4.2 Belfast Netball Club

Karen Ellis, President addressed the Board on behalf of the Belfast Netball Club regarding the changing rooms, toilets building and the netball courts at Shenley Reserve.

Ms Ellis advised that the Club is the largest community club feeding to Christchurch Netball. It has had increasing membership over recent years and expects further increase due to new subdivision in the area. Teams train at Shenley Reserve. Ms Ellis said that the netball courts at the Reserve are substandard and are in need of replacement as they are subject to flooding when it rains, covered in slippery ice on frosty mornings, are slippery in evenings due to night dew and dampness and have cracks in the concrete. Improved lighting is also needed. The club does not have the financial resources to pay for these upgrades and is seeking assistance from the Council.

Ms Ellis further advised that toilets are currently at a level of 62 percent compliance with the building code and are not open to the general public but are used by the netball and rugby club members. Members are constantly complaining about the state of the facilities with toilets not flushing properly and step cracking and separation in the walls and inadequate lighting. .

After questions from Board members, the Chairperson thanked Ms Ellis for her presentation, on behalf of Belfast Netball Club.

The Board agreed to request staff advice on the safety of the changing rooms and toilet facilities on Shenley Reserve for use by netball and rugby club members, whether there is a cleaning regime in place and whether the courts are to be resurfaced or replaced.

There are continued issues, however, with visitors to Willowbank parking on the road illegally.

Willowbank has explored ways to solve the problem including changing the layout of its current parking, contacting close neighbours to acquire additional land to create more onsite parking but have not been able to find a viable solution.

Ms Willis said Willowbank is conscious that the current parking issues may be causing concerns for its neighbours and asked the Board to look at the possibility of additional on street parking spaces being made available.

After questions from Board members, the Chairperson thanked Ms Willis for her presentation, on behalf of Willowbank.

The Board agreed to request staff advice on options for the creation of additional on street parking on Hussey Road in the vicinity of Willowbank.

The target market for this programme is families that are not currently using other holiday programme providers for child care to cover working hours. They will also be providing the programme for families that are using their other Community programmes including ESOL classes and Mainly Music.</p> <p>The aim is to provide a programme of activities to support the social, cognitive and physical development of children in a fun and friendly atmosphere and where children can connect and make friends with peers from across the school communities in the local area. This particular programme is intended to focus on social skills that the group feel have been hampered by social restrictions and complete lockdown over the past months. The theme for the programme is "Our city and our children are Treasures, special and unique". They will be supporting and exploring a range of local attractions around Christchurch that will give a varied programme and an awareness and appreciation of the local environment. Activities and outings include: the Art Gallery, Gondola, Willowbank, School of Gymnastics, Mini Golf, Margaret Mahy Playground, C1 Café and the Antarctic Centre.</p> <p>While the support of local attractions and activities are important in the current economic climate and it is exciting for the twenty participants and volunteer leaders this does create costs in excess of other holiday programmes in general. The group are looking at, at least an outing each day of the week and sometimes two (eight across the five days). Many Holiday Programmes may do only one or two outings in a week.</p> <p>The ratio (1:3) of supervision to children in attendance is high for a holiday programme with seven volunteers and 20 children expected. The volunteer costs are a koha to the volunteers and volunteer entry fees to activities are an additional cost for the programme. The cost for each child to attend the week long programme is \$100.</p> <p>The staff recommendation provides consistency with other holiday and children's and youth programme granted across the Board area.</p>

3.4 Community Updates

3.4.1 The Walking Festival - The Walking Festival is normally held during the September/October school holidays. The Festival planning committee have decided to postpone the Festival until the April 2021 school holidays (17 April to the 2nd May 2021).

3.4.2 Biketober - Biketober is a month long festival promoting biking related events and encouraging Cantabrians to explore their region by bike. The Festival is now in its fourth year and promotes cycling for transportation, recreation or health and well-being. The organisers especially invite people discovered during Covid-19 lockdown that Christchurch is the perfect place to ride a bike by yourself, or with family and friends. The Biketober theme for 2020 is 'Our City, Our Health, Our Environment'. Local organisers are invited to register their biking event to get involved for the 2020 Festival to be held in October 2020.

3.4.3 Heritage Festival - Planning is underway for a smaller, simpler festival in 2020 due to the COVID-19 pandemic. The festival will be held from Saturday 24 October 2020 to Sunday 8 November 2020.

3.4.4 Burnside Bowling Club - Accessible Toilets - The opportunity for the Burnside Bowling Club to host the world championships for disabled bowling posed a dilemma for the Club as their existing toilet facilities, built in 1975, needed an upgrade to cater for more disabled players.

With the support from the Board and the Fendalton-Waimairi-Harewood Community Recreation Advisor, the Club applied to the Council's Capital Endowment Fund and was extremely grateful to receive a grant of \$52,000 towards building of their new accessible toilets.

While the championships are now on hold due to the COVID-19 pandemic, the Club is hopeful that the new facilities will attract more wheelchair users to the club.

3.4.5 Aotearoa Rockstars - The Ma Charitable Aotearoa Rockstars programme is bringing Te Reo to the community through Community organisations, Businesses and this time around, Burnside High School students. The programme has been running in Jellie Park, Fendalton Library and Fendalton New World to great community response.

In spite of the stopping and starting due to the COVID-19 pandemic, the programme has continued, at times on line, but always with fun and enthusiasm. The programme is getting great publicity and recently at the Fendalton Library it filmed a segment for 'What Now'.

4. Advice Provided to the Community Board

4.1 98 Russley Road

Residents have been in contact with the Council with concerns regarding an activity proposed for 98 Russley Road.

The Council's Compliance Team, in conjunction with the relevant Council Departments, have been investigating to ensure that the requirements of the District Plan are met before the activity can commence.

4.2 Wairakei Road/Grahams Road Intersection

At its meeting on 15 June 2020 meeting the Board approved road layout and lane changes to improve safety concerns at the Wairakei Road/Grahams Road Intersection. These changes are now in operation and the feedback received from residents has been very positive.

4.3 Council Facilities in Fendalton-Waimairi-Harewood Wards

The Christchurch City Council's Facilities Property Management Team are looking to maintain and refurbish, over the next two years, those Council's Community Facilities located within the Board area.

Harewood Hall is the first building to be considered with earthquake strengthening repairs to be carried out this financial year.

Abberley Park, Fendalton Community Centre and Avic Hill are all due for refurbishment in the 2021/22 financial year and regular user groups are being contacted now for their input into these refurbishments.

Introduction

1. The Waimāero/Fendalton-Waimairi-Harewood Community Board ('the Board') appreciates the opportunity to submit on the Christchurch City Council's Draft Waste Management and Minimisation Plan 2020 ('the draft Plan') and 2019 Waste Assessment.
2. The Board does wish to be heard in support of its submission.

Comments

3. **Do you have any comments about our 2019 Waste Assessment?**
 - 3.1 The Board considers the 2019 Waste Assessment to be a comprehensive assessment of the outcomes of the Waste Management and Minimisation Plan 2013. The Board also considers that the Waste Management and Minimisation Plan 2013 was fit for purpose for its time.
4. **Do you think this Draft Plan does enough to manage and minimise waste to landfill**

No.

 - 4.1 The Board supports the proposals in the draft Plan to manage and minimise waste to landfill, but considers more can be done to change the behaviour of the city's residents and businesses. The Board would like to see an increase in the education of best practices for minimising the waste being sent to landfill and that information be included on the cost to the city, both socially and environmentally should they not comply.
 - 4.2 Information on what can and can't go into each of the three bins needs to be readily available and able to be attached to the appropriate bin. The Board recommends that consideration be given to the development of incentives that encourage the correct behaviours, for example a recognition initiative such as a street award that encourages neighbourhoods to collaborate to keep each other accountable, or a 'star' business award. To further encourage a reduction in waste to landfill, the disposal of organic waste and the recycling of goods should be free of cost, while the cost for landfill waste needs to be expensive. The Board would also like to see enforcement measures undertaken for those who regularly abuse the system.
 - 4.3 The Board supports the education of young children in 'green' practices particularly with regarding to recycling and composting. An educational programme that shows the benefits

of recycling and zero waste on the environment could be developed and provided to local schools.

5. **Do you think this Draft Plan does enough to manage organics and recycling?**

No.

- 5.1 The Board supports the proposals to manage organics and recycling but it would like to see more being done to promote the reuse/recycle considerations.
- 5.2 In addition to the plastic resin identification code information, the Board strongly recommends that the Council develop a database listing all businesses/groups that can make use of unrecyclable or non-compostable items, for example bottle tops, twist ties and milk cartons. The database can be made available to residents via their rates bill, through the local libraries and other Council facilities. The information can also be provided to local businesses.
- 5.3 The Board is of the opinion that to encourage increased recycling behaviours, consumers need more sustainable and affordable choices. Examples of this include: more bulk buying options and a 'bring your own container' system that is both affordable and readily available. Both of these examples would reduce much of the packaging waste associated with food products.
- 5.4 To encourage recycling, the Board suggests that the Council adopt a 'lead by example' approach and introduce a large number of recycling bins, in particular with tubes for the recycling of bottles and cans, across the city. The installation of these bottle/can recycling bins at our larger parks and community facilities would provide recycling options that are not always available in these areas. Recycling bins could also be installed in the vicinity of the clothing bins located across the city, in the forecourt of petrol stations and mall carparks.
- 5.5 In another effort to promote recycling and reuse, the Board suggests that a biannual skip day be introduced. The Board has noticed an increase in the amount of unwanted household goods being left out on street berms and suggests that a skip day may help reduce this, particularly if the timing coincides with the end of the University's academic year.

6. **Do you think this Draft Plan does enough to move towards zero waste and a circular economy?**

No.

- 6.1 The Board considers that the Plan is moving towards a zero waste and a circular economy, but that the proposed measures are not far enough reaching. To get there we need to be a 'package free' society.
- 6.2 The Board appreciates the challenges in reaching zero waste and a circular economy and notes that with a high percentage of our consumer goods being imported it is hard to make demands regarding the use of recyclable components and becoming package free, but to get there these things need to happen. The Board recommends that the Council look to support businesses who are working towards a zero waste and circular economy and encourage those businesses with products that are not recyclable/reusable to move towards sustainable products.
- 6.3 Further, the Board recommends that the Council lobby the Government for local goods and services to be fully recyclable to fit with a circular economy.

7. Overall, do you support the direction of the Draft Waste Minimisation and Management Plan?

Yes.

- 8.1 Although not as far reaching as the Board would prefer, the Board supports the direction of the Draft Waste Minimisation and Management Plan 2020. We recognise that achieving a zero waste and circular economy will require deep systemic change which will require the commitment and effort from all sectors and individuals to make more sustainable choices however, these choices must also be affordable.
- 8.2 In working towards a zero waste and circular economy the Board encourages the Council to embrace new technologies and practices with an aim to be the 'Eco City' of New Zealand by 2040 with actions and goals to be achieved within that timeline.
