Staff Assessment

This project is recommended as a Priority One due to its alignment to the Council outcomes and priorities as well as the significant depth of the project, best practice model and proven track record.

ACTIS is in real need of the support a new sound system will offer. The Trust is regularly involved in community facing events that require an audible and professional sounding public address system. ACTIS work from a collaborative model and see the purchase of a sound system as something that could be shared and used by other community groups to expand reach and service provision within Aranui and the greater Aranui Community.

The obvious lack of a decent sound system has caused considerable stress at times when credibility and assurance is needed. Examples of use are when facilitating a Tangi or holding a memorial event as well as regular events that occur in the Aranui Park, nearby schools and other venues.

In 2020 as a result of the COVID Pandemic ACTIS cancelled the normal annual event "AFFIRM" which has been provided the community for 19 years in a row. The Board of ACTIS, Management and Staff decided to instead offer a local event focused on health issues, to be held on the pavement outside the ACTIS premises. This event was a great example of being able to be responsive to the local needs as well as reacting to the much wider pandemic circumstance. A sound system during this day would have been useful to be able to manage the large numbers of attendees safely.

Post COVID the Aranui community has been one of the most significantly affected due to the unemployment of women in the hospitality/retail trade. Reaching these people easily will ensure supports are seen, heard and utilized.

The purchase of a Public Address system, at this time, will help ACTIS to more easily facilitate their public events and to continue to draw in more families who are in need of their services.
