## **Karakia Tīmatanga**

The agenda was dealt with in the following order.

### **1. Apologies Ngā Whakapāha**

Apologies for absence were received from Ben Manson and for lateness from Tori Peden.

Jaleesa Panirau joined the meeting at 4.07pm during item 2.

Tori Peden joined the meeting at 4.21pm during item 2.

Amber Moke joined the meeting at 4.22 during item 2.

### **2. Banks Peninsula Zone Committee Priorities**

#### **Committee Information Session/Workshop Notes**

The Committee discussed priorities to include within a hand-over document to be considered by the new model, following the Zone Committee review. The Committee agreed the top priorities included:

- Water quantity.
  - Review of the science and the existing rules to make sure they are adequate and are fit for purpose going into the future.
- Hosting and/or supporting fundraising workshops to enable community groups to access funding.
- Sediment control.
  - Identify, support and develop sediment basins in places like Wairewa as identified in the ZIPA.
- Biodiversity on harbours and getting linkages through a biodiversity corridor.
  - Continue to support the fencing of waterways and springs, as these support corridors, shades waterways and prevents sediment getting into waterways.
- Water quality.
- Fish passage surveys.
  - Educate on fish passage in schools.
- Drinking water.
  - Run several workshops around drinking water and waterways going into the harbour and looking at how to slow down sediment.
- Community engagement.
  - Ensuring there is adequate engagement and community have a voice and are enabled to take action.
