Papatipu Rūnanga: evolving our approach to planning & partnership

Te Hononga Papatipu Rūnanga Briefing
9 March 2022

Purpose and Approach

- Recent meetings with Papatipu Rūnanga – thank you!
- Reflections on Long Term and Annual Plan processes
- Sharing priorities
- Annual Plan focus re Koukourārata
- Suggested next steps

Long Term Plan 2021-2031

- Pre-consultation discussion
- Consultation Process early 2021
- Submissions received from Koukourārata and Ngāti Wheke
- Hearings held
- Long Term Plan adopted June 2021
- Didn't work well for Papatipu Rūnanga
- Unrealistic timeframes and not aligned with Te Hononga meetings
- Formal consultation process not appropriate
- **Need to find a better way to reflect our evolving partnership**

For Immediate discussion: Annual Plan 2022-2023

- Capital programme constraints - Covid, supply chain
- In response to longstanding submissions, Koukourārata Drinking Water identified as a potential capital project – proposal to bring forward to 2022-23. Recommended by staff and endorsed by Councillors in draft.
- Formal consultation process to occur starting 11 March 2022

Evolving Long Term and Annual Plans: moving to partnership in practice

“Waiho i te toipoto, kaua i te toiroa

Let us keep close together, not wide apart”

10 March 2022

Christchurch
City Council 

Themes arising from our meetings

- **Governance**
 - Three Waters and other local government reforms
 - OARC
- **Over-arching social and economic outcomes**
 - Social procurement by Council and CCOs
 - Affordable housing including Papakainga Development
 - Destination Management Plan Development
 - Employment
- **Services**
 - Water connection to town supply and sewerage;
 - Upgrades/projects for inclusion in maintenance and safety programmes
- **Environment**
 - Bio-diversity enhancement
 - Water quality and management
 - Climate resilience
 - Harbour management plans
- **Specific projects** of special significance to rūnanga and the District - examples
 - Takapūneke Reserve Development
 - Traffic Management Rāpaki
- **Other**
 - Future of Te Hononga

Building on our relationship approach in the future

- Opportunity to co-design a new way to engage between iwi and Council
- How could a true partnership approach work for Papatipu Rūnanga?
- What would it look like in practice?
- What timeframes make sense to have meaningful input?
- Some ideas proposed in following slide: “starters for ten”

Initial thoughts for feedback

- In person meetings with each Rūnanga individually eg annual or six month
- One page summary of outcomes/long term goals
- Develop shared understanding of key priorities – at early development phase of Long Term/Annual Plans.
- Facilitate discussion with relevant Council staff to scope/technical advice/co-design
- Report back process managed by Council (minimise burden on Rūnanga)
- Agree 1-2 joint projects eg climate resilience, social procurement **or** affordable housing
- Principal advisors to facilitate, and other Council staff to take responsibility for follow through
- Community advisor role
- Consider future and terms of reference for Te Hononga following 2022 Election and potential representation on Council decision making committees for LTP

Conclusion

10 March 2022

Christchurch
City Council 

Conclusion - Next steps

- Reflection on formal Council processes and how we can improve
- Initial discussion on a partnership approach: welcome further input
- Annual plan 2023: Koukourārata proposal
- Thank you
