Timing	This information session is expected to last for 30 minutes.
Purpose / Origin of the Information Session	To provide details and estimated costs for a Do Minimum Option for the installation of traffic signals at the Intersections of Amyes Road and Awatea Road with Springs Road.
Background	<p>On 29/08/2024, Council staff were invited to the Waipuna Halswell-Hornby-Riccarton Community Board Information Session for a project briefing on the issues and options around the Amyes Road, Awatea Road and Springs Road Intersections.</p> <p>The Community Board requested staff develop further scheming of Options 1 and 3 and associated costings for the Board to be better informed to advocate for funding for either of these options through the Annual Plan process.</p> <p>On 27/02/2025, Council Staff provided a briefing to the Community Board setting out the estimated costs for Options 1 & 3. Additional Options 1a, 1b and 3a, 3b with estimates were also provided as these demonstrated improved safety measures as suggested through the Safety Audit process.</p> <p>At the Community Board Information Session on the 27/02/2025 it was agreed that staff would undertake engagement with the community to clearly identify the issues the local community experience at these intersections and surrounding area and report back.</p> <p>Community engagement highlighted that the community considered safety to be a major issue with right turns being seen as very dangerous, need for better pedestrian and cycle safety, also need to ease congestion.</p> <p>Engagement results presented to the Community Board in June 2025 with suggested options for further investigation including banning right turns, installing roundabouts or a Do Minimum option for signalised intersections.</p> <p>Community Board requested a Do Minimum option be investigated for signals at both intersections. Staff have redesigned and completed revised safety audit and cost estimates to be presented and discussed at the Community Board Information Session in February 2026.</p>
Key Issues	<ul style="list-style-type: none"> • Insufficient budget to implement any of the options schemed to date. • NZTA funding not available. • Community engagement has clearly indicated they consider there to be safety issues for all road users with the current operation of these intersections.
Next Steps	<ul style="list-style-type: none"> • Brief the Community Board on the Do Minimum option

1. Detail Te Whakamahuki

Timing	This information session is expected to last for 40 minutes.
Purpose / Origin of the Information Session	<p>Staff-initiated information session to brief Community Board members on:</p> <ul style="list-style-type: none"> • bylaws generally and how community boards contribute to bylaw processes • the Council’s bylaw review schedule for the current local government term • the review of the Alcohol Restrictions in Public Places Bylaw 2018.
Background	<ul style="list-style-type: none"> • The Local Government Act 2002 and other legislation give councils the power to make bylaws governing specific activities in their districts. • Councils must review bylaws at least once every 10 years (or within five years for new bylaws). The Council has a ten-year timetable that coordinates the reviews to ensure statutory review requirements can be met. • Our Council has 16 bylaws. The following 11 must be reviewed this term: <ul style="list-style-type: none"> ○ Alcohol Restrictions in Public Places Bylaw 2018 ○ Stormwater and Land Drainage Bylaw 2022 ○ Water Supply and Wastewater Bylaw 2022 ○ Trade Waste Bylaw 2025 ○ Marine, River and Lake Facilities Bylaw 2017 ○ Traffic and Parking Bylaw 2017 ○ Stock on Roads Bylaw 2017 ○ General Bylaw 2008 ○ Brothels (Location and Commercial Sexual Services Signage) Bylaw 2013 ○ Public Places Bylaw 2018 ○ Cemeteries Bylaw 2013 and handbook • Bylaws can be amended at any time outside of the review process. However, additional bylaws work such as amendments or the development of new bylaws may be unlikely this term due to the significant workload prompted by statutory review requirements and legislative changes. • New legislation for the Local Water Done Well reforms requires that all water services bylaws are reviewed by August 2027 to ensure they are consistent with the new Act (significantly adding to the review timetable for this term). • Community boards contribute to the making and reviewing of bylaws by providing local views to the Council through engagement and consultation.
Key Issues	<ul style="list-style-type: none"> • Bylaw reviews must follow a statutory process. • Additional criteria also apply to bylaws for alcohol control purposes.

	<ul style="list-style-type: none"> The review of our alcohol control bylaw – the Alcohol Restrictions in Public Places Bylaw 2018 – is underway. The Board will be briefed on the review of this bylaw and will have an opportunity to provide feedback for staff.
Next Steps	<ul style="list-style-type: none"> Staff will progress these bylaw reviews and take recommendations to the Policy and Planning Committee. If the Committee is satisfied with the review and proposed changes, a public consultation process will follow. Community Boards will have an opportunity to make submissions when consultation on these bylaws is undertaken. A hearings panel will consider all submissions and make recommendations to the Council on the final form of the bylaw.

What are bylaws?

- Local laws made by a council, apply only in the district

 - most appropriate way to address the perceived problem?
 - is the bylaw in the most appropriate form?
 - New Zealand Bill of Rights Act 1990 implications?

Bylaw review process

- Legislative review cycle
- 10-year review timetable
- Review process is the same as making a new bylaw
- 12-18 month process

- Review bylaw clauses
