CHRISTCHURCH METHODIST MISSION

The Retirement Commission estimates that by 2048, 40% of those aged over 65 will be renters.

A significant proportion of these people will be relying on NZ Super to pay rent.

VACCINATION DRIVE - JULY 2025

Protecting Christchurch's dogs against parvovirus

In partnership with Kowhai Vet & Avonside Wainoni Vet Clinic

Supported by CCC Animal Management

300 dogs vaccinated

Microchipping, flea & worm treatment, dog food available

HOW DO WE SUPPORT CCC AND CHRISTCHURCH?

- Intake dogs from CCC Animal Shelter
- Reduce pressure on CCC Animal Services
- Take in complex cases
- All Dogwatch dogs adopted are desexed & vaccinated
- Promote responsible dog ownership

Safer Dogs

**Safer
People**

**Stronger
Communities**

PRACTICAL SUGGESTIONS

1. **Waive registration fees** for dogs under the care of Christchurch animal rescues
2. **Include desexing** in all CCC Animal Shelter adoptions
3. **Offer subsidised desexing vouchers** to owners reclaiming their dogs from the CCC shelter

OUTCOMES

For Christchurch City Council	→	Fewer impounds, reduced dog overpopulation, lower costs
For animal rescues	→	Fair recognition of our role, collaboratively improving dog overpopulation
For the community	→	Fewer litters, less roaming dogs, safer streets & communities

Where Is The Justification For The CCC Spending Millions On Climate Change Mitigation, Thereby Increasing The Cost Of Living?

Ian McIntosh (B.App.Sci.Rur.Tech. (Hons))

It comes from the “Christchurch
Climate Resilience Strategy”
which says that “Climate change
is the biggest challenge of our
time.”

[Otautahi-Christchurch-Climate-Resilience-Strategy.pdf](#)

And it believes “It is already affecting our weather, health & wellbeing, natural environment, food production, biosecurity, infrastructure, & the economy.”

As Recently Declared By The CCC, “Human activities have been the main driver of climate change, primarily due to the burning of fossil fuels like coal, oil and gas.”

[Decision made | Coastal Hazards Draft Adaptation Plan |](#)
[Kōrero mai | Let's talk](#)

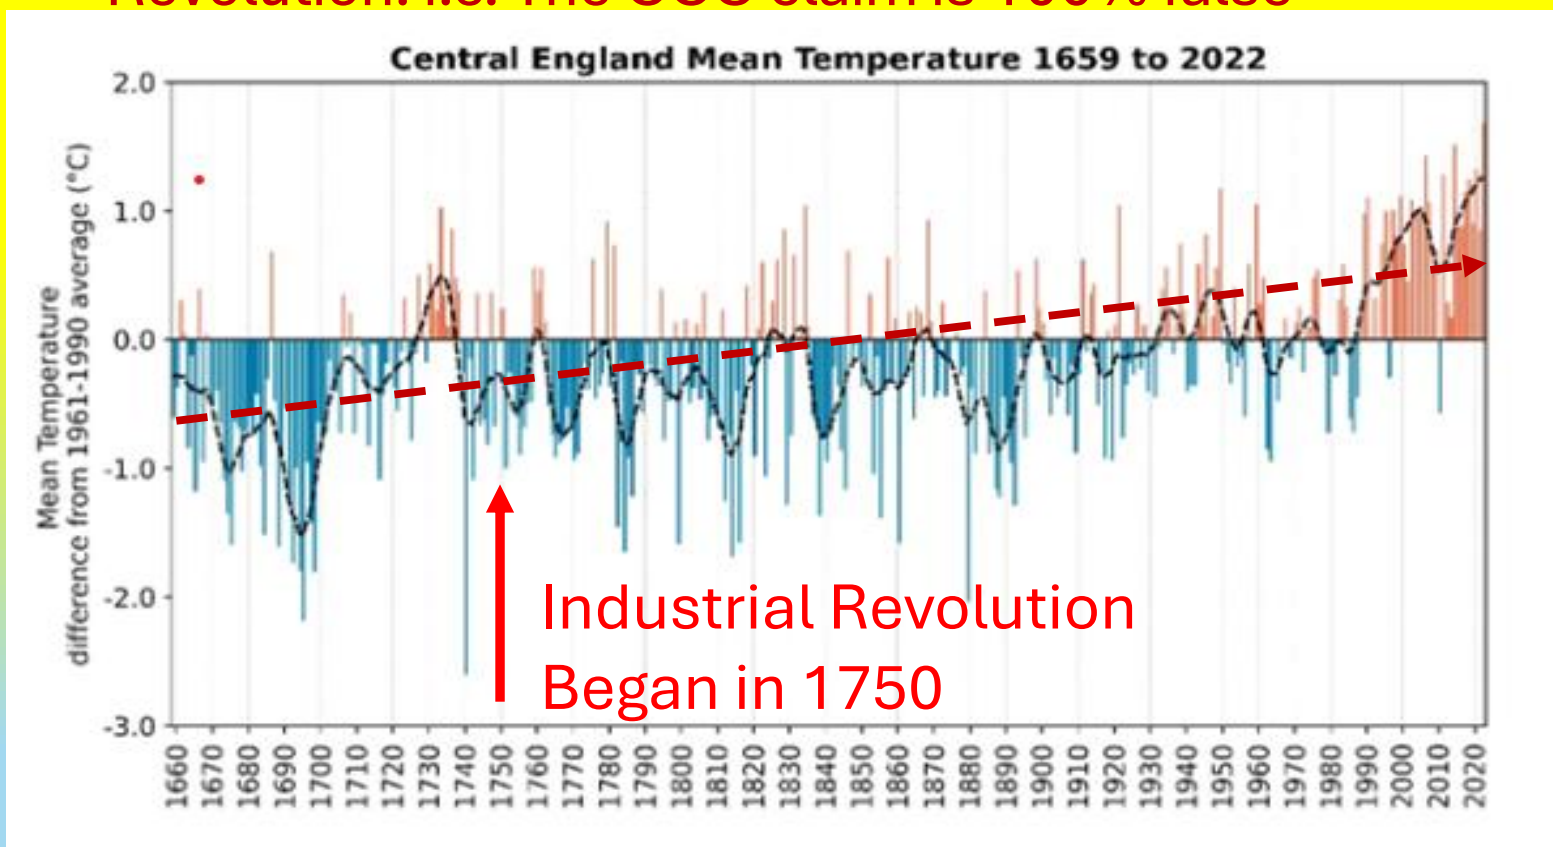

Council decision meeting - Coastal Hazards Adaptation Plan for Lyttelton Harbour and Port Levy

Climate change

Climate change refers to long-term shifts in temperatures and weather patterns. Human activities have been the main driver of climate change, primarily due to the burning of fossil fuels like coal, oil and gas.

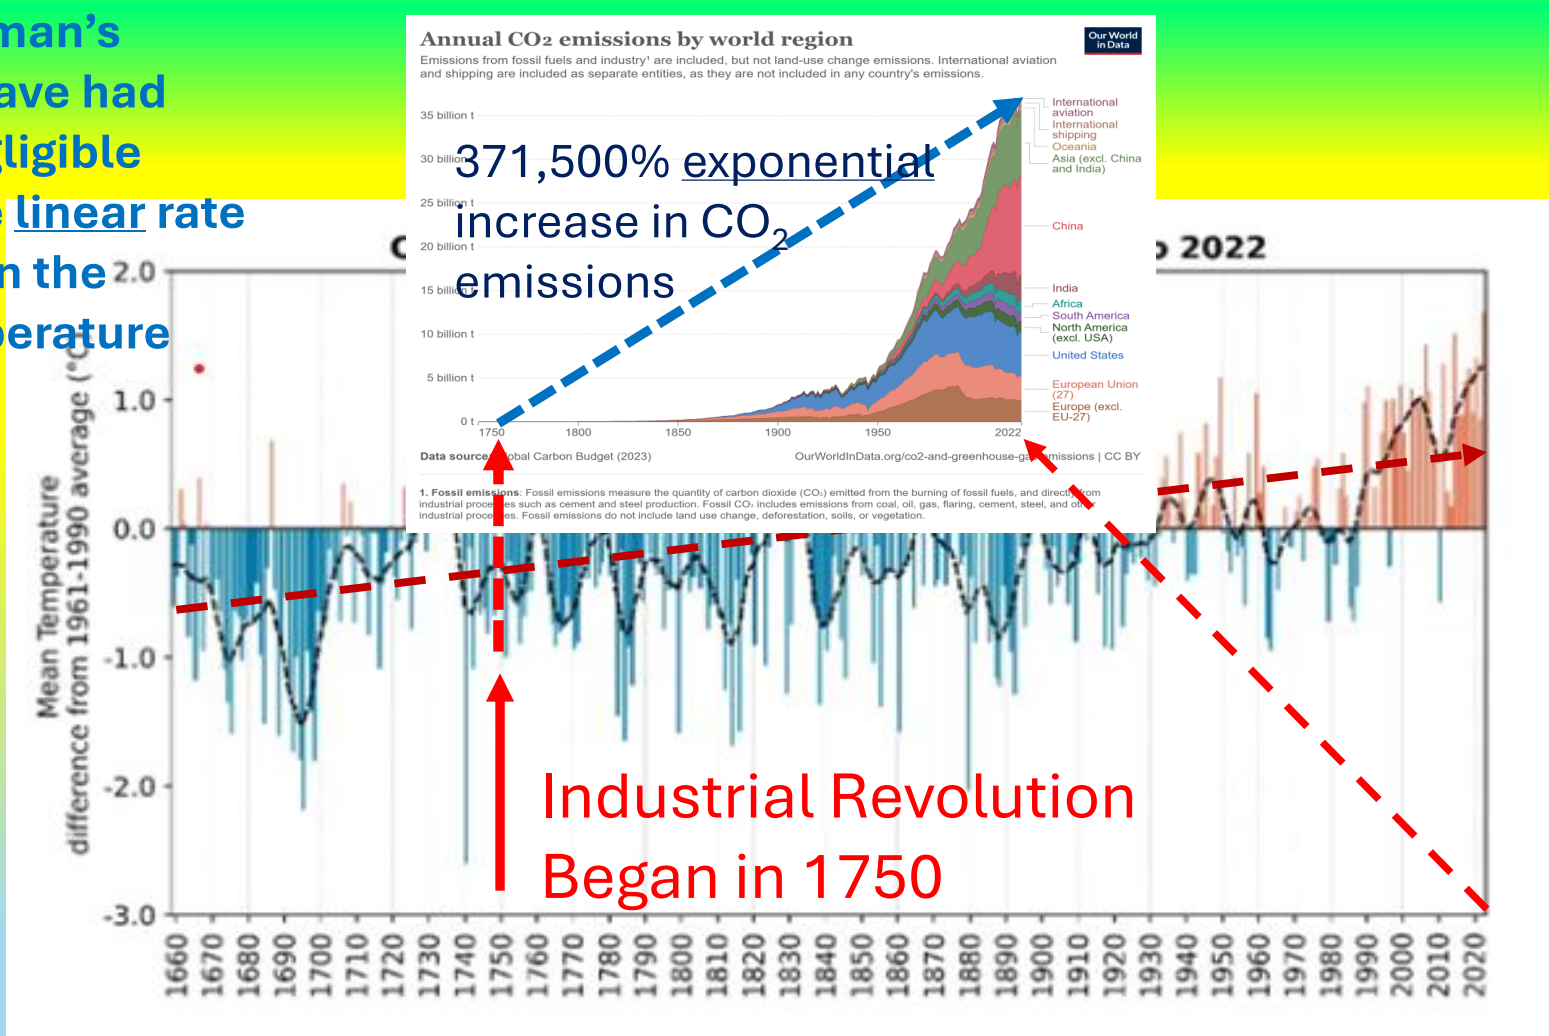

- ☒ United Nations
- ☒ Why am I seeing this?

Obvioulsy Those Who Advise The CCC Are Not Aware That There Has Been A Slow Linear Increase In Temperature From Before The Industrial Revolution. i.e. The CCC claim is 100% false

<https://www.metoffice.gov.uk/research/climate/maps-and-data/cet-series>

To be clear, man's emissions have had zero or a negligible effect on the linear rate of increase in the earth's temperature

<https://www.metoffice.gov.uk/research/climate/maps-and-data/cet-series>

Prof Steven Koonin, past Under-Secretary in the Dept of Energy during the Obama presidency, quotes the IPCC's 5th Assessment (2013)

Now a professor at New York University and
a fellow at the Hoover Institution,

<https://www.youtube.com/watch?v=I90FpjPGLBE>

IPCC says that
:hurricanes and tornados
show no changes attributable
to human influences.

: we don't know if floods
globally are getting better,
worse or doing nothing at all.

The 6th Assessment (2021)
doesn't change anything that
is in the 5th Assessment.

The IPCC Says That At Most, Man Has Caused A 1% Warming Effect

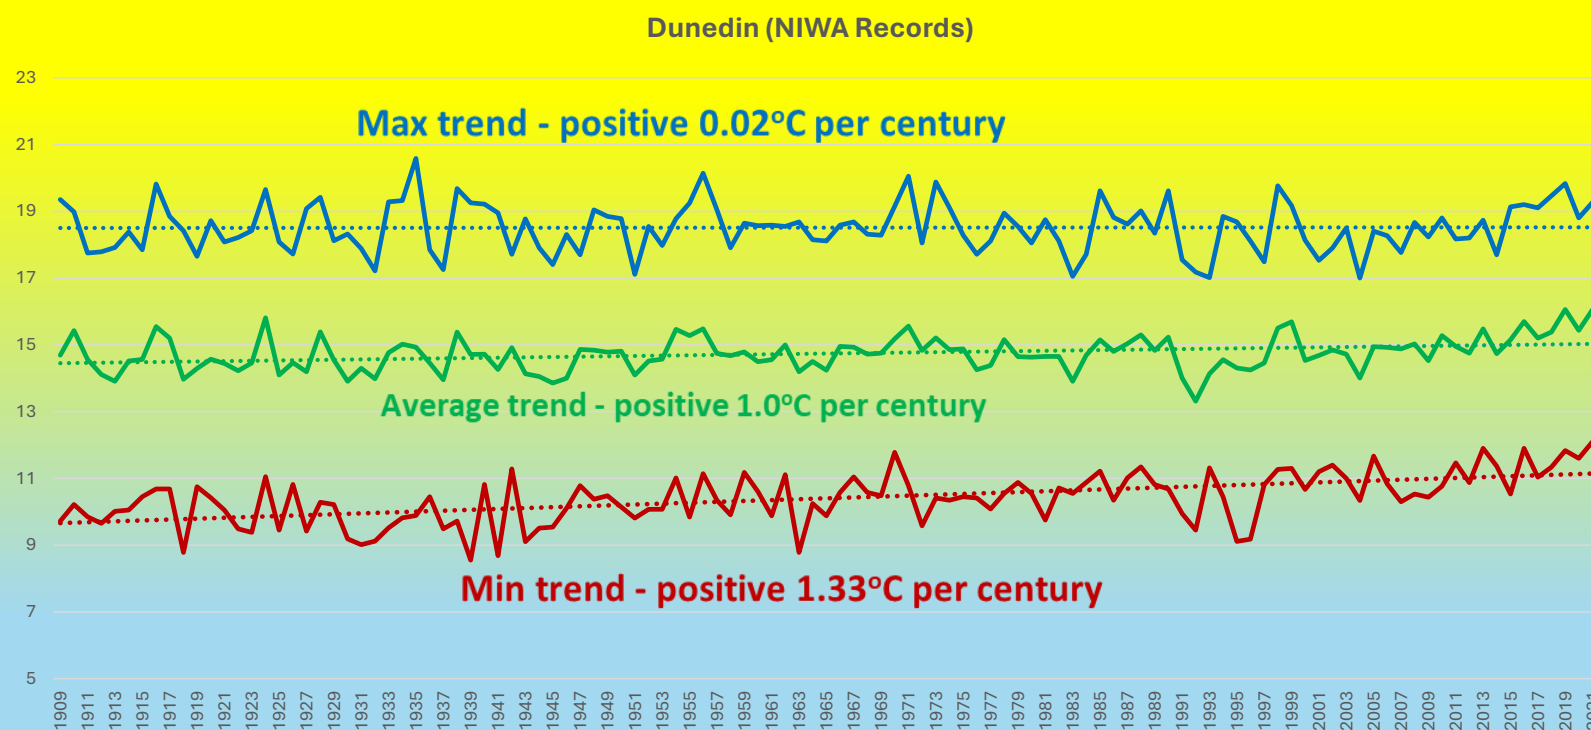

[Hot or Not: Steven Koonin Questions Conventional Climate Science and Methodology| Uncommon Knowledge - YouTube](#)

So Why Is The CCC Taxing Its Citizens To Reduce Emissions?

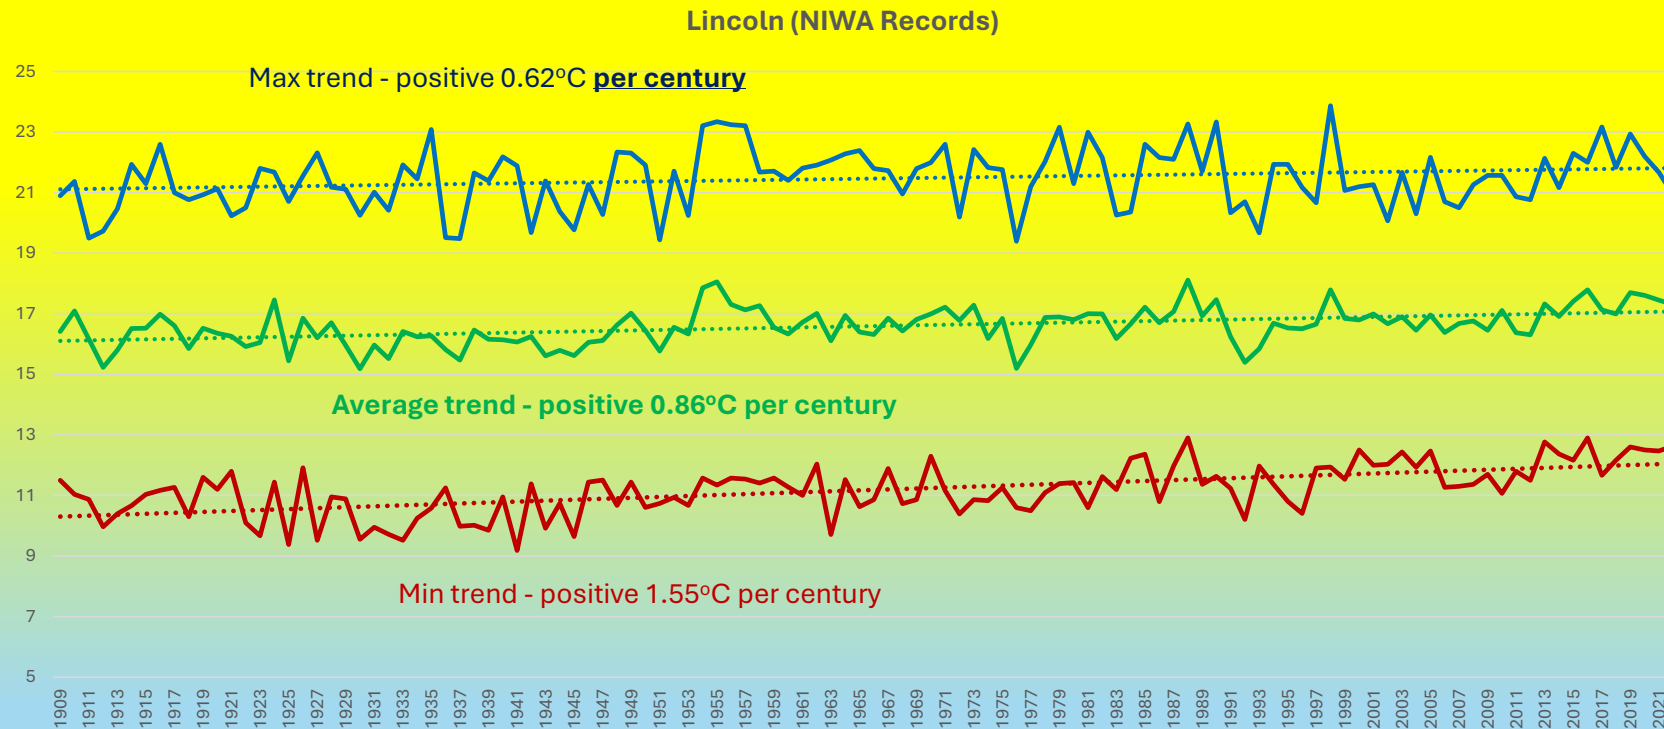

It is because the CCC follow an entrenched ideology rather than thinking for themselves.

How do we know that?

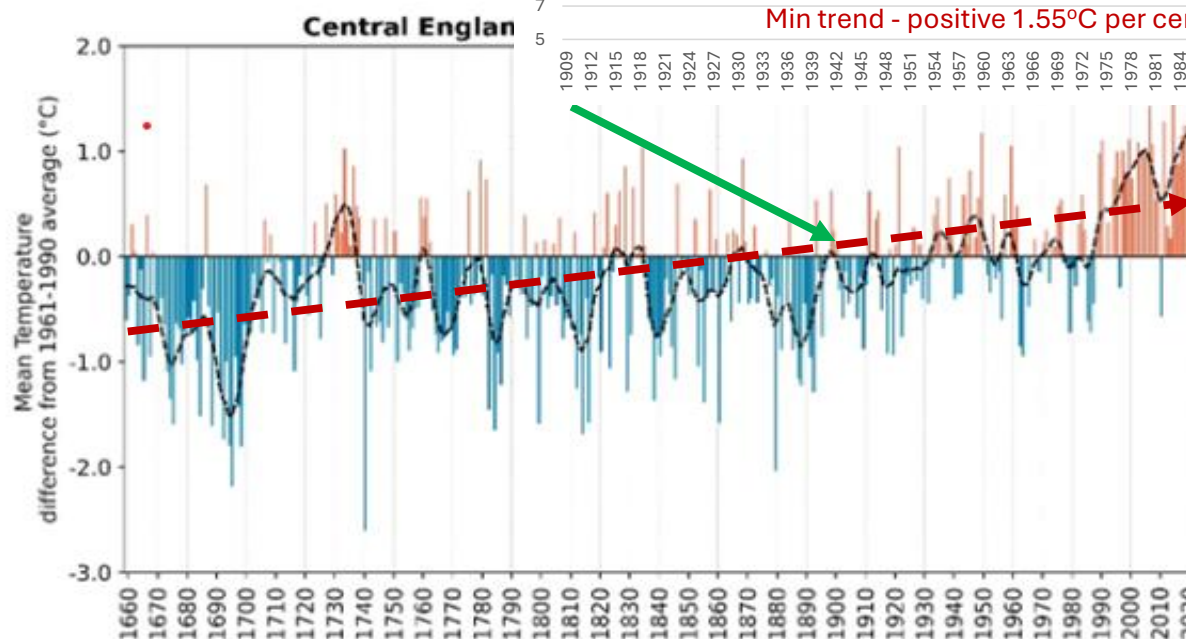

NIWA's Temperature Figures From Dunedin (NZ) Over 113 Yrs Don't Show A Correlation With Increasing Emissions. i.e. A linear increase in temperature is not correlated to an exponential increase in emissions

And The Same For Lincoln (NZ)

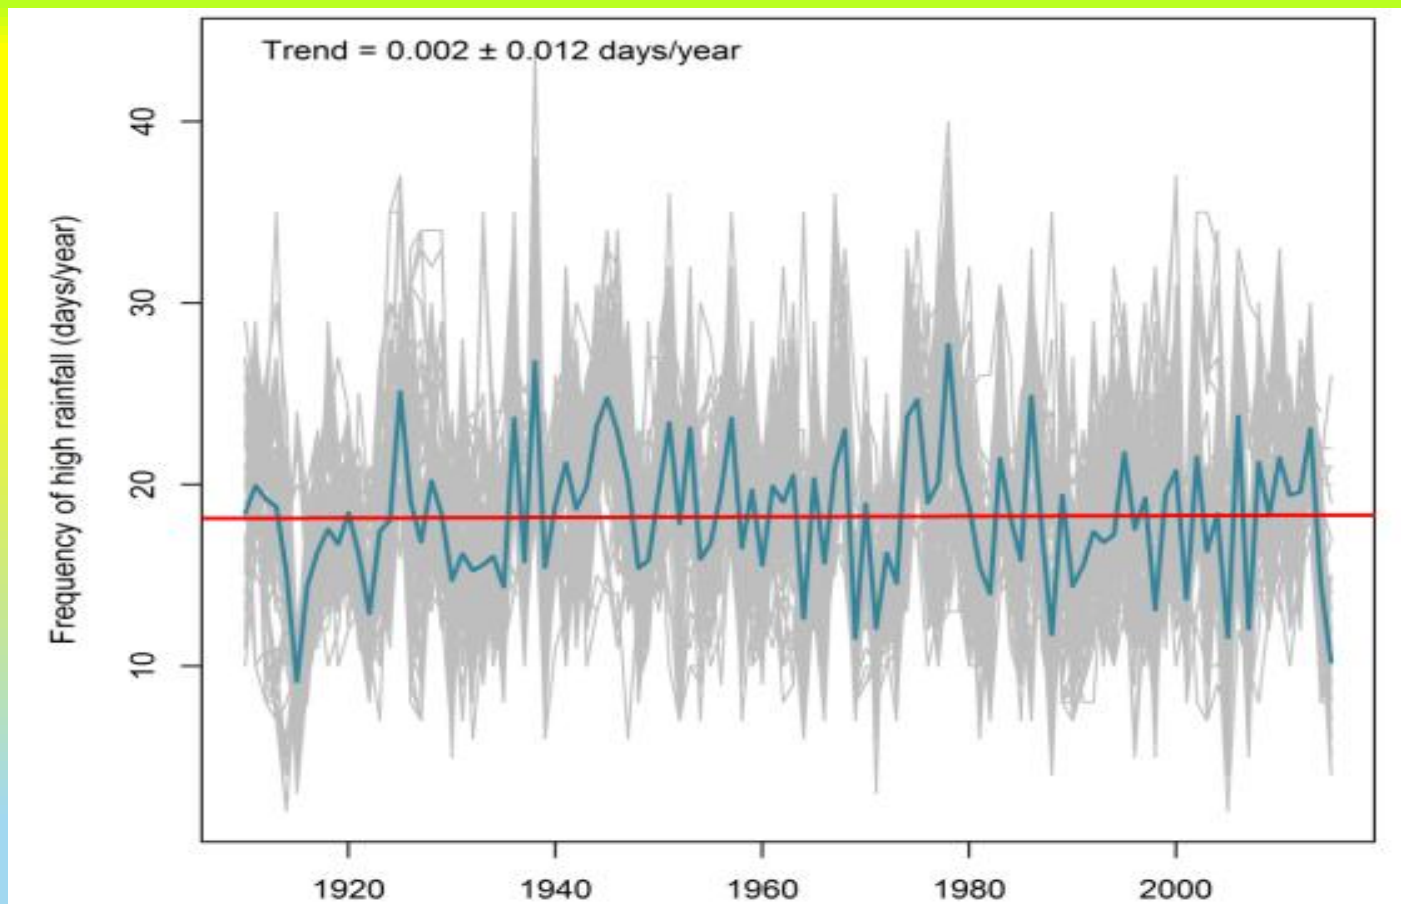

Linear Upward Trends In NZ Data Agree With That Of The World's Oldest Temperature Records

But Droughts, Floods or Extremes In Rainfall Are Not Increasing In NZ

There is no worsening trend to flooding or droughts?

**Sadly The CCC Has Committed
To Spending Millions-Billions To
Achieve Nothing Except Reduce
The Living Standards Of The
People It Is Supposed To Serve**

History shows us what happens to cultures that reject the instruction to “Seek justice, encourage the oppressed, defend the cause of the fatherless, and plead the cause of the widow.”

In case you don't know, this comes from the foundational document that underpins the success of Western civilisation, the Bible.

Conclusion

The Councillors Of The CCC Need To Do Some Basic Analyses Themselves Rather Than Assume They Are Being Told The Truth.

This Document Is A Brief Taste Of The Overwhelming Data Opposing The Man Made Climate Change Agenda To Induce Fear & Thereby Bring Control.

Thank you.

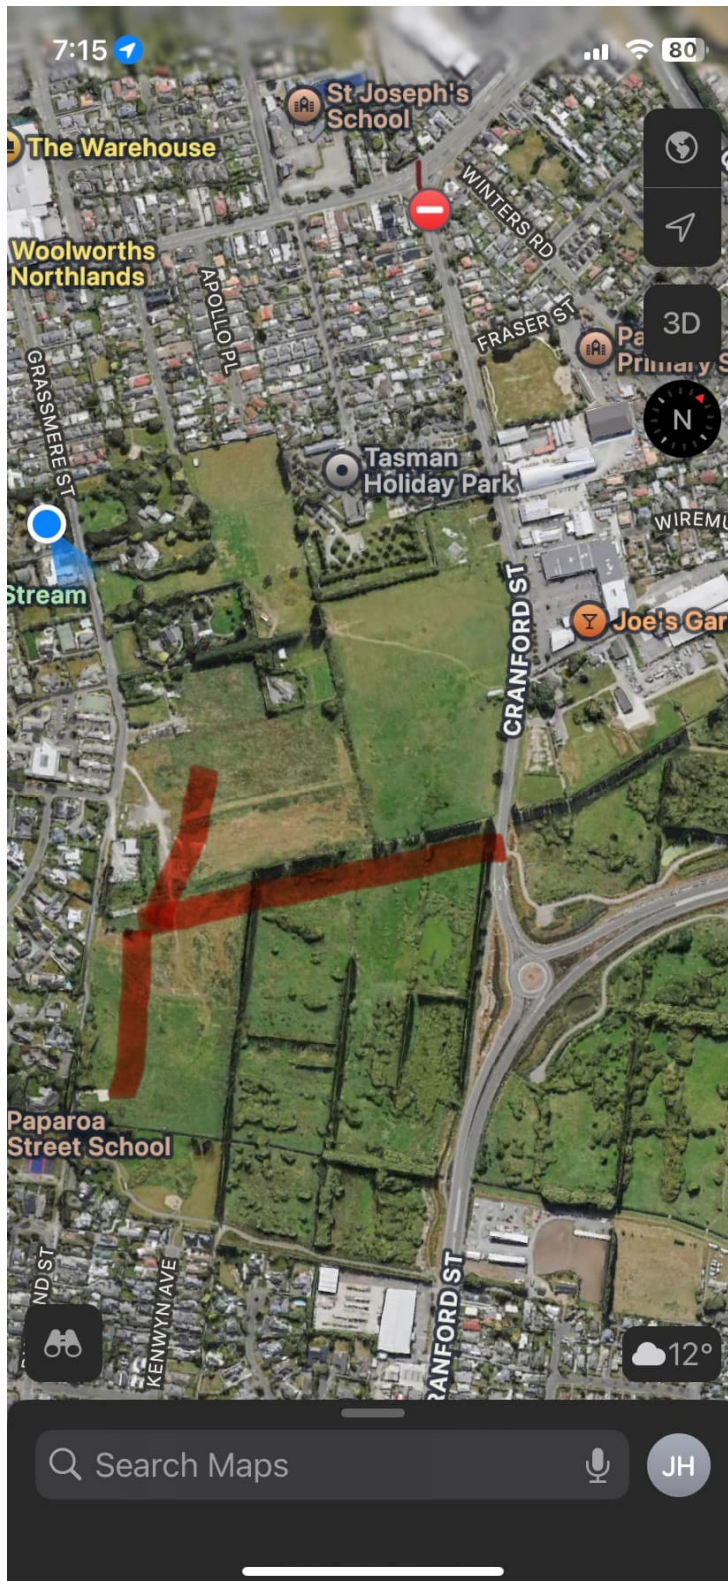

Petition to Christchurch City Council

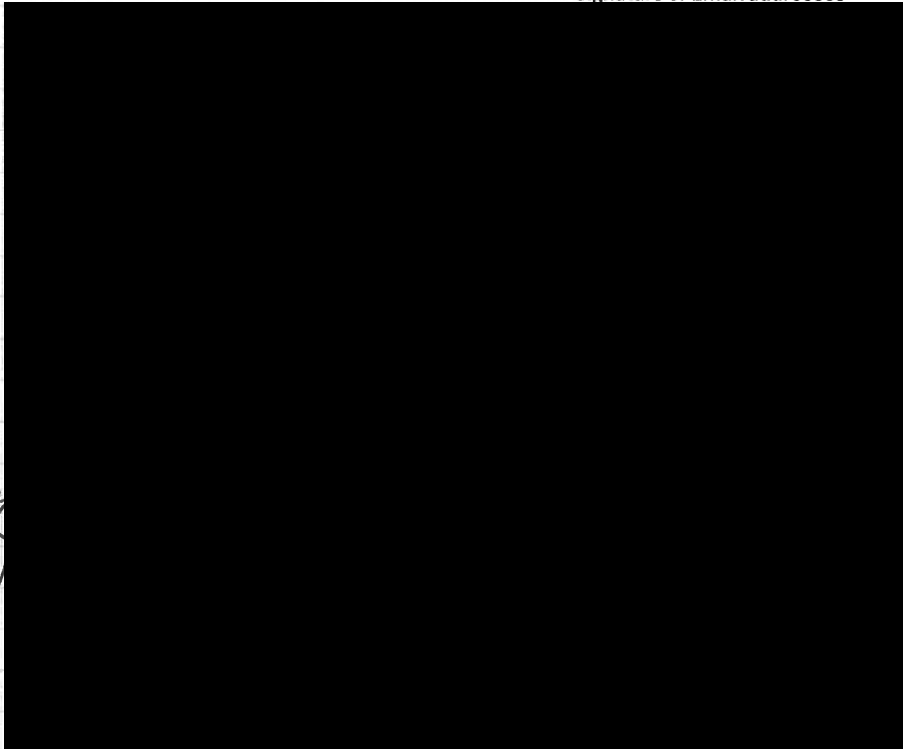

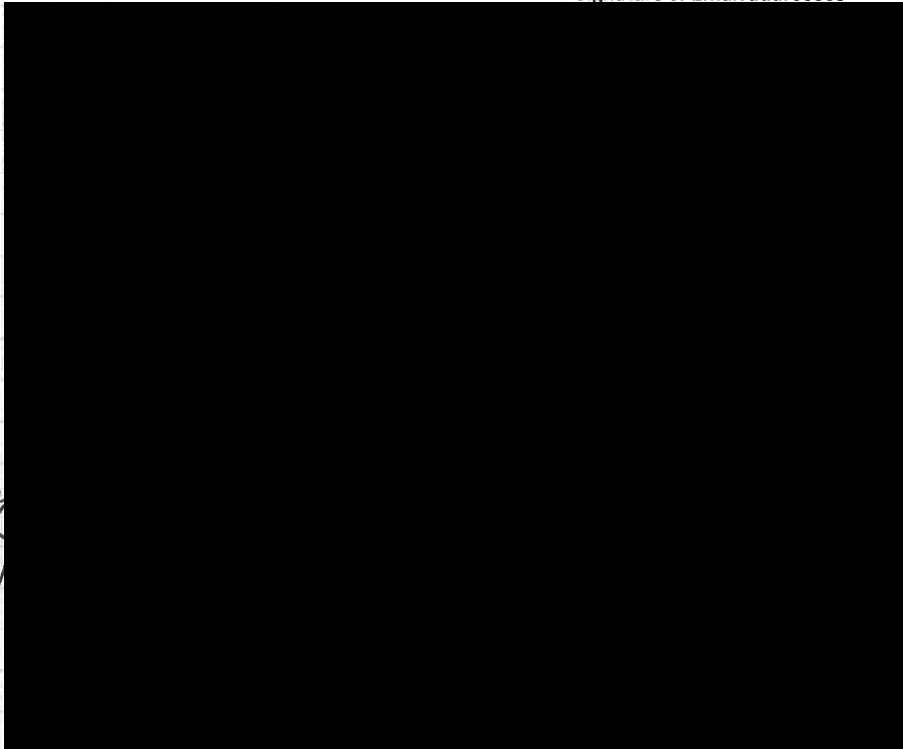

Petition name (title): Grassmere Street Development

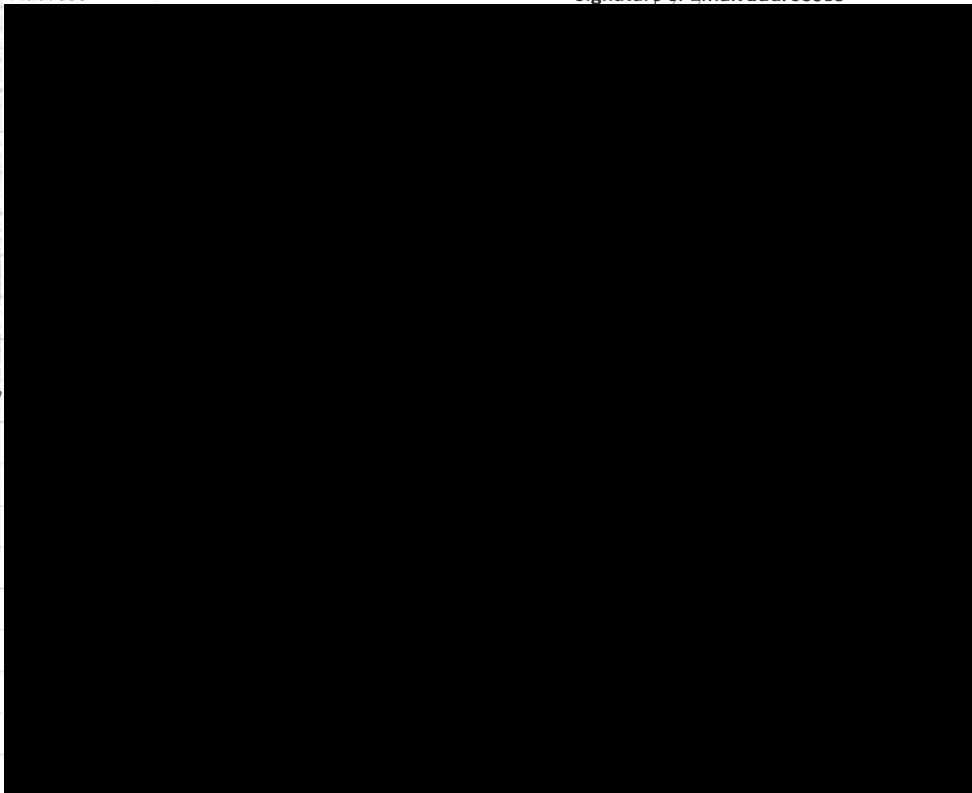

Purpose (250 words or less, in either English or te reo Māori):
The following people/residence are 'OPPOSED' of the use of Grassmere Street as the access point for the new development. We would prefer all development traffic to use an access route off Cranford Street, through the council land.

To ensure your petition meets our Council's Standing Orders it must include the following details for each person who signs the petition:
