Community Board Information Session/Workshop Notes

Council officers in attendance presented the proposed cycle route that links in with the Eastern Outer Orbital to other cycle routes and sought feedback from those present.

It was noted that:

- Pre-consultation/early engagement with the community is a priority due to the potential loss of on street parking.
- Postponing the high impact section of the route until a later stage to address it properly (potential use of parks land/resealing verges).
- There is a total budget of \$557,000.
