

**Information Session/Workshop - Waipuna Halswell-
Hornby-Riccarton Community Board
NOTES ATTACHMENTS**

Date: Thursday 28 August 2025
Time: 4 pm
Venue: Rārākau: Riccarton Centre,
199 Clarence Street, Christchurch

TABLE OF CONTENTS NGĀ IHIRANGI	PAGE
2. Amyes Road Street Renewal - Scheme Design and Early Engagement	
A. Presentation - Amyes Road Street Renewal.....	3
3. Waste policies - Free waste dumping, litter and illegal dumping	
A. Presentation - Waste policies - Free waste dumping, litter and illegal dumping	15
4. Community Parks Rolling Renewal Programme FY26-FY29	
A. Presentation - Community Parks Rolling Renewal Programme FY26-FY29	21
B. Presentation - Draft Community Board Rolling Renewal Programme.....	27

Amyes Road Street Renewal

Scheme Design Development
Information Session

28 August 2025

What's On Today:

- Project Overview
- Early Engagement Results
- Scheme Possibilities
- Next Steps

Project Objectives

- Renew and enhance transport assets in the corridor
- Enhance pedestrian access and safety
- Review carriageway width
- Implement design speed of 40-50km/hr and achieve Safe System speeds at key conflict points such as pedestrian crossings and intersections
- Incorporate appropriate cycle facilities
- Implement CCC tree policy

Engagement

Overall stats

Page views: 1,095

Survey responses: 118

Organisations

- South Hornby School
- Hope Presbyterian Church
- Hope Funerals
- Disabled Persons Assembly (DPA)
- Concerned Ratepayers Canterbury
- Spokes Canterbury

	#	%
Live on Amyes Road	33	28%
Work or have a business/organisation on Amyes Road	7	6%
Commute via Amyes Road	57	48%
Does not use Amyes Road	18	15%
Other (organisations)	3	3%

Sticking points

Cycle facilities

- Would like to see cycle infrastructure (27)
 - Safer for cyclists (general comment) (5)
 - Cycle lanes (10)
 - Separated cycleway (7)
 - Shared path (8) - *note 3 had said separated cycleway first preference*
- Don't want cycle infrastructure (31)
 - Main reasons suggested for not wanting cycle infrastructure was concerns about parking removal and concerns about conflict between vehicles and cyclists

Sticking points

Traffic calming/speed humps/slower speeds

- Would like to see traffic calming/raised infrastructure (14)
 - Out of the 14, 5 live on the street
- Would like the speed limit reduced (5)
 - Out of the 5, 1 also asked for traffic calming
- Don't want to see traffic calming/raised infrastructure (8)
 - Out of the 8, 2 live on the street

Trees/planting

- Would like to see trees/plantings (8)
 - Out of the 8, 1 lives on the street
- Don't want to see trees/plantings (10)
 - Out of the 10, 5 live on the street
 - *The main concerns raised about trees were space, visibility, and mess from leaves dropping*

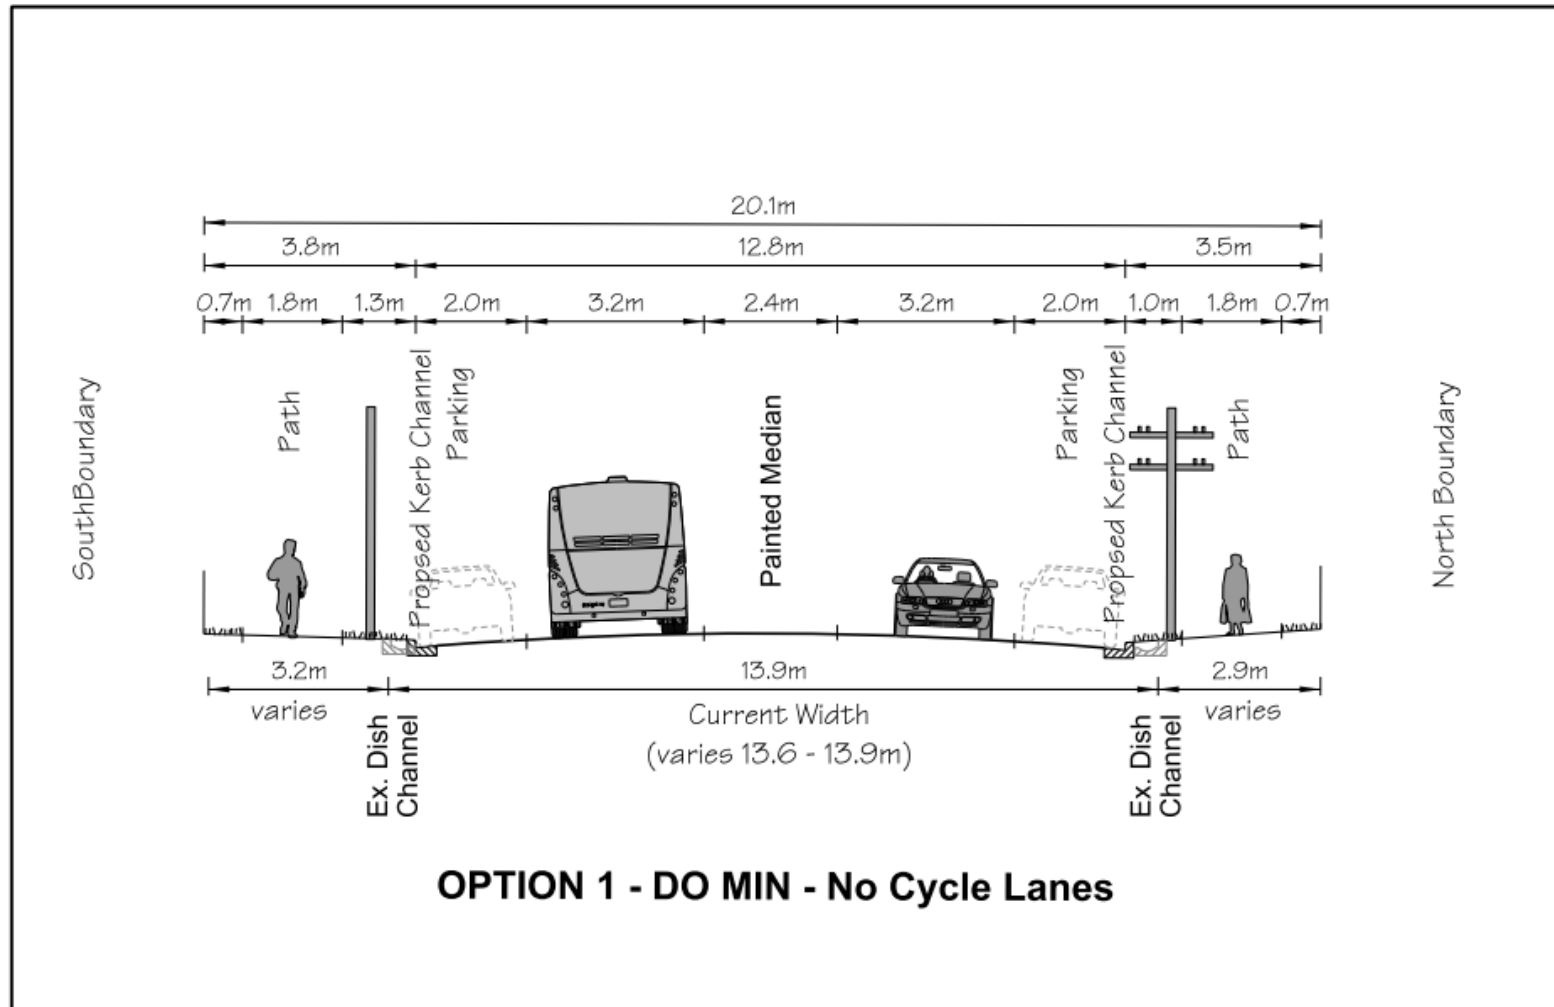

Key things respondents agreed on

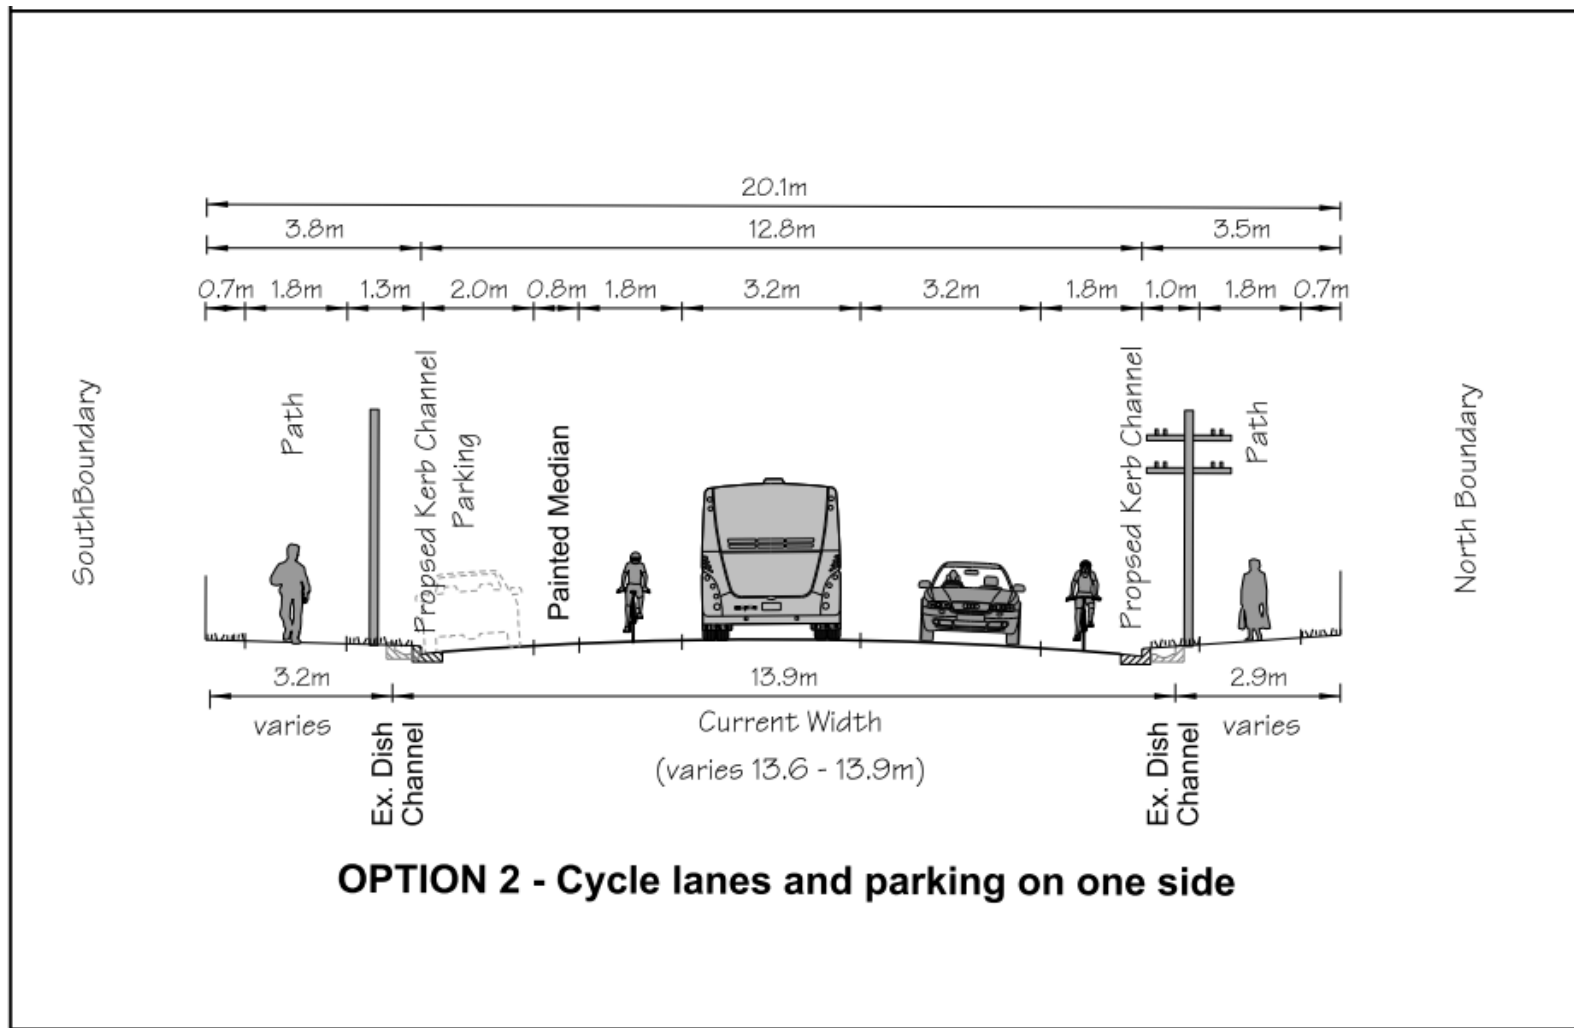

- Safer for South Hornby School children and families
 - Make the street safer for children/families (general comment) (11)
 - Add a better/permanent crossing at school (general comment) (13)A number of comments suggested a specific crossing type:
 - Signalised (10)
 - Zebra (7)
 - Raised (5)
- More pedestrian crossings are needed for the street (19)

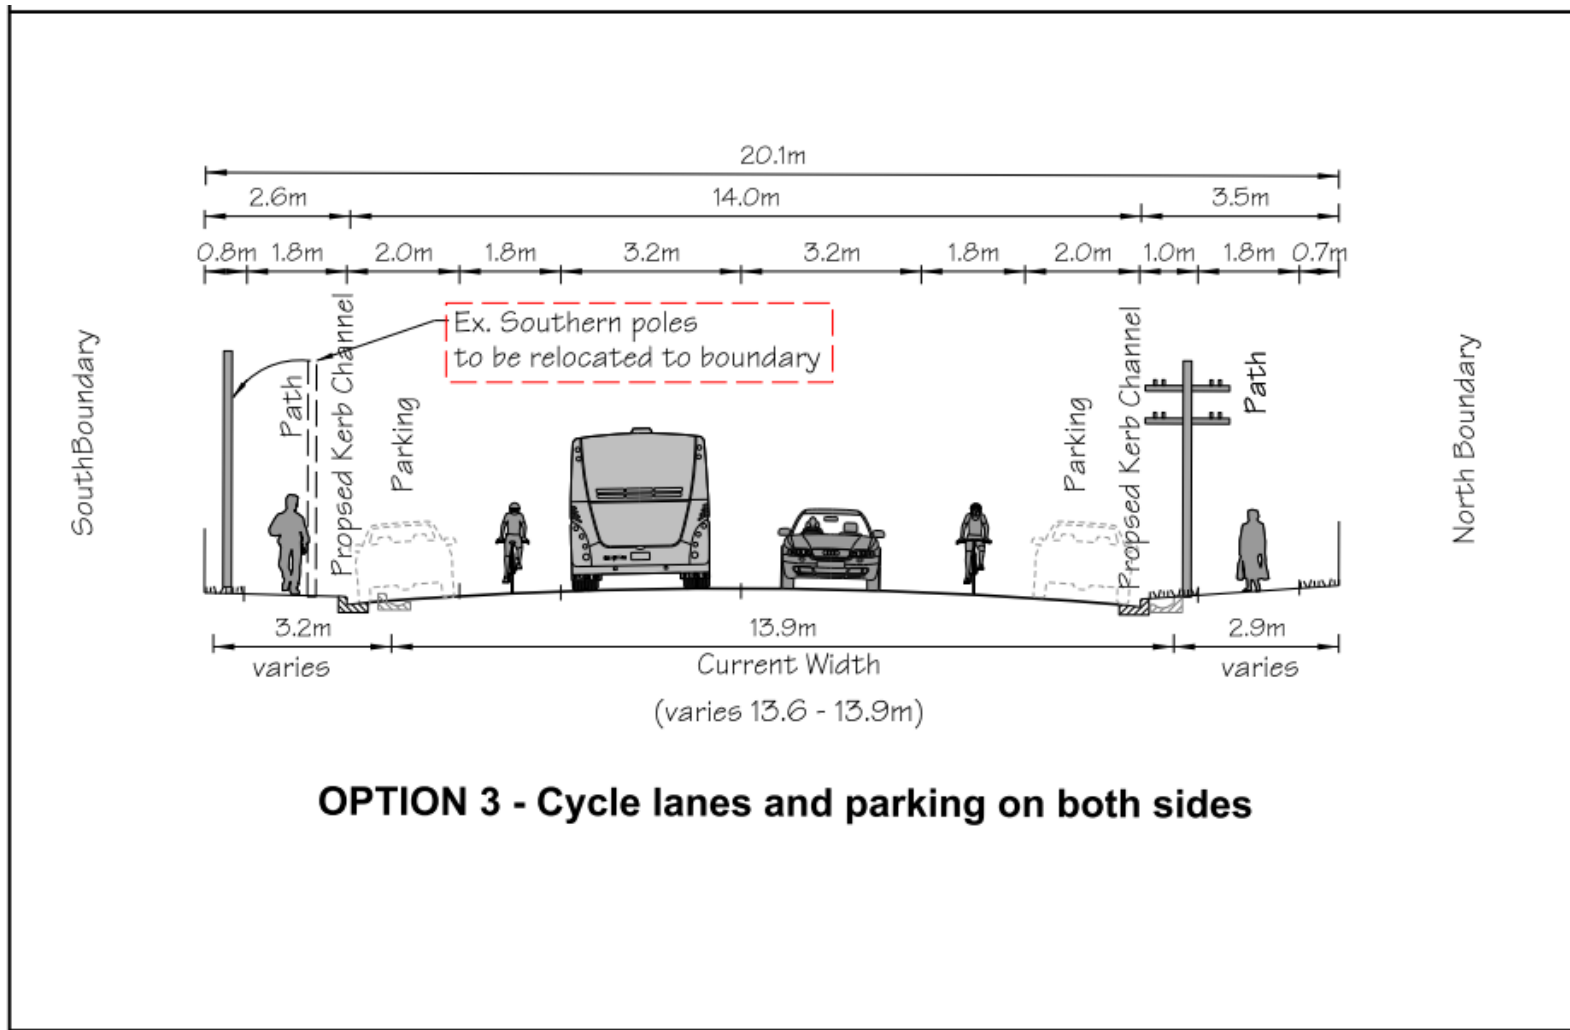

Other themes/requests

- Remove the deep-dish gutters (15)
 - Retain parking/ don't remove parking (15)
 - *Remove parking (general comment) (2)*
 - Powerlines underground (14)
 - Improve the street lighting (12)
 - Widen/upgrade footpath (10)
 - Improve drainage (some specific areas) (10)
 - Restrict truck access / encourage trucks to use other routes (8)
 - Reseal road / rebuild road / fix vibrations from road surface (8)
 - Bus shelters / bus stop upgrades (8)
 - Add no stopping restrictions (various locations) (7)
-

OPTION 3 - Cycle lanes and parking on both sides

Policy Review Info Session

Waipuna Halswell-Hornby-Riccarton

28 August 2025

- Free waste dumping
- Litter and illegal dumping

What are the issues you currently experience when dealing with waste issues?

How does your board currently engage with the wider network to deal with litter and illegal dumping?

Would you like to have more control over which groups in your community are funded to deal with litter and illegal dumping?

Is there anything else we should know about litter and illegal dumping in your board area?

Questions?

Community Parks Rolling Renewal

Presenter:

Bridie Gibbings, Manager Operations – Community
Parks Development

What is the rolling renewal program

- Renewal funding is capital expenditure used to replace or refurbish assets and maintain existing levels of service.
- It **does not cover asset upgrades**, routine maintenance, or new developments.
- Budgets are set through the Long-Term Plan (LTP) process.
- Funding is generally allocated by asset type within different park categories, for example:
 - Regional Parks Planned Building Renewals
 - Community Parks Buildings, Green Asset Renewals

8/28/2025

How do we determine what is renewed

- Staff monitor asset condition and performance, prioritising renewals based on life expectancy, condition, and replacement costs.
- Assets are typically renewed at the end of their useful life.
- Renewal programmes are split into specific projects or three-year delivery packages, reviewed annually to reflect changing priorities. The **first year is fixed** due to committed work, while years two and three allow some flexibility to swap projects, though new items cannot be added within the existing budget.

8/28/2025

How do we determine what is renewed

The following factors guide the prioritisation of the renewal programmes:

- **Asset condition:** Priority is given to assets in the worst condition (rated 4 or 5).
- **Safety:** Assets that present safety risks are addressed first.
- **Community Use and Demand:** Frequency and type of use are considered.
- **Asset Criticality:** The asset's importance to park operations and the broader park network.
- **Cost of Renewal:** Feasibility and funding availability.
- **Project Alignment:** Coordination with other planned projects may impact the timing.
- **Asset Age:** Lifecycle stage and remaining useful life.
- **Legal Requirements:** Compliance with relevant regulations.

8/28/2025

Example A – Green Asset Renewal

- Before – Bare patches in garden, weeds and dead plants
- After – Infill planting to bulk up garden bed, fresh soil and garden mulch

Example B – Playground Renewal

- Before – Old play equipment, showing signs of rust with limited accessibility and play elements
- After – New accessible equipment that meets modern safety standards
