and the Valio will be a little later in the year.

### 3.1.3 The Friends of Crosbie Park

Amidst the melodious calls of bellbirds, the enthusiastic members of the Friends of Crosbie Park community recently came together for their highly anticipated second annual planting event in the first two days of August. Over these two days, they planted an impressive 160 native plants, enhancing an existing border along the Ilam Stream and adding to the park's allure for not only the local community but also the native wildlife. Council Park Ranger, Annaliese Caukwell-Mills, introduced an innovative touch - a large biodegradable planting mat - to promote sustainable growth.

A significant milestone was reached on Tuesday, 15 August, as the Friends of Crosbie Park were honoured at the Keep Christchurch Beautiful Awards. Partners received certificates of appreciation along with native plants, symbolising their unwavering commitment to preserving Christchurch's natural beauty.

Bound together by a shared vision of a greener world, the Friends of Crosbie Park embody community-driven environmental stewardship. Their story highlights unity, innovation, and unwavering dedication to preserving natural splendour.

### 3.1.4 Fendalton-Waimairi-Harewood Community Liaison Meeting

The Waimāero Fendalton-Waimairi-Harewood Community Liaison Meeting took place on Wednesday, 9 August, at the New Generation Church. It was attended by a diverse group of community representatives, including CCC Staff, Councillor James Gough, and representatives from various churches, community centres, preschools, and other organisations.

The group heard from Eduardo Mendonça, New Generation Church, who shared his journey from Brazil to New Zealand and discussed the church's merger and community-focused initiatives.

Council staff ran a dynamic "What Matters Most" session, sparking enthusiastic participation. Many had already embarked on this journey, infusing the room with a positive buzz. Overall, the discussion revolved around the significance of early engagement, the purpose of "What Matters Most," the role of the Long-Term Plan, and the community's involvement in influencing resource allocation and decision-making.

The timeline for the plan's adoption and the different tools for engagement, including the website version and quick poll, were also key points of focus. Advocacy efforts and the responsibility of the Council in matters beyond their immediate jurisdiction were addressed, along with the expectation that community input will shape the future pre-engagement phase.

Local Community Governance staff gave a brief update on the upcoming Mental Health Hui, scheduled for 25 September, and several community representatives shared upcoming events and initiatives.

## 3.2 Community Funding Summary

3.2.1 A status report on the Board's 2023-24 Discretionary Response Fund and Youth Development Fund as at 20 August 2023 is attached (refer to **Attachment A**).

### 3.2.2 2023/24 Strengthening Communities Fund

At its 7 August 2023 meeting the Waimāero Fendalton-Waimairi-Harewood Community Board made 64 grants to groups from its 2023/24 Strengthening Communities Fund.

The groups were notified of the outcome of their applications via email a few days after the meeting.

Some of the feedback received from the recipients who were granted funding include:

- "Thank you again for your continued support, it is much appreciated."

- “Can you please pass my gratitude (and our organisation's gratitude) to the Community Board members.”
- “The grant will be put to good use in the maintenance of an important community facility.”
- “We are very grateful for this funding, and for your confidence in our efforts to support and strengthen all ages within our local community.”
- “Funding support is essential to us being able to deliver excellent support programmes out into the community. Please pass our thanks to the Councillors, Community Board members and Council staff involved in approving this funding.”

### 3.3 Participation in and Contribution to Decision Making

#### 3.3.1 Report back on other Activities contributing to Community Board Plan

- The Waimāero Fendalton-Waimairi-Harewood 2023-25 Community Board Plan was adopted by the Board at their meeting in May 2023. Progress on the plan will be reported back to the Board on a quarterly basis.

#### 3.3.2 Council Engagement and Consultation

- A number of consultations have taken place since the previous Board meeting. Projects impacting on the Fendalton-Waimairi-Harewood area included:
  - Glandovey Road and Idris Road safety improvements (closed 5 September 2023)
  - Pūharakekenui Styx Stormwater Management Plan (closed 4 September 2023)
  - Draft Naming Policy (closed 27 August 2023)
