2019-20 - Our first season working out of our new Club facilities

Opening Day, 13th September - Part of the fleet of 24 yachts in our Opening Day race

New Rescue Boat and yacht storage shed underway - this completes our rebuild from the earthquakes

October school holiday **Junior Learn to Sail** programme planned, along with an **Adult Learn to Sail** programme

PPYC will host the **Burnsco 2021 Sunburst National Championships** between the 8th and 11th of January

That was then ... PPYC fleet sailing in 1929

This is now **PPYC will Celebrate our Centennial year over Waitangi Weekend 2021**

The Club is concerned about the on-going erosion of the South New Brighton Park shoreline

The rake pushed under the over hanging Ice plant

The location relative to the Club's new buildings

The construction of our new ramp included Gabion baskets either side to protect the shoreline from erosion

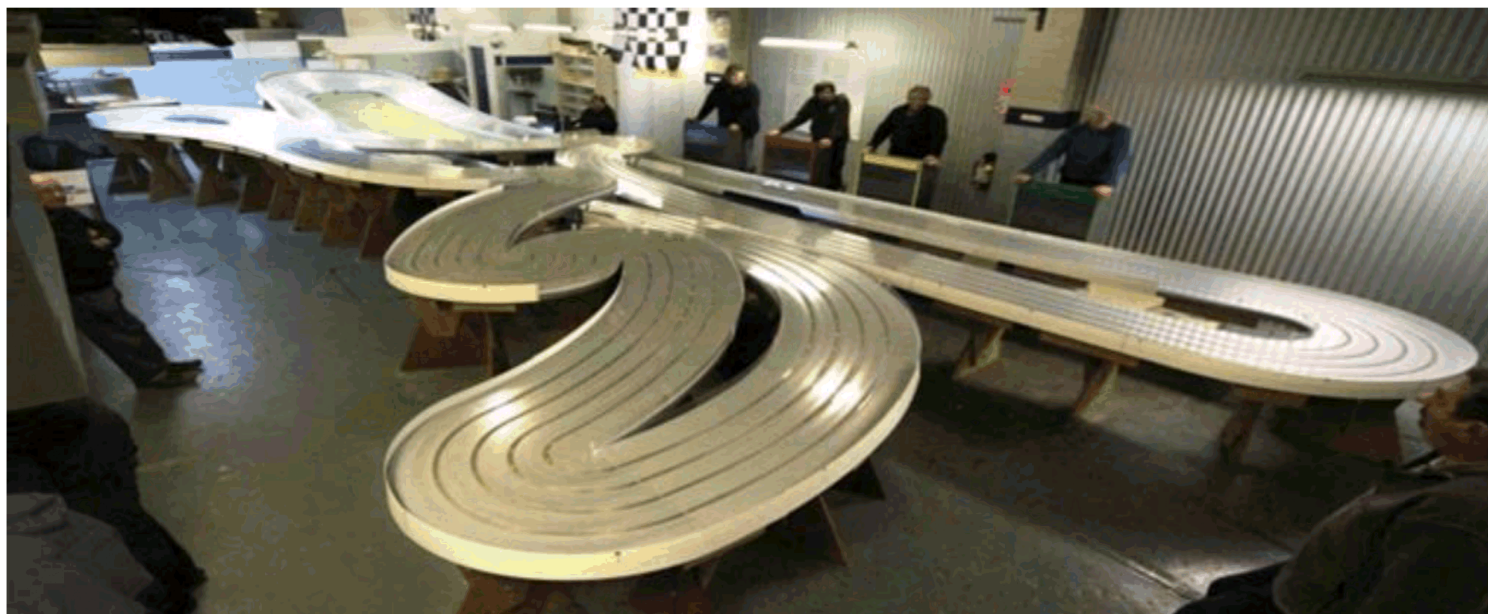

But further on, the lack of shoreline protect has meant the South New Brighton Park is being lost to the sea

The lack of shoreline protection has meant that the trees that once provided shade along the path have been cut down

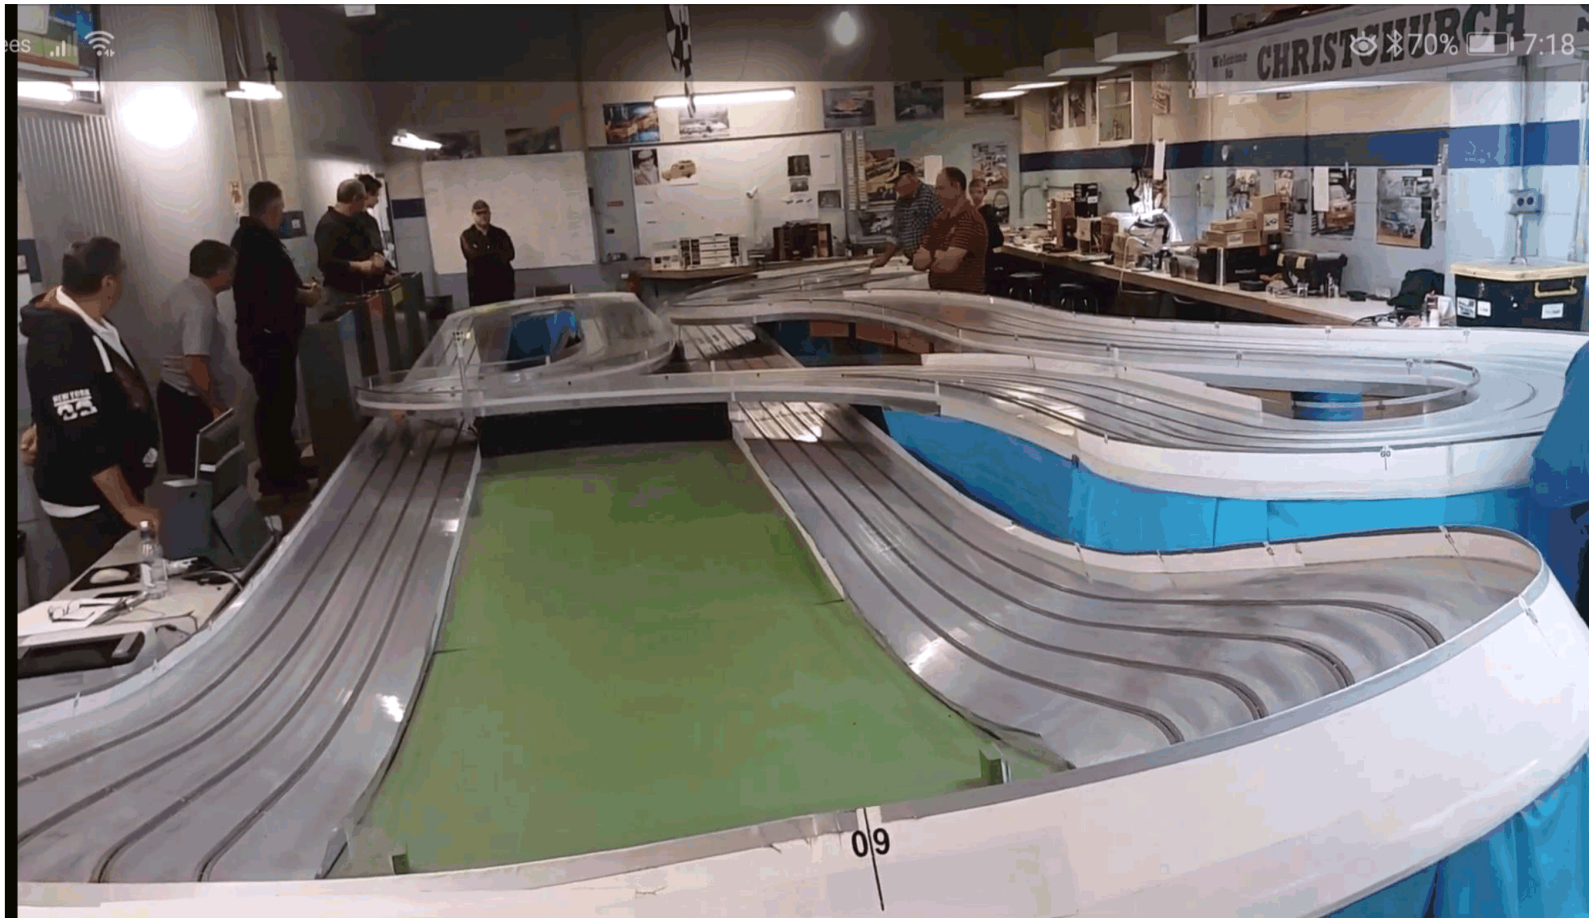

The Christchurch Slot Car Raceway Incorporated

Back Ground Information

- The Christchurch Slot Car Raceway Incorporated has been in operation for over twenty years
- We cater to male and female youth and adults
- We host the likes of youth groups and social clubs
- Members are from all walks of life and professions
- Slot car racing is an internationally recognised sport
- Our members compete at New Zealand events
- Since we have lost the likes of toilet facilities/power we have not been able to run national events
- Our current building is going to be demolished

Fathers and Sons Competing Against Each Other

Our Current Building at the Sockburn Service Centre

- This building leaks, doesn't have running water or toilet facilities, power is by generator only and extremely expensive to operate

The Scout Hall at Halberg Reserve

Our Proposal

- To safeguard the future of the slot car club, we need to take a long term lease on the land the scout hall is situated on
- We are aware that the Dallington area has been severely hit due to the quakes
- Although low key, we can bring something inclusive back to the community
- We have received great feedback from the neighbours we have spoken to
- We intend to hold an opening day and invite the local community and build a relationship with the Dallington Community Trust

The Clubs Future

- Members have been looking for an alternative site for the club for a number of years without success - we can not afford commercial rents
- The scout hall is the only suitable option we have found in all the time we have been looking
- Our current building is to be demolished
- There is a very risk our club will not survive if we are unable to secure a lease on the scout hall site
- Chiefly due to the conditions we currently operate under, it is impossible attract new members
- We are looking forward to becoming a member of the Dallington community
